## Education

Bachelors of Science in Environmental Pollution Control California University of PA  
State Certifications as Certified Nutrient Management Specialist & Certified Odor Management  
Specialist

William C. Fink Currently employed as a Environmental Management Specialist at [Country View Family Farms \(CVFF\)](#). CVFF operates in Pennsylvania, Ohio and Indiana with over 100 family farms raising swine under contract. Contract production enables these family farmers to build a sustainable farming business, keep their land in agriculture, while keeping their farm in the family and their family on the farm.

Mr. Fink is responsible for assuring that CVFF swine farms stay in compliance with local, state and federal environmental regulations. This includes writing, revising, and implementing Act 38 nutrient Management Plans (NMP) as well as CAFO NPDES permits where required. He is also involved with managing the permitting process of new swine farms, manure hauling and application cropland management at CVFF operated farms.

Prior to joining CVFF Mr. Fink was a Nutrient Management / CAFO Specialist with Brubaker Agronomic Services and TeamAg Incorporated for six years and Chesapeake Bay Technician with the Fulton County Conservation District from 1993 to 1999.

Mr. Fink has been involved with a variety of local, regional, state and national workgroups and committees including the Lower Susquehanna Water Resources Regional Committee, the National Pork Board Environmental Committee, DEP CAFO Stakeholder workgroup, and has participated in the development of the State Conservation Commission Odor Management Regulations and the Manure Haulers and Brokers Certification regulations. He also has worked with the PA Dairy CAFO Ad Hoc Work Group, the PennAg's Manure Applicators Counsel as well as participated in the PA CAFO General Permit renewal work group.

Mr. Fink received a Bachelors of Science in Environmental Pollution Control from the California University of PA and holds state certifications as a Certified Nutrient Management Specialist & Certified Odor Management Specialist.
