PERMIT MAPS

**SECTION B. General State Only Requirements****#001 [25 Pa. Code § 121.1]****Definitions.**

Words and terms that are not otherwise defined in this permit shall have the meanings set forth in Section 3 of the Air Pollution Control Act (35 P.S. § 4003) and in 25 Pa. Code § 121.1.

#002 [25 Pa. Code § 127.446]**Operating Permit Duration.**

- (a) This operating permit is issued for a fixed term of five (5) years and shall expire on the date specified on Page 1 of this permit.
- (b) The terms and conditions of the expired permit shall automatically continue pending issuance of a new operating permit, provided the permittee has submitted a timely and complete application and paid applicable fees required under 25 Pa. Code Chapter 127, Subchapter I and the Department is unable, through no fault of the permittee, to issue or deny a new permit before the expiration of the previous permit.

#003 [25 Pa. Code §§ 127.412, 127.413, 127.414, 127.446 & 127.703(b)]**Permit Renewal.**

- (a) The permittee shall submit a timely and complete application for renewal of the operating permit to the appropriate Regional Air Program Manager. The application for renewal of the operating permit shall be submitted at least six (6) months and not more than 18 months before the expiration date of this permit.
- (b) The application for permit renewal shall include the current permit number, a description of any permit revisions that occurred during the permit term, and any applicable requirements that were promulgated and not incorporated into the permit during the permit term. An application is complete if it contains sufficient information to begin processing the application, has the applicable sections completed and has been signed by a responsible official.
- (c) The permittee shall submit with the renewal application a fee for the processing of the application as specified in 25 Pa. Code § 127.703(b). The fees shall be made payable to "The Commonwealth of Pennsylvania Clean Air Fund" and submitted with the fee form to the respective regional office.
- (d) The renewal application shall also include submission of proof that the local municipality and county, in which the facility is located, have been notified in accordance with 25 Pa. Code § 127.413.
- (e) The application for renewal of the operating permit shall also include submission of supplemental compliance review forms in accordance with the requirements of 25 Pa. Code § 127.412(b) and § 127.412(j).
- (f) The permittee, upon becoming aware that any relevant facts were omitted or incorrect information was submitted in the permit application, shall promptly submit such supplementary facts or corrected information as necessary to address any requirements that become applicable to the source after the permittee submits a complete application, but prior to the date the Department takes action on the permit application.

#004 [25 Pa. Code § 127.703]**Operating Permit Fees under Subchapter I.**

- (a) The permittee shall pay the annual operating permit maintenance fee according to the following fee schedule in either paragraph (1) or (2) in accordance with 25 Pa. Code § 127.703(d) on or before December 31 of each year for the next calendar year.
- (1) For a synthetic minor facility, a fee equal to:
- (i) Four thousand dollars (\$4,000) for calendar years 2021—2025.
 - (ii) Five thousand dollars (\$5,000) for calendar years 2026—2030.
 - (iii) Six thousand three hundred dollars (\$6,300) for the calendar years beginning with 2031.

**SECTION B. General State Only Requirements**

(2) For a facility that is not a synthetic minor, a fee equal to:

- (i) Two thousand dollars (\$2,000) for calendar years 2021—2025.
- (ii) Two thousand five hundred dollars (\$2,500) for calendar years 2026—2030.
- (iii) Three thousand one hundred dollars (\$3,100) for the calendar years beginning with 2031.

(b) The applicable fees shall be made payable to "The Commonwealth of Pennsylvania Clean Air Fund" with the permit number clearly indicated and submitted to the respective regional office.

#005 [25 Pa. Code §§ 127.450 (a)(4) and 127.464]**Transfer of Operating Permits.**

(a) This operating permit may not be transferred to another person, except in cases of transfer-of-ownership that are documented and approved by the Department.

(b) In accordance with 25 Pa. Code § 127.450(a)(4), a change in ownership of the source shall be treated as an administrative amendment if the Department determines that no other change in the permit is required and a written agreement has been submitted to the Department identifying the specific date of the transfer of permit responsibility, coverage and liability between the current and the new permittee and a compliance review form has been submitted to, and the permit transfer has been approved by, the Department.

(c) This operating permit is valid only for those specific sources and the specific source locations described in this permit.

#006 [25 Pa. Code § 127.441 and 35 P.S. § 4008]**Inspection and Entry.**

(a) Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Department or authorized representatives of the Department to perform the following:

(1) Enter at reasonable times upon the permittee's premises where a source is located or emissions related activity is conducted, or where records are kept under the conditions of this permit;

(2) Have access to and copy, at reasonable times, any records that are kept under the conditions of this permit;

(3) Inspect at reasonable times, any facilities, equipment including monitoring and air pollution control equipment, practices, or operations regulated or required under this permit;

(4) Sample or monitor, at reasonable times, any substances or parameters, for the purpose of assuring compliance with the permit or applicable requirements as authorized by the Clean Air Act, the Air Pollution Control Act, or the regulations promulgated under the Acts.

(b) Pursuant to 35 P.S. § 4008, no person shall hinder, obstruct, prevent or interfere with the Department or its personnel in the performance of any duty authorized under the Air Pollution Control Act or regulations adopted thereunder including denying the Department access to a source at this facility. Refusal of entry or access may constitute grounds for permit revocation and assessment of criminal and/or civil penalties.

(c) Nothing in this permit condition shall limit the ability of the EPA to inspect or enter the premises of the permittee in accordance with Section 114 or other applicable provisions of the Clean Air Act.

#007 [25 Pa. Code §§ 127.441 & 127.444]**Compliance Requirements.**

(a) The permittee shall comply with the conditions of this operating permit. Noncompliance with this permit constitutes a violation of the Clean Air Act and the Air Pollution Control Act and is grounds for one or more of the following:

**SECTION B. General State Only Requirements**

- (1) Enforcement action
- (2) Permit termination, revocation and reissuance or modification
- (3) Denial of a permit renewal application

(b) A person may not cause or permit the operation of a source which is subject to 25 Pa. Code Article III unless the source(s) and air cleaning devices identified in the application for the plan approval and operating permit and the plan approval issued for the source is operated and maintained in accordance with specifications in the applications and the conditions in the plan approval and operating permit issued by the Department. A person may not cause or permit the operation of an air contamination source subject to 25 Pa. Code Chapter 127 in a manner inconsistent with good operating practices.

(c) For purposes of Sub-condition (b) of this permit condition, the specifications in applications for plan approvals and operating permits are the physical configurations and engineering design details which the Department determines are essential for the permittee's compliance with the applicable requirements in this State-Only permit. Nothing in this sub-condition shall be construed to create an independent affirmative duty upon the permittee to obtain a predetermination from the Department for physical configuration or engineering design detail changes made by the permittee.

#008 [25 Pa. Code § 127.441]**Need to Halt or Reduce Activity Not a Defense.**

It shall not be a defense for the permittee in an enforcement action that it was necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

#009 [25 Pa. Code §§ 127.442(a) & 127.461]**Duty to Provide Information.**

(a) The permittee shall submit reports to the Department containing information the Department may prescribe relative to the operation and maintenance of each source at the facility.

