Re: Pennsylvania Pipeline Project (PPP)/Mariner East II
Chapter 105 Permit No. E15-862 Major Amendment Approval
Installation Method Change at PA Turnpike/0280 HDD
Upper Uwchlan Township
Chester County

Dear Mr. Gordon:

This letter is in reference to the request submitted by your consultant and received by the Pennsylvania Department of Environmental Protection (DEP) on April 30, 2019, including additional information received through June 29, 2020, for a major permit amendment for Chapter 105 Permit No. E15-862.

The horizontal directional drill (HDD) S3-280 site modifications are for a change in the route and installation method for the 16- and 20-inch diameter pipelines previously permitted as a HDD. The proposed installation method for both the 16- and 20-inch diameter pipelines is for open cut installation and one conventional bore. The proposed route will cross an Exceptional Value (EV) wetland (WLQ76) and one stream (SQ83) referred to locally as Meadow Creek and portions of three floodways in Upper Uwchlan Township, Chester County.

Please be advised that DEP has reviewed and approved your request and the Chapter 105 Permit No. E15-862 is amended to include the revised activities.

All conditions specified in the original permit remain in effect and are to be complied with as part of this plan revision. Please ensure that the plans are fully implemented and available at the construction site.

If you have any questions, please contact Ms. Ranjana Sharp at the telephone number located in the first page footer.

Sincerely,

John Hohenstein, P.E.
