Ms. Joyce E. Epps
Director
Bureau of Air Quality
P.O. Box 8468
Harrisburg, PA 17105-8468

Dear Ms. Epps:

Pursuant to the requirements of Section 7.6 of the Air Pollution Control Act, on February 20, 2015, staff from the Bureau of Air Quality briefed the Citizens Advisory Council (Council) Policy and Regulatory Oversight Committee (Committee) on the draft final rulemaking for the Control of VOC Emissions from Fiberglass Boat Manufacturing Materials. The draft final rulemaking amends 25 PA Code Chapter 129 by proposing reasonably available control technology (RACT) requirements and RACT emission limitations to reduce VOC emissions from fiberglass boat manufacturing materials including open modeling resin, gel coat and cleaning materials.

On the recommendation of the Committee, Council voted at their March 17, 2015, meeting to concur with advancing the above-referenced draft final regulations to the Environmental Quality Board for action.

Council appreciates the Bureau's cooperation in providing detailed briefings on air regulations. If you have any questions regarding Council's action on the above-referenced regulations, please contact me at 717.787.8171 or by email at mtate@pa.gov.

Sincerely,

Michele L. Tate
Executive Director
Citizens Advisory Council