(b) The permittee shall furnish to the Department, in writing, information that the Department may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with the permit. Upon request, the permittee shall also furnish to the Department copies of records that the permittee is required to maintain in accordance with this permit.

#010 [25 Pa. Code § 127.461]**Revising an Operating Permit for Cause.**

This operating permit may be terminated, modified, suspended or revoked and reissued if one or more of the following applies:

- (1) The permittee constructs or operates the source subject to the operating permit so that it is in violation of the Air Pollution Control Act, the Clean Air Act, the regulations thereunder, a plan approval, a permit or in a manner that causes air pollution.
- (2) The permittee fails to properly or adequately maintain or repair an air pollution control device or equipment attached to or otherwise made a part of the source.
- (3) The permittee has failed to submit a report required by the operating permit or an applicable regulation.
- (4) The EPA determines that the permit is not in compliance with the Clean Air Act or the regulations thereunder.

#011 [25 Pa. Code §§ 127.450, 127.462, 127.465 & 127.703]**Operating Permit Modifications**

(a) The permittee is authorized to make administrative amendments, minor operating permit modifications and significant operating permit modifications, under this permit, as outlined below:

**SECTION B. General State Only Requirements**

(b) Administrative Amendments. The permittee shall submit the application for administrative operating permit amendments (as defined in 25 Pa. Code § 127.450(a)), according to procedures specified in § 127.450 unless precluded by the Clean Air Act or its regulations.

(c) Minor Operating Permit Modifications. The permittee shall submit the application for minor operating permit modifications (as defined 25 Pa. Code § 121.1) in accordance with 25 Pa. Code § 127.462.

(d) Significant Operating Permit Modifications. The permittee shall submit the application for significant operating permit modifications in accordance with 25 Pa. Code § 127.465.

(e) The applicable fees shall be made payable to "The Commonwealth of Pennsylvania Clean Air Fund" with the permit number clearly indicated and submitted to the respective regional office.

#012 [25 Pa. Code § 127.441]**Severability Clause.**

The provisions of this permit are severable, and if any provision of this permit is determined by a court of competent jurisdiction to be invalid or unenforceable, such a determination will not affect the remaining provisions of this permit.

#013 [25 Pa. Code § 127.449]**De Minimis Emission Increases.**

(a) This permit authorizes de minimis emission increases in accordance with 25 Pa. Code § 127.449 so long as the permittee provides the Department with seven (7) days prior written notice before commencing any de minimis emissions increase. The written notice shall:

(1) Identify and describe the pollutants that will be emitted as a result of the de minimis emissions increase.

(2) Provide emission rates expressed in tons per year and in terms necessary to establish compliance consistent with any applicable requirement.

(b) The Department may disapprove or condition de minimis emission increases at any time.

(c) Except as provided below in (d), the permittee is authorized to make de minimis emission increases (expressed in tons per year) up to the following amounts without the need for a plan approval or prior issuance of a permit modification:

(1) Four tons of carbon monoxide from a single source during the term of the permit and 20 tons of carbon monoxide at the facility during the term of the permit.

(2) One ton of NO_x from a single source during the term of the permit and 5 tons of NO_x at the facility during the term of the permit.

(3) One and six-tenths tons of the oxides of sulfur from a single source during the term of the permit and 8.0 tons of oxides of sulfur at the facility during the term of the permit.

(4) Six-tenths of a ton of PM₁₀ from a single source during the term of the permit and 3.0 tons of PM₁₀ at the facility during the term of the permit. This shall include emissions of a pollutant regulated under Section 112 of the Clean Air Act unless precluded by the Clean Air Act, the regulations thereunder or 25 Pa. Code Article III.

(5) One ton of VOCs from a single source during the term of the permit and 5.0 tons of VOCs at the facility during the term of the permit. This shall include emissions of a pollutant regulated under Section 112 of the Clean Air Act unless precluded by the Clean Air Act, the regulations thereunder or 25 Pa. Code Article III.

(6) Other sources and classes of sources determined to be of minor significance by the Department.

(d) In accordance with § 127.14, the permittee is authorized to install the following minor sources without the need for a plan approval or permit modification:

**SECTION B. General State Only Requirements**

- (1) Air conditioning or ventilation systems not designed to remove pollutants generated or released from other sources.
- (2) Combustion units rated at 2,500,000 or less Btu per hour of heat input.
- (3) Combustion units with a rated capacity of less than 10,000,000 Btu per hour heat input fueled by natural gas supplied by a public utility or by commercial fuel oils which are No. 2 or lighter, viscosity less than or equal to 5.82 c St, and which meet the sulfur content requirements of 25 Pa. Code §123.22 (relating to combustion units). For purposes of this permit, commercial fuel oil shall be virgin oil which has no reprocessed, recycled or waste material added.
- (4) Space heaters which heat by direct heat transfer.
- (5) Laboratory equipment used exclusively for chemical or physical analysis.
- (6) Other sources and classes of sources determined to be of minor significance by the Department.
- (e) This permit does not authorize de minimis emission increases if the emissions increase would cause one or more of the following:
- (1) Increase the emissions of a pollutant regulated under Section 112 of the Clean Air Act except as authorized in Subparagraphs (c)(4) and (5) of this permit condition.
- (2) Subject the facility to the prevention of significant deterioration requirements in 25 Pa. Code Chapter 127, Subchapter D and/or the new source review requirements in Subchapter E.
- (3) Violate any applicable requirement of this permit, the Air Pollution Control Act, the Clean Air Act, or the regulations promulgated under either of the acts.
- (f) Emissions authorized under this permit condition shall be included in the monitoring, recordkeeping and reporting requirements of this permit.
- (g) Except for de minimis emission increases, installation of minor sources made pursuant to this permit condition and Plan Approval Exemptions under 25 Pa. Code § 127.14 (relating to exemptions), the permittee is prohibited from making changes or engaging in activities that are not specifically authorized under this permit without first applying for a plan approval. In accordance with § 127.14(b), a plan approval is not required for the construction, modification, reactivation, or installation of the sources creating the de minimis emissions increase.
- (h) The permittee may not meet de minimis emission threshold levels by offsetting emission increases or decreases at the same source.

#014 [25 Pa. Code § 127.3]**Operational Flexibility.**

The permittee is authorized to make changes within the facility in accordance with the regulatory provisions outlined in 25 Pa. Code § 127.3 (relating to operational flexibility) to implement the operational flexibility requirements provisions authorized under Section 6.1(i) of the Air Pollution Control Act and the operational flexibility terms and conditions of this permit. The provisions in 25 Pa. Code Chapter 127 which implement the operational flexibility requirements include the following:

- (1) Section 127.14 (relating to exemptions)
- (2) Section 127.447 (relating to alternative operating scenarios)
- (3) Section 127.448 (relating to emissions trading at facilities with Federally enforceable emissions caps)
- (4) Section 127.449 (relating to de minimis emission increases)
- (5) Section 127.450 (relating to administrative operating permit amendments)

**SECTION B. General State Only Requirements**

(6) Section 127.462 (relating to minor operating permit modifications)

(7) Subchapter H (relating to general plan approvals and general operating permits)

#015 [25 Pa. Code § 127.11]**Reactivation**

(a) The permittee may not reactivate a source that has been out of operation or production for at least one year unless the reactivation is conducted in accordance with a plan approval granted by the Department or in accordance with reactivation and maintenance plans developed and approved by the Department in accordance with 25 Pa. Code § 127.11a(a).

