Re: 5 Man Diesel Jitney Manufacturer: Brookville Mining Equipment Corp. Model Number:
5M56MA Serial Number: 8510 Voltage: 24VDC Drawing Number: Brookville Manual
HP: C240-MA56HP Ventilation Rate: 2305 CFM
APSID Number: 343021

Dear Mr. Schmader:

We have completed our evaluation of the equipment noted above, and approve its use in all bituminous underground coal mines of Pennsylvania that do not utilize a DC powered trolley system. Prior to being used in mines containing trolley wire, additional safety requirements must be provided and approved by the Bureau. The equipment meets the legal requirements of the *Pennsylvania Bituminous Coal Mine Act*.

Pennsylvania approval number BOTE-D 1833-01 has been assigned to the equipment. This number must appear conspicuously on the outside of the subject equipment on a 2" x 4" rust-resistant metal plate. The approval plate should read "Commonwealth of Pennsylvania" and "Approval No. BOTE-D 1833-01." The plate and lettering should be resistant to removal by abrasion.

If you want to make changes or alterations on this equipment, a written request outlining the proposed changes, together with any related prints or drawings, must be submitted to this office for approval. If you have any questions, please contact me at the above telephone number.

Sincerely,

Richard E. Stickler
Director
Bureau of Deep Mine Safety
