MR ADRIAN HILL  
24 REESE AVE  
APT B-2  
NEWTOWN SQUARE PA 19073-4015

Dear Mr. Hill:

Per our conversation of Wednesday, June 11, 2008, your reciprocity application and check are being returned to you because you were issued reciprocity in 2004 and did not take the required 15 hours of continuing education by September 30, 2007.

Per the Board, if an operator previously held a PA license that expired, was revoked, suspended, or lapsed due to insufficient continuing education, that operator cannot apply for reciprocity within three years of their last expiration date. After three years, they may apply for reciprocity again.

I also informed you that if you can prove you have taken 15 hours of continuing education within your renewal cycle of October 1, 2004 and September 30, 2007, renew your license by paying \$15 and sending in the renewal application with the training course certificates, you may be certified again. This must be done within two years of your expiration date of September 30, 2007. You will need to contact me to obtain a duplicate renewal form.

I emailed you the operator exam schedule and the post presentation applications that must be used if you are claiming training that was not DEP approved. Please see the attached Earthwise Academy on-line training information that will help you attain the training you need. Also enclosed is the notice of expiration letter that was sent to your old address and was returned to DEP undeliverable.

If you have any questions, please use the above telephone number.

Sincerely,

Cheri Sansoni  
Board Secretary