(b) A source which has been out of operation or production for more than five (5) years but less than 10 years may be reactivated and will not be considered a new source if the permittee satisfies the conditions specified in 25 Pa. Code § 127.11a(b).

#016 [25 Pa. Code § 127.36]**Health Risk-based Emission Standards and Operating Practice Requirements.**

(a) When needed to protect public health, welfare and the environment from emissions of hazardous air pollutants from new and existing sources, the permittee shall comply with the health risk-based emission standards or operating practice requirements imposed by the Department, except as precluded by §§ 6.6(d)(2) and (3) of the Air Pollution Control Act [35 P.S. § 4006.6(d)(2) and (3)].

(b) A person challenging a performance or emission standard established by the Department has the burden to demonstrate that performance or emission standard does not meet the requirements of Section 112 of the Clean Air Act.

#017 [25 Pa. Code § 121.9]**Circumvention.**

No person may permit the use of a device, stack height which exceeds good engineering practice stack height, dispersion technique or other technique which, without resulting in reduction of the total amount of air contaminants emitted, conceals or dilutes an emission of air contaminants which would otherwise be in violation of 25 Pa. Code Article III, except that with prior approval of the Department, the device or technique may be used for control of malodors.

#018 [25 Pa. Code §§ 127.402(d) & 127.442]**Reporting Requirements.**

(a) The permittee shall comply with the applicable reporting requirements of the Clean Air Act, the regulations thereunder, the Air Pollution Control Act and 25 Pa. Code Article III including Chapters 127, 135 and 139.

(b) The permittee shall submit reports to the Department containing information the Department may prescribe relative to the operation and maintenance of any air contamination source.

(c) Reports, test data, monitoring data, notifications and requests for renewal of the permit shall be submitted to the:

Regional Air Program Manager
PA Department of Environmental Protection
(At the address given in the permit transmittal letter, or otherwise notified)

(d) Any records or information including applications, forms, or reports submitted pursuant to this permit condition shall contain a certification by a responsible official as to truth, accuracy and completeness. The certifications submitted under this permit shall require a responsible official of the facility to certify that based on information and belief formed after reasonable inquiry, the statements and information in the documents are true, accurate and complete.

(e) Any records, reports or information submitted to the Department shall be available to the public except for such

**SECTION B. General State Only Requirements**

records, reports or information which meet the confidentiality requirements of § 4013.2 of the Air Pollution Control Act and §§ 112(d) and 114(c) of the Clean Air Act. The permittee may not request a claim of confidentiality for any emissions data generated for the facility.

#019 [25 Pa. Code §§ 127.441(c) & 135.5]**Sampling, Testing and Monitoring Procedures.**

(a) The permittee shall comply with the monitoring, recordkeeping or reporting requirements of 25 Pa. Code Chapter 139 and the other applicable requirements of 25 Pa. Code Article III and additional requirements related to monitoring, reporting and recordkeeping required by the Clean Air Act and the regulations thereunder including the Compliance Assurance Monitoring requirements of 40 CFR Part 64, where applicable.

(b) Unless alternative methodology is required by the Clean Air Act and regulations adopted thereunder, sampling, testing and monitoring required by or used by the permittee to demonstrate compliance with any applicable regulation or permit condition shall be conducted in accordance with the requirements of 25 Pa. Code Chapter 139.

#020 [25 Pa. Code §§ 127.441(c) and 135.5]**Recordkeeping.**

(a) The permittee shall maintain and make available, upon request by the Department, the following records of monitored information:

- (1) The date, place (as defined in the permit) and time of sampling or measurements.
- (2) The dates the analyses were performed.
- (3) The company or entity that performed the analyses.
- (4) The analytical techniques or methods used.
- (5) The results of the analyses.
- (6) The operating conditions as existing at the time of sampling or measurement.

(b) The permittee shall retain records of any required monitoring data and supporting information for at least five (5) years from the date of the monitoring, sample, measurement, report or application. Supporting information includes the calibration data and maintenance records and original strip-chart recordings for continuous monitoring instrumentation, and copies of reports required by the permit.

(c) The permittee shall maintain and make available to the Department upon request, records including computerized records that may be necessary to comply with the reporting, recordkeeping and emission statement requirements in 25 Pa. Code Chapter 135 (relating to reporting of sources). In accordance with 25 Pa. Code Chapter 135, § 135.5, such records may include records of production, fuel usage, maintenance of production or pollution control equipment or other information determined by the Department to be necessary for identification and quantification of potential and actual air contaminant emissions.

#021 [25 Pa. Code § 127.441(a)]**Property Rights.**

This permit does not convey any property rights of any sort, or any exclusive privileges.

#022 [25 Pa. Code § 127.447]**Alternative Operating Scenarios.**

The permittee is authorized to make changes at the facility to implement alternative operating scenarios identified in this permit in accordance with 25 Pa. Code § 127.447.

**SECTION B. General State Only Requirements****#023 [25 Pa. Code §135.3]****Reporting**

(a) If the facility is a Synthetic Minor Facility, the permittee shall submit by March 1 of each year an annual emissions report for the preceding calendar year. The report shall include information for all active previously reported sources, new sources which were first operated during the preceding calendar year, and sources modified during the same period which were not previously reported. All air emissions from the facility should be estimated and reported.

(b) A source owner or operator of a Synthetic Minor Facility may request an extension of time from the Department for the filing of an annual emissions report, and the Department may grant the extension for reasonable cause.

#024 [25 Pa. Code §135.4]**Report Format**

If applicable, the emissions reports shall contain sufficient information to enable the Department to complete its emission inventory. Emissions reports shall be made by the source owner or operator in a format specified by the Department.

**SECTION C. Site Level Requirements****I. RESTRICTIONS.****Emission Restriction(s).****# 001 [25 Pa. Code §123.1]****Prohibition of certain fugitive emissions**

The permittee shall not permit the emission into the outdoor atmosphere of fugitive air contaminants from a source other than the following:

- (1) Construction or demolition of buildings or structures,
- (2) Grading, paving and maintenance of roads and streets,
- (3) Use of roads and streets. Emissions from material in or on trucks, railroad cars and other vehicular equipment are not considered as emissions from use of roads and streets,
- (4) Clearing of land,
- (5) Stockpiling of materials,
- (6) Open burning operations.
- (7) Blasting in open pit mines. Emissions from drilling are not considered emission from blasting.
- (8) Sources and classes of sources other than those identified above, for which the permittee has obtained a determination from the Department that fugitive emissions from the source, after appropriate control, meet the following requirements:
 - (a) The emissions are of minor significance with respect to causing air pollution,
 - (b) The emissions are not preventing or interfering with the attainment or maintenance of any ambient air quality standard.

002 [25 Pa. Code §123.2]**Fugitive particulate matter**

The permittee shall not permit fugitive particulate matter to be emitted into the outdoor atmosphere from a source specified in Condition #001(1)-(8) above, if the emissions are visible at the point the emissions pass outside the person's property.

