CERTIFIED MAIL NO. 9171 9690 0935 0150 2188 88

Re: Violations of The Clean Streams Law, and the
Dam Safety and Encroachments Act
Pennsylvania Pipeline / Mariner East II Project
DEP Permit Nos. ESG0300015002 and E07-459
DEP File No NOV 07 18 112
Blair Township, Blair County

Dear Mr. Gordon & Mr. Ploederl:

On the evening of November 1, 2018, the Department of Environmental Protection (“Department”) received notice from Sunoco Pipeline, L.P. (“Sunoco”) of an approximate 20-gallon inadvertent return of drilling fluids (“IR”) within Wetland BB58 that had occurred earlier in the day at the Reservoir Road Flex Bore, PA-BL-0001.0078-WX in Blair Township, Blair County (“Site”). On November 2, 2018, the Department conducted an inspection of the Site and documented that the IR occurred within wetlands (Wetland BB 58), which are waters of the Commonwealth. The drilling fluids that comprised the IR constitute Industrial Waste. The discharge of Industrial Waste to waters of the Commonwealth without a permit is a violation of Section 301 of The Clean Streams Law, 35 P.S. § 691.301. The Department did not authorize any IRs at the Site by permit or other authorization.

Department permits E07-459 and ESG030015002 require permittee(s) to follow their ‘*HDD Inadvertent Return, Preparedness, Prevention, and Contingency Plan*’, (“HDD IR PPC Plan”) that is part of the approved plans in the aforementioned permits to reduce, minimize, or eliminate a pollution event. The current version of the HDD IR PPC Plan contains a revision date of April 2018.

Allowing the unauthorized discharge of Industrial Waste to waters of the Commonwealth constitutes a violation of Section 301 of the Clean Streams Law, 35 P.S. § 691.301 and constitutes unlawful conduct under Section 611 of the Clean Streams Law, 35 P.S. § 691.611 and Section 18 of the Dam Safety and Encroachments Act, 32 P.S. § 693.18.

Mr. Matthew Gordon
Mr. Benjamin Ploederl

- 2 -

November 2, 2018

On November 2, 2018, Sunoco submitted the initial reporting form for the November 1, 2018 IR to the Department, as required by Section 6.3 of the HDD IR PPC Plan.

On November 2, 2018, Sunoco submitted a Restart Report to the Department to meet the requirements of Section 5.1.5 (Monitoring Protocol for Condition 3) of the April 2018 HDD IR PPC Plan, that were prepared and sealed by a Pennsylvania licensed Professional Geologist for the IR that occurred on November 1, 2018.

Please be reminded Department approval of the Restart Report is required before restarting drilling operations for PA-BL-0001.0078-WX. Additionally, as an IR occurred during the first pipe installation at this location, a re-evaluation is required for PA-BL-0001.0078-WX-16 in accordance with Paragraph 3 of the August 10, 2017 Corrected Stipulated Order.

This Notice of Violation is neither an order nor any other final action of the DEP. It neither imposes nor waives any enforcement action available to DEP under any of its statutes. If DEP determines that an enforcement action is appropriate, you will be notified of the action.

DEP looks forward to your cooperation in this matter. If you have any questions, please contact me at 717.705.4819.

Sincerely,

Andrea Blosser
Environmental Group Manager
Conservation, Restoration, and Inspection Section
