Recycling During COVID-19

DEP will continue to evaluate the recycling situation across the state as the Governor's COVID19 due to COVID 19 safety issues, the department has a procedure to apply for forbearance of the “temporarily” regulate recycling and waste. But for the Planning Recycling and Waste Reduction Act bins - clean of course! The Municipal Waste Recycling During COVID-19

The COVID-19 pandemic has shown the power of working together as a society to tackle a It is our hope that we might continue this work through reshaping our environment and economy for the future and fight climate change. This is A commonwealth, and we are working to address it on multiple fronts. Fighting climate change is challenges we are still facing.

that is keeping many of us socially distant and preventing large challenging milestone to celebrate in the middle of a pandemic possibly the best way that we can make every day Earth Day, even if we can't all celebrate together

The COVID-19 pandemic has shown the power of working together as a society to tackle a commonwealth, and we are working to address it on multiple fronts. Fighting climate change is challenges we are still facing.

That is why we at the Pennsylvania Department of Environmental Protection (DEP) are constantly learning from challenges like these and continually protecting the world we know and love. —

Earth Day highlights an opportunity to be grateful for all the flourishing parts of life. Whether walking through a park, within a forest, or across a development, all surroundings come from the grace of Earth. Each year, we reflect on the call to respect the resources that our planet offers; and each