003 [25 Pa. Code §123.41]**Limitations**

The permittee shall not permit the emission of visible air contaminants into the outdoor atmosphere in such a manner that the opacity of the emission is either of the following:

- (1) Equal to or greater than 20% for a period or periods aggregating more than three minutes in any 1 hour.
- (2) Equal to or greater than 60% at any time.

004 [25 Pa. Code §123.42]**Exceptions**

The emission limitations of 25 Pa. Code Section 123.41 shall not apply when:

- (1) The presence of uncombined water is the only reason for failure of the emission to meet the limitations,
- (2) The emission results from the operation of equipment used solely to train and test persons in observing the opacity of visible emissions,
- (3) The emission results from sources specified in 25 Pa. Code Section 123.1(a)(1)-(9).

Throughput Restriction(s).**# 005 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for part of this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

**SECTION C. Site Level Requirements**

No more than 2,076,250 tons of primary finished product and no more than 1,287,275 tons of secondary finished product shall be produced in any 12 consecutive month period.

II. TESTING REQUIREMENTS.**# 006 [25 Pa. Code §139.1]****Sampling facilities.**

Upon the request of the Department, the permittee shall provide adequate sampling ports, safe sampling platforms and adequate utilities for the performance by the Department of tests on a source. The Department will set forth, in the request, the time period in which the facilities shall be provided as well as the specifications for such facilities.

007 [25 Pa. Code §139.11]**General requirements.**

(1) As specified in 25 Pa. Code Section 139.11(1), performance tests shall be conducted while the source is operating at maximum routine operating conditions or under such other conditions, within the capacity of the equipment, as may be requested by the Department.

(2) As specified in 25 Pa. Code Section 139.11(2), the Department will consider test results for approval where sufficient information is provided to verify the source conditions existing at the time of the test and where adequate data is available to show the manner in which the test was conducted. Information submitted to the Department shall include, as a minimum, all of the following:

- (a) A thorough source description, including a description of any air cleaning devices and the flue.
- (b) Process conditions, for example, the charging rate of raw material or rate of production of final product, boiler pressure, oven temperature and other conditions which may effect emissions from the process.
- (c) The location of sampling ports.
- (d) Effluent characteristics, including velocity, temperature, moisture content, gas density (percentage of CO, CO₂, O₂ and N₂), static and barometric pressures.
- (e) Sample collection techniques employed, including procedures used, equipment descriptions and data to verify that isokinetic sampling for particulate matter collection occurred and that acceptable test conditions were met.
- (f) Laboratory procedures and results.
- (g) Calculated results.

III. MONITORING REQUIREMENTS.**# 008 [25 Pa. Code §123.43]****Measuring techniques**

Visible emissions may be measured using either of the following:

- (1) A device approved by the Department and maintained to provide accurate opacity measurements.
- (2) Observers, trained and qualified, to measure plume opacity with the naked eye or with the aid of any devices approved by the Department.

IV. RECORDKEEPING REQUIREMENTS.**# 009 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additionally authority for this condition is derived from 25 Pa. Code 127.1 and 127.12]

The permittee shall maintain comprehensive accurate records of the tons of primary finished product and the tons of secondary finished product produced at this facility each month. All records generated pursuant to this condition shall be retained for at least five years and shall be made available to the Department upon request.

010 [25 Pa. Code §135.5]**Recordkeeping**

- (a) The permittee shall maintain such records including computerized records as may be necessary to comply with 25 Pa.

**SECTION C. Site Level Requirements**

Code Section 135.3. These may include records of production, fuel usage, equipment maintenance records, or other information determined by the Department to be necessary for identification and quantification of potential and actual air contaminant emissions.

(b) All records generated pursuant to this condition shall be retained for a minimum of five years and shall be made available to the Department upon request.

V. REPORTING REQUIREMENTS.**# 011 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

The permittee shall submit all requested reports in accordance with the Department's suggested format.

012 [25 Pa. Code §127.442]**Reporting requirements.**

(a) The permittee shall report malfunctions, emergencies or incidents of excess emissions to the Department. A malfunction is any sudden, infrequent, and not reasonably preventable failure of air pollution control equipment, process equipment, or a process to operate in a normal or usual manner. An emergency is any situation arising from sudden and reasonably unforeseeable events beyond the control of the owner or operator of a facility which requires immediate corrective action to restore normal operation and which causes the emission source to exceed emissions, due to unavoidable increases in emissions attributable to the situation. An emergency shall not include situations caused by improperly designed equipment, lack of preventive maintenance, careless or improper operation, or operator error.

(b) When the malfunction, emergency or incident of excess emissions poses an imminent danger to the public health, safety, welfare, or environment, it shall be reported to the Department and the County Emergency Management Agency by telephone within one (1) hour after the discovery of the malfunction, emergency or incident of excess emissions. The owner or operator shall submit a written or emailed report of instances of such malfunctions, emergencies or incidents of excess emissions to the Department within three (3) business days of the telephone report.

(c) The report shall describe the following:

1. name, permit or authorization number, and location of the facility,
2. nature and cause of the malfunction, emergency or incident,
3. date and time when the malfunction, emergency or incident was first observed,
4. expected duration of excess emissions,
5. estimated rate of emissions,
6. corrective actions or preventative measures taken.

(d) Any malfunction, emergency or incident of excess emissions that is not subject to the notice requirements of paragraph (b) of this condition shall be reported to the Department by telephone within 24 hours (or by 4:00 PM of the next business day, whichever is later) of discovery and in writing or by e-mail within five (5) business days of discovery. The report shall contain the same information required by paragraph (c), and any permit specific malfunction reporting requirements.

(e) During an emergency an owner or operator may continue to operate the source at their discretion provided they submit justification for continued operation of a source during the emergency and follow all the notification and reporting requirements in accordance with paragraphs (b)-(d), as applicable, including any permit specific malfunction reporting requirements.

(f) Reports regarding malfunctions, emergencies or incidents of excess emissions shall be submitted to the appropriate DEP Regional Office Air Program Manager.

(g) Any emissions resulted from malfunction or emergency are to be reported in the annual emissions inventory report, if the annual emissions inventory report is required by permit or authorization.

013 [25 Pa. Code §135.3]**Reporting**

(a) A person who owns or operates a source to which 25 Pa. Code Chapter 135 applies, and who has previously been

**SECTION C. Site Level Requirements**

advised by the Department to submit an annual Air Information Management Systems (AIMS) report, shall submit by March 1 of each year an annual AIMS report for the preceding calendar year. The report shall include information for all previously reported sources, new sources which were first operated during the preceding calendar year and sources modified during the same period which were not previously reported.

(b) A person who receives initial notification by the Department that an annual AIMS report is necessary shall submit an initial annual AIMS report within 60 days after receiving the notification or by March 1 of the year following the year for which the report is required, whichever is later.

(c) A source owner or operator may request an extension of time from the Department for the filing of an annual AIMS report, and the Department may grant the extension for reasonable cause.

