§ 110.2. Purpose.

This chapter establishes the registration, monitoring, recordkeeping and reporting requirements that apply, for purposes of developing data for the State Water Plan, to each person who owns a public water supply agency or hydropower facility and each person whose total withdrawal or withdrawal use from a point of withdrawal, or from multiple points of withdrawal operated as a system either concurrently or sequentially, within a watershed exceeds an average rate of 10,000 gallons per day in any 30-day period.

§ 110.3. General requirements.

(a) Registration requirements. Each person who owns a public water supply agency or hydropower facility and each person whose total withdrawal or withdrawal use from a point of withdrawal, or from multiple points of withdrawal operated as a system either concurrently or sequentially, within a watershed exceeds an average rate of 10,000 gallons per day in any 30-day period shall register, monitor, maintain records and submit reports to the Department regarding withdrawals or uses of water in accordance with this chapter.

(b) Confidential information.

(1a) Except as provided in paragraph subsection (2b), information required to be submitted to the Department under this chapter shall be subject to the act of June 21, 1957 (P. L. 390, No. 212), known as the Right-to-Know Act.

(2b) Each person who submits information under this chapter that the person claims is confidential information shall identify the confidential information and provide a justification...
§ 110.4. Inspection authorization.

The Department, its employees and authorized agents are authorized, during reasonable hours and upon reasonable notice, to make inspections and conduct tests or sampling, or examine books, papers and records, including electronic records, pertinent to a matter under investigation, to determine compliance with THE ACT AND this chapter, as it deems necessary. The persons subject to § 110.3(a)201 (relating to general REGISTRATION requirements) shall grant access to, and make available upon request of, the Department, its employees and authorized agents, all facilities and records necessary for conducting the inspections, tests, sampling or examinations.

The joint forms shall be used in lieu of individual forms for the required reports.

§ 110.6. Effect of registration.

(a) Registration of a withdrawal or use under this chapter will provide knowledge of existing uses, essential in the State water planning process to the development of accurate watershed water budgets, which are the foundation of comprehensive regional water plans and critical area resource plans. Registration will provide the Department and compact river basin commissions information regarding locations and quantities of existing uses, that can be used to help protect those uses when new projects are under consideration for approval.
Registration of a withdrawal or use under this chapter will not be construed as either a determination of a person's water rights or approval of a withdrawal or use by the Department, another agency of the Commonwealth or a compact basin commission.
