Re: **ITEM:** Diesel Powered Rock Duster  
**MODEL:** 627D; **SERIAL:** 05-R8264; **VOLTAGE:** 12 VDC; **HP:** 52  
**APSID NO:** 569872  
**APPROVAL OF BOTE-D 0033-06**

Dear Mr. Lovern:

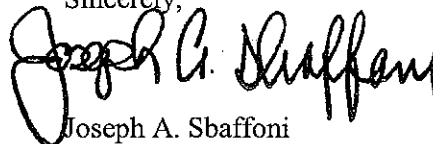

We have completed our evaluation of the equipment noted above, and approve its use in all bituminous underground coal mines of Pennsylvania. The equipment meets the legal requirements of the *Pennsylvania Bituminous Coal Mine Act*.

Pennsylvania approval number BOTE 0033-06 has been assigned to the equipment. This number must appear conspicuously on the outside of the subject equipment on a 2" x 4" rust-resistant metal plate, or any other Bureau acceptable material. The approval plate should read "Commonwealth of Pennsylvania" and "Approval No. BOTE 0033-06." The plate and lettering should be resistant to removal by abrasion.

The minimum ventilating air quantity for this specific piece of diesel-powered equipment is 3000 cfm. This approval number and ventilation rate must be stamped on an approval plate that must be attached to the diesel powered engine and emission system.

If you want to make changes or alterations on this equipment, a written request outlining the proposed changes, together with any related prints or drawings, must be submitted to this office for approval. If you have any questions, please contact me at the above telephone number.

Sincerely,

Joseph A. Scaffoni  
Director  
Bureau of Mine Safety