VI. WORK PRACTICE REQUIREMENTS.**# 014 [25 Pa. Code §123.1]****Prohibition of certain fugitive emissions**

The permittee shall take all reasonable actions to prevent particulate matter from becoming airborne as specified in 25 Pa. Code Section 123.1 subsection(s) (a)(1)-(7) or (a)(9). These actions shall include, but not be limited to, the following:

- (1) Use, where possible, of water or chemicals for control of dust in the demolition of buildings or structures, construction operations, the grading of roads or the clearing of land,
- (2) Application of asphalt, oil, or suitable chemicals on dirt roads, material stockpiles and other surfaces which may give rise to airborne dusts,
- (3) Paving and maintenance of roadways,
- (4) Prompt removal of earth or other material from paved streets onto which earth or other material has been transported by trucking or earth moving equipment, erosion by water, or other means.

015 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

If, at any time, the sandstone processing plant, or any piece of equipment incorporated in the plant, is determined by the Department to be causing the emission of fugitive particulate matter in excess of the limitations specified in any applicable rule or regulation contained in 25 Pa. Code Chapters 121-145 or in excess of the applicable requirements of Subpart 000 of the federal Standards of Performance for New Stationary Sources, 40 CFR 60.670-60.676, or in excess of the level which the Department considers to be the "minimum attainable through the use of the best available technology", the permittee shall, upon notification by the Department, immediately install additional water spray dust suppression equipment and/or take such other control measures as are necessary to reduce the air contaminant emissions to within the level deemed acceptable by the Department.

016 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

- (a) An operable water truck equipped with a pressurized water spray mechanism shall be kept onsite and filled with water at all times (except when refilling the truck) that the sandstone processing plant is operating.
- (b) This water truck shall be used, as needed, for the prevention and control of fugitive air contaminant emissions from plant roadways, stockpiles, etc.

017 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All trucks exiting the facility shall pass through a truck wash station which shall be used to remove dirt and mud from truck

**SECTION C. Site Level Requirements**

tires, undercarriages, etc.

VII. ADDITIONAL REQUIREMENTS.**# 018 [25 Pa. Code §121.7]****Prohibition of air pollution.**

The permittee shall not permit air pollution as that term is defined in the Pennsylvania Air Pollution Control Act (35 P.S. Sections 4001 - 4015).

019 [25 Pa. Code §123.31]**Limitations**

The permittee shall not permit the emission into the outdoor atmosphere of any malodorous air contaminants from any source in a manner that the malodors are detectable outside the property of the person on whose land the source is being operated.

020 [25 Pa. Code §129.14]**Open burning operations**

The permittee shall not permit the open burning of material at this facility unless in accordance with 25 Pa. Code Section 129.14.

VIII. COMPLIANCE CERTIFICATION.

No additional compliance certifications exist except as provided in other sections of this permit including Section B (relating to State Only General Requirements).

IX. COMPLIANCE SCHEDULE.

No compliance milestones exist.

SECTION D. Source Level Requirements

Source ID: P101

Source Name: SANDSTONE PROCESSING OPERATION

Source Capacity/Throughput:

I. RESTRICTIONS.

Emission Restriction(s).

001 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

The concentration of particulate matter in the exhaust of C101B and C101C shall not be in excess of 0.02 grains per dry standard cubic foot at any time.

002 [40 CFR Part 60 Standards of Performance for New Stationary Sources §40 CFR 60.672]

**Subpart 000 - Standards of Performance for Nonmetallic Mineral Processing Plants
Standard for particulate matter.**

The following equipment of Source P101 shall comply with the fugitive emission requirement specified in 40 CFR 60.672(b).

- Facility Item #134-004: Vibrating grizzly feeder, 46" x 16'
- Facility Item #120-040: Channel frame conveyor, 42" x 30'
- Facility Item #123-009: Radial stacking conveyor, 36" x 80'
8'x24' 3D Diester Screen
- Facility Item #120-073: 2A transfer channel frame conveyor, 36"x24'
- Facility Item #123-010: Radial stacking conveyor-Power Travel (2RC/2A),30"x80'
- Facility Item #120-060: Transfer channel frame conveyor (#3/#4), 30"x20'
- Facility Item #123-011: Radial stacking conveyor (#3/#4), 30"x80'
- Facility Item #120-061: Surge transfer channel frame conveyor, 36"x19'
- Facility Item #123-044: Kolberg surge radial stacking conveyor, 36"x120'
- Facility Item #134-007: FMC F440 vibrating feeder, 36"x54"
- Facility Item #122-001: Surge tunnel channel frame/truss conveyor, 36"x120'
- Facility Item #120-089: Hurlbert Eng. surge hopper feeder, 36"x60'
- Facility Item #135-005: Surge hopper
- Facility Item #134-016: FMC F-450 vibrating feeder, 36"x72"
- Facility Item #120-070: Secondary screen feed channel frame conveyor, 36"x52'
- Facility Item #110-006: Simplicity triple deck screen, 6'x20'
- Facility Item #120-082: Channel frame conveyor, 24"x55'
- Facility Item #254-009: Marsulex G1-108 classifier
- Facility Item #122-029: Truss frame sand conveyor, 24"x55'
- Facility Item #120-071: Tertiary under crusher channel frame conveyor, 36"x27'9"
- Facility Item #120-047: 2B transfer channel frame conveyor, 24"x16'
- Facility Item #123-013: 2B radial stacking conveyor- Power Travel, 24"x80'
- Facility Item #254-009: Marsulex G1-108 classifier
- Facility Item #201-010: Shop Bilt mineral filler silo, 100 ton
- Facility Item #138-015: Meyers HD Airlock, 12 x 12
- Facility Item #125-025: Screw conveyor, 9" x 15'8"
- Facility Item #125-033: Screw conveyor, 12" x 35'
- Facility Item #230-007: Universal U3-1600 bucket elevator, 7.5 ton/hour

**SECTION D. Source Level Requirements**

Facility Item #203-007: DCL SOV 24-10 loadout spout
 Facility Item #125-018: Screw conveyor, 6"
 Facility Item #120-112: Screen feed channel frame conveyor, 24" x 60'
 Facility Item #111-043: PEP Model DV1612S Vari Vibe screen
 Facility Item #122-055: 1B stacking truss frame conveyor, 24" x 40'
 Facility Item #120-113: PEP fines channel frame conveyor, 24" x 60'
 Lowering Tower
 Facility Item #123-xxx: one 30"x100' radial stacking conveyor
 Facility Item #125-xxx: one 14"x50' dust screw conveyor
 Facility Item #123-xxx: one 30"x100' radial stacking conveyor
 two 24"x150' channel frame conveyors
 one 24"x100' radial channel frame conveyor
 one 24"x120' channel frame conveyor
 one 36"x25' transfer conveyor
 one 36"x100' radial stacking conveyor
 one 5' x 12' double deck screen
 one 24" x 20' conveyor
 one 24" x 80' conveyor

003 [40 CFR Part 60 Standards of Performance for New Stationary Sources §40 CFR 60.672]**Subpart OOO - Standards of Performance for Nonmetallic Mineral Processing Plants
Standard for particulate matter.**

The following equipment of Source P101 shall comply with the fugitive emission requirement specified in 40 CFR 60.672(c).

Facility Item #101-010: Allis Chalmers 3042 jaw crusher
 Facility Item #104-005: Norberg 4 1/4' std. cone crusher
 Facility Item #104-006: Nordberg HP300 tertiary cone crusher

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.**# 004 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

C101B and C101C shall each be equipped with instrumentation to continuously monitor the differential pressure across each collector.

