

AST Closure Requirements Document Revisions

The “Closure Requirements for Aboveground Storage Tank Systems” Technical Guidance Document, *DEP ID: 263-4200-001*, was revised on December 15, 2012, to update Appendix E, Standards/Action Levels for Confirmatory Samples Collected at Closure Site Assessments, found on pages 47 and 48. The updated tables do not reflect new requirements. Rather, the tables have been utilized to guide closure site assessments, and have been available on the DEP Storage Tank Program websites as a separate document. The numeric standards contained in the tables reflect current standards that were last updated and noticed in the January 8, 2011, *Pennsylvania Bulletin* as amendments to Chapter 250, Administration of the Land Recycling Program.

Questions regarding the AST Closure Requirements Document should be directed to Chad Clancy at cclancy@pa.gov or (717) 772-5830.

UST Closure Requirements Document Revisions

The “Closure Requirements for Underground Storage Tank Systems” Technical Guidance Document, *DEP ID: 263-4500-601*, was revised on December 15, 2012, to update the Analytical Requirements table presented in Section VI.E., pages 33 and 34 of the document. The updated table does not reflect new requirements. Rather, these analytical requirements have been utilized to guide closure site assessments since March 15, 2008, and have been available on the DEP Storage Tank Program websites as a separate document. On March 15, 2008, notice of the analytical requirements was published in the *Pennsylvania Bulletin* as a revision to DEP’s Land Recycling Program Technical Guidance Manual.

Also revised is Appendix E, Standards/Action Levels for Confirmatory Samples Collected at Closure Site Assessments, found on pages 54 and 55. Again, the updated tables do not reflect new requirements. Rather, the tables have been utilized to guide closure site assessments, and have been available on the DEP Storage Tank Program websites as a separate document. The numeric standards contained in the tables reflect current standards that were last updated and noticed in the January 8, 2011, *Pennsylvania Bulletin* as amendments to Chapter 250, Administration of the Land Recycling Program.

Questions regarding the UST Closure Requirements Document should be directed to Randy Martin at ramartin@pa.gov or (717) 772-5828.