IV. RECORDKEEPING REQUIREMENTS.**# 005 [40 CFR Part 60 Standards of Performance for New Stationary Sources §40 CFR 60.676]****Subpart OOO - Standards of Performance for Nonmetallic Mineral Processing Plants
Reporting and recordkeeping.**

The permittee shall comply with all of the applicable recordkeeping requirements specified in 40 CFR 60.676.

V. REPORTING REQUIREMENTS.**# 006 [40 CFR Part 60 Standards of Performance for New Stationary Sources §40 CFR 60.4]****Subpart A - General Provisions
Address.**

**SECTION D. Source Level Requirements**

The submission of all requests, reports, applications, submittals and other communications required by Subpart 000 of the federal Standards of Performance for New Stationary Sources, 40 CFR 60.670-60.676, must be made to both the Department of Environmental Protection and the Environmental Protection Agency. The Environmental Protection Agency copies may be sent to:

U.S. EPA Region III
1650 Arch Street
11th Floor
3WC22
Philadelphia, PA 19103-2029

and

The Pennsylvania Department of Environmental Protection
Air Quality Program Manager
208 W. Third Street, Suite 101
Williamsport, PA 17701-6448

007 [40 CFR Part 60 Standards of Performance for New Stationary Sources §40 CFR 60.676]
Subpart 000 - Standards of Performance for Nonmetallic Mineral Processing Plants
Reporting and recordkeeping.

The permittee shall comply with all of the applicable reporting requirements specified in 40 CFR 60.676.

VI. WORK PRACTICE REQUIREMENTS.

008 [25 Pa. Code §127.441]
Operating permit terms and conditions.

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

A sufficient quantity of spare fabric bags for C101B and C101C shall be kept on hand at all times in order to immediately replace any worn or damaged bags due to deterioration resulting from routine operation of Source P101 and C101B and C101C.

009 [25 Pa. Code §127.441]
Operating permit terms and conditions.

[Additional authority for this permit condition is derived from the Request for Determination dated April 20, 2011]

The NORDBERG 4 ¼ cone crusher (Facility Item #104-005) shall not be operated if the material is not thoroughly wetted prior to being processed by the NORDBERG 4 ¼ cone crusher to prevent creating visible fugitive air contaminant emissions in excess of the limitations specified any applicable rule or regulation.

VII. ADDITIONAL REQUIREMENTS.

010 [25 Pa. Code §127.441]
Operating permit terms and conditions.

(1) Source P101 is a sandstone processing operation consisting of the following equipment:

Facility Item #134-004 : Vibrating grizzly feeder, 46" x 16'
Facility Item #101-010: Allis Chalmers 3042 jaw crusher
Facility Item #120-040: Channel frame conveyor, 42" x 30'
Facility Item #123-009: Radial stacking conveyor, 36" x 80'
8'x24' 3D Diester Screen
Facility Item #120-073: 2A transfer channel frame conveyor, 36"x24'
Facility Item #123-010: Radial stacking conveyor-Power Travel (2RC/2A),30"x80'
Facility Item #120-060: Transfer channel frame conveyor (#3/#4), 30"x20'
Facility Item #123-011: Radial stacking conveyor (#3/#4), 30"x80'
Facility Item #120-061: Surge transfer channel frame conveyor, 36"x19'

**SECTION D. Source Level Requirements**

Facility Item #123-044: Kolberg surge radial stacking conveyor, 36"x120'
 Facility Item #134-007: FMC F440 vibrating feeder, 36"x54"
 Facility Item #122-001: Surge tunnel channel frame/truss conveyor, 36"x120'
 Facility Item #120-089: Hurlbert Eng. surge hopper feeder, 36"x60'
 Facility Item #135-005: Surge hopper
 Facility Item #134-016: FMC F-450 vibrating feeder, 36"x72"
 Facility Item #120-070: Secondary screen feed channel frame conveyor, 36"x52'
 Facility Item #110-006: Simplicity triple deck screen, 6"x20'
 Facility Item #120-082: Channel frame conveyor, 24"x55'
 Facility Item #254-009: Marsulex G1-108 classifier
 Facility Item #122-029: Truss frame sand conveyor, 24"x55'
 Facility Item #120-071: Tertiary under crusher channel frame conveyor, 36"x27'9"
 Facility Item #120-047: 2B transfer channel frame conveyor, 24"x16'
 Facility Item #123-013: 2B radial stacking conveyor- Power Travel, 24"x80'
 Facility Item #254-009: Marsulex G1-108 classifier
 Facility Item #201-010: Shop Bilt mineral filler silo, 100 ton
 Facility Item #138-015: Meyers HD Airlock, 12 x 12
 Facility Item #125-025: Screw conveyor, 9" x 15'8"
 Facility Item #125-033: Screw conveyor, 12" x 35'
 Facility Item #230-007: Universal U3-1600 bucket elevator, 7.5 ton/hour
 Facility Item #203-007: DCL SOV 24-10 loadout spout
 Facility Item #125-018: Screw conveyor, 6"
 Facility Item #120-112: Screen feed channel frame conveyor, 24" x 60'
 Facility Item #111-043: PEP Model DV1612S Vari Vibe screen
 Facility Item #122-055: 1B stacking truss frame conveyor, 24" x 40'
 Facility Item #120-113: PEP fines channel frame conveyor, 24" x 60'
 Lowering Tower
 10' x 10' feeder bin
 Facility Item #104-005: Norberg 4 ¼' std. cone crusher
 Facility Item #104-006: Nordberg HP300 tertiary cone crusher
 550 tph pugmill mixing conveyor
 Facility Item #125-xxx: Eagle Iron Works pug mill mixer
 Facility Item #123-xxx: one 30"x100' radial stacking conveyor
 Facility Item #125-xxx: one 14"x50' dust screw conveyor
 Facility Item #123-xxx: one 30"x100' radial stacking conveyor
 two 24"x150' channel frame conveyors
 one 24"x100' radial channel frame conveyor
 one 24"x120' channel frame conveyor
 one 36"x25' transfer conveyor
 one 36"x100' radial stacking conveyor
 one 5' x 12' double deck screen
 one 24" x 20' conveyor
 one 24" x 80' conveyor

(2) Any of the above equipment can be replaced without obtaining plan approval provided that the replacement equipment is of equal or smaller size as defined in Subpart OOO of the federal Standards of Performance for New Stationary Sources, 40 CFR 60.670-60.676, and provided that the replacement equipment is of equivalent design and function (i.e., a jaw crusher may be replaced with a jaw crusher, etc.).

011 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

The air contaminant emissions from Source P101 shall be controlled by a National Environmental Service Company (NESCO) DustPro 405 water spray dust suppression system (C101A), a Johnson March Model #STH20-22 fabric collector (C101B), and a Cam Corp Model #12TR10x156 fabric collector (C101C).

**SECTION D. Source Level Requirements****# 012 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

C101A shall be equipped with a winterization system to allow for plant operation during cold weather. Additionally, it shall be equipped with a filter to remove particles which could clog spray nozzles. C101A shall, at a minimum, incorporate the following spray nozzles at the following locations:

- 2 nozzles above the primary hopper of the vibrating grizzly feeder (Facility Item #134-004)
- 1 nozzle at the Allis Chalmers 3042 jaw crusher discharge (Facility Item #101-010)
- 1 nozzle at the head pulley of the 42" x 30' channel frame conveyor (Facility Item #120-040)
- 1 nozzle at the discharge of the 36" x 24' conveyor (Facility Item #120-073)
- 1 nozzle at the discharge of the 30" x 80' radial stacking conveyor (Facility Item #123-010) to the "2RC/2A" stockpile
- 1 nozzle at the discharge of the 30" x 80' radial stacking conveyor (Facility Item #120-011) to the "#3/ #4" stockpile
- 1 nozzle at the feed of the 36" x 19' conveyor (Facility Item #120-061)
- 1 nozzle at the discharge of the 36" x 120' Kolberg radial stacking conveyor (Facility Item #123-044)
- 1 nozzle at the discharge of the 36" x 120' conveyor (Facility Item #122-001)
- 1 nozzle at the feed of the Nordberg HP300 cone crusher (Facility Item #104-006)
- 1 nozzle at the discharge of the 24" x 55' conveyor to the sand stockpile (Facility Item #122-029)
- 1 nozzle at the discharge of the 24" x 16' conveyor (Facility Item #120-047)
- 1 nozzle at the discharge of the 24" x 80' radial stacking conveyor to the "2B" stockpile (Facility Item #123-013)
- 1 nozzle at the discharge of the P.E.P. Vari-Vibe Screen (Facility Item #111-043)
- 2 nozzles at the entrance to the NORDBERG 4 ¼ cone crusher (Facility Item #104-005)
- 2 nozzles at the discharge of the NORDBERG 4 ¼ cone crusher (Facility Item #104-005)
- 1 nozzle at the discharge of the 30" x 100' radial stacking conveyor (Facility Item #123-xxx)
- 1 nozzle at the discharge of the 30" x 100' radial stacking conveyor (Facility Item #123-xxx)
- 1 nozzle at the inlet of the Eagle Iron Works pug mill mixer (Facility Item #125-xxx)
- 1 nozzle at the discharge of each of the two 24" x 150' channel frame conveyors
- 1 nozzle at the discharge of the 24" x 100' radial channel frame conveyor
- 1 nozzle at the discharge of the 36" x 25' transfer conveyor
- 1 nozzle at the discharge of the 36" x 100' radial stacking conveyor

More spray nozzles may be added without the necessity of obtaining Department approval but none of those identified herein may be omitted, deleted or removed without prior Department approval.

013 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

The water spray dust suppression system (C101A) associated with Source P101 shall be connected to an on-demand water source capable of delivering an adequate supply of water at any time Source P101 is in operation. On-demand shall be interpreted as meaning that adequate water can be provided to all spray nozzles at any time with no more effort than turning a valve. If at any time the water spray dust suppression system (C101A) is inoperable or is unable to provide an adequate supply of water the company shall immediately cease operation of Source P101.

014 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

C101B shall incorporate dust collection points at the discharge of the surge hopper (facility item# 135-005), the feed and discharge of the top deck of the Simplicity 6'x20' triple deck screen (facility item# 110-006), and the discharge of the Nordberg HP300 cone crusher (facility item# 104-006).

**SECTION D. Source Level Requirements****# 015 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

C101C shall incorporate dust collection points at the top of the bucket elevator (facility item# 230-007), the vent from the mineral filler silo (facility item# 201-010), and the loadout spout (facility item# 203-007).

016 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

The air compressor(s) supplying the air to C101B and C101C shall be equipped with an air dryer and oil trap.

017 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

Source P101 shall not operate if either C101B or C101C are inoperable.

018 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from 25 Pa. Code Sections 127.1 and 127.12]

All trucks loaded from the mineral filler silo (facility item# 201-010) must be enclosed trucks and must be loaded using the loadout spout (facility item# 203-007).

019 [40 CFR Part 60 Standards of Performance for New Stationary Sources §40 CFR 60.670]**Subpart OOO - Standards of Performance for Nonmetallic Mineral Processing Plants****Applicability and designation of affected facility.**

Source P101 is subject to Subpart OOO of the federal Standards of Performance for New Stationary Sources, 40 CFR 60.670-60.676.

**SECTION D. Source Level Requirements**

Source ID: P102

Source Name: TWO NONMETALLIC MINERAL CONVEYORS

Source Capacity/Throughput:

**I. RESTRICTIONS.**

No additional requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

No additional monitoring requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

IV. RECORDKEEPING REQUIREMENTS.

No additional record keeping requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VI. WORK PRACTICE REQUIREMENTS.**# 001 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from the General Plan Approval and/or General Operating Permit (BAQ-PGPA/GP-3) for Portable Nonmetallic Mineral Plants]

The portable nonmetallic mineral processing plants incorporated in Source ID P102 shall only process nonmetallic minerals as said nonmetallic minerals are defined in the General Plan Approval and /or General Operating Permit For Portable Nonmetallic Mineral Processing Plants (BAQ-PGPA/GP-3).

VII. ADDITIONAL REQUIREMENTS.**# 002 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from the General Plan Approval and/or General Operating Permit (BAQ-PGPA/GP-3) for Portable Nonmetallic Mineral Plants]

The portable nonmetallic mineral processing plants incorporated in Source ID P102 shall each be controlled by a water spray dust suppression system located at the material entrances and exits.

**SECTION D. Source Level Requirements****# 003 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from the General Plan Approval and/or General Operating Permit (BAQ-PGPA/GP-3) for Portable Nonmetallic Mineral Plants]

Water spray dust suppression systems on the portable nonmetallic mineral processing plants incorporated in Source ID P102 shall be operated on any and all occasions that the respective plant is operated. Operation without simultaneous operation of the water spray dust suppression system can take place only in those unusual instances where processed materials contain sufficient moisture so as not to create air contaminant emissions in excess of the limitations and standards of this operating permit. If, however, the water spray dust suppression system is incapable of operation due to weather conditions or any other reason, the permittee may not operate the plant. A pressure gauge will be installed to indicate a normal operation of the dust suppression system.

004 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

(a) Source ID P102 consist of the following portable nonmetallic mineral processing plants:

(1) two New Road model S36X80DCT portable stacking conveyors.

**SECTION D. Source Level Requirements**

Source ID: P104

Source Name: TWO 51 BHP CATERPILLAR MODEL C2.2 DIESEL ENGINES

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §123.13]

Processes

The concentration of particulate matter in the exhaust of Source ID P104 shall not exceed 0.04 grains per dry standard cubic foot of effluent gas volume.

002 [25 Pa. Code §123.21]

General

The concentration of sulfur oxides, expressed as sulfur dioxide (SO₂), in the exhaust from Source ID P104 shall not exceed 500 parts per million, by volume, dry basis.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

No additional monitoring requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

IV. RECORDKEEPING REQUIREMENTS.

No additional record keeping requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VI. WORK PRACTICE REQUIREMENTS.

No additional work practice requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

**SECTION D. Source Level Requirements****VII. ADDITIONAL REQUIREMENTS.****# 003 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

Source ID P104 consists of two 51 bhp Caterpillar model C2.2 diesel-fired engines to supply power to the stacking conveyors incorporated in Source ID P102.

**SECTION D. Source Level Requirements**

Source ID: P105

Source Name: 250 TPH MCCLOSKEY R155 NONMETALLIC MINERAL SCREENER

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).****# 001 [40 CFR Part 60 Standards of Performance for New Stationary Sources §40 CFR 60.672]****Subpart 000 - Standards of Performance for Nonmetallic Mineral Processing Plants
Standard for particulate matter.**

The equipment incorporated into Source P105 shall comply with the fugitive emission requirement specified in 40 CFR 60.672(b).

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

No additional monitoring requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

IV. RECORDKEEPING REQUIREMENTS.

No additional record keeping requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

V. REPORTING REQUIREMENTS.**# 002 [40 CFR Part 60 Standards of Performance for New Stationary Sources §40 CFR 60.4]****Subpart A - General Provisions
Address.**

The submission of all requests, reports, applications, submittals and other communications required by Subpart 000 of the federal Standards of Performance for New Stationary Sources, 40 CFR 60.670-60.676, must be made to both the Department of Environmental Protection and the Environmental Protection Agency. The Environmental Protection Agency copies may be sent to:

U.S. EPA Region III
1650 Arch Street
11th Floor
3WC22
Philadelphia, PA 19103-2029

and

The Pennsylvania Department of Environmental Protection
Air Quality Program Manager
208 W. Third Street, Suite 101
Williamsport, PA 17701-6448

**SECTION D. Source Level Requirements****VI. WORK PRACTICE REQUIREMENTS.****# 003 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from the General Plan Approval and/or General Operating Permit (BAQ-PGPA/GP-3) for Portable Nonmetallic Mineral Plants]

Source ID P105 shall only process nonmetallic minerals as said nonmetallic minerals are defined in the General Plan Approval and /or General Operating Permit For Portable Nonmetallic Mineral Processing Plants (BAQ-PGPA/GP-3).

VII. ADDITIONAL REQUIREMENTS.**# 004 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from the General Plan Approval and/or General Operating Permit (BAQ-PGPA/GP-3) for Portable Nonmetallic Mineral Plants]

Source ID P105 shall be controlled by a water spray dust suppression system located at the material entrance and exit.

005 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from the General Plan Approval and/or General Operating Permit (BAQ-PGPA/GP-3) for Portable Nonmetallic Mineral Plants]

Water spray dust suppression systems on Source ID P105 shall be operated on any and all occasions that the respective plant is operated. Operation without simultaneous operation of the water spray dust suppression system can take place only in those unusual instances where processed materials contain sufficient moisture so as not to create air contaminant emissions in excess of the limitations and standards of this operating permit. If, however, the water spray dust suppression system is incapable of operation due to weather conditions or any other reason, the permittee may not operate the plant. A pressure gauge will be installed to indicate a normal operation of the dust suppression system.

006 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

Source ID P105 is a 250 ton/hour McCloskey R155 portable screener.

007 [40 CFR Part 60 Standards of Performance for New Stationary Sources §40 CFR 60.670]**Subpart 000 - Standards of Performance for Nonmetallic Mineral Processing Plants****Applicability and designation of affected facility.**

Source ID P105 is subject to Subpart 000 of the federal Standards of Performance for New Stationary Sources, 40 CFR 60.670 through 60.676 (Standards of Performance for Nonmetallic Mineral Processing Plants). The permittee shall comply with all applicable requirements specified in this Subpart.

SECTION D. Source Level Requirements

Source ID: P106

Source Name: 130 BHP CATERPILLAR MODEL 3054C DIESEL ENGINE

Source Capacity/Throughput:

**I. RESTRICTIONS.****Emission Restriction(s).**

001 [25 Pa. Code §123.13]

Processes

The concentration of particulate matter in the exhaust of Source ID P106 shall not exceed 0.04 grains per dry standard cubic foot of effluent gas volume.

002 [25 Pa. Code §123.21]

General

The concentration of sulfur oxides, expressed as sulfur dioxide (SO₂), in the exhaust from Source ID P106 shall not exceed 500 parts per million, by volume, dry basis.

II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

III. MONITORING REQUIREMENTS.

No additional monitoring requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

IV. RECORDKEEPING REQUIREMENTS.

003 [25 Pa. Code §127.441]

Operating permit terms and conditions.

[Additional authority for this permit condition is derived from the General Plan Approval and/or General Operating Permit (BAQ-GPA/GP 11) for Nonroad Engine(s)]

(a) The permittee shall keep comprehensive and accurate records of the number of hours per month that Source ID P106 operated using a non-resettable hour meter and amount of fuel used.

(b) The permittee shall keep comprehensive and accurate records of dates and places in which Source ID P106 is relocated.

(c) These records generated pursuant to this condition shall be retained for a minimum of five years and shall be made available to the Department upon request. The Department reserves the right to expand the list contained in this condition as it may reasonably prescribe pursuant to the provisions of Section 4 of the Pennsylvania Air Pollution Control Act (35 P. S. §§4004), and as it may deem necessary to determine compliance with any condition contained herein.

**SECTION D. Source Level Requirements****V. REPORTING REQUIREMENTS.**

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VI. WORK PRACTICE REQUIREMENTS.

No additional work practice requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

VII. ADDITIONAL REQUIREMENTS.**# 004 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from the General Plan Approval and/or General Operating Permit (BAQ-GPA/GP 11) for Nonroad Engine(s)]

Source ID P106 shall have affixed a permanent and legible label containing the following information written in English:

- a. The heading "Imported Engine Information";
- b. The full corporate name and trademark of the manufacturer;
- c. EPA standardized engine family designation;
- d. Engine displacement;
- e. Advertised power;
- f. Engine tune-up specifications and adjustments;
- g. Fuel requirements;
- h. Date of manufacture (month and year);
- i. Unique engine identification number.

005 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

[Additional authority for this permit condition is derived from the General Plan Approval and/or General Operating Permit (BAQ-GPA/GP 11) for Nonroad Engine(s)]

Source ID P106 cannot be used with any portable nonmetallic mineral processing plants at this facility for more than twelve consecutive months.

006 [25 Pa. Code §127.441]**Operating permit terms and conditions.**

Source ID P106 is a 130 bhp Caterpillar 3054C diesel-fired nonroad engine to supply power to the screener incorporated in Source ID P105.

SECTION E. Source Group Restrictions.

SECTION F. Alternative Operation Requirements.

No Alternative Operations exist for this State Only facility.

SECTION G. Emission Restriction Summary.

No emission restrictions listed in this section of the permit.

SECTION H. Miscellaneous.

This operating permit was administratively amended on April 1, 2005, to incorporate a sandstone processing operation (Source P101A) consisting of the following equipment:

- Facility Item #134-004 : Vibrating grizzly feeder, 46" x 16'
- Facility Item #101-010: Allis Chalmers 3042 jaw crusher
- Facility Item #120-040: Channel frame conveyor, 42" x 30'
- Facility Item #123-009: Radial stacking conveyor, 36" x 80'

the construction of which was approved by Plan Approval 41-00064A.
