

# Environmental Justice Areas Viewer

## What is the Environmental Justice (EJ) Areas Viewer?

The EJ Areas Viewer utilizes a geographic information system (GIS) to help us better understand Environmental Justice through interactive mapping. GIS is a database management system that provides a way to visualize datasets. EJ Areas Viewer is an interactive map that incorporates datasets from other state departments and federal government agencies that can be viewed collaboratively or as separate 'layers' to help see the big picture.

## Search

In the top left there is a search bar that can be used to enter an address, city or zip code. Once you hit enter (or the Search icon), you will be zoomed in to your location.

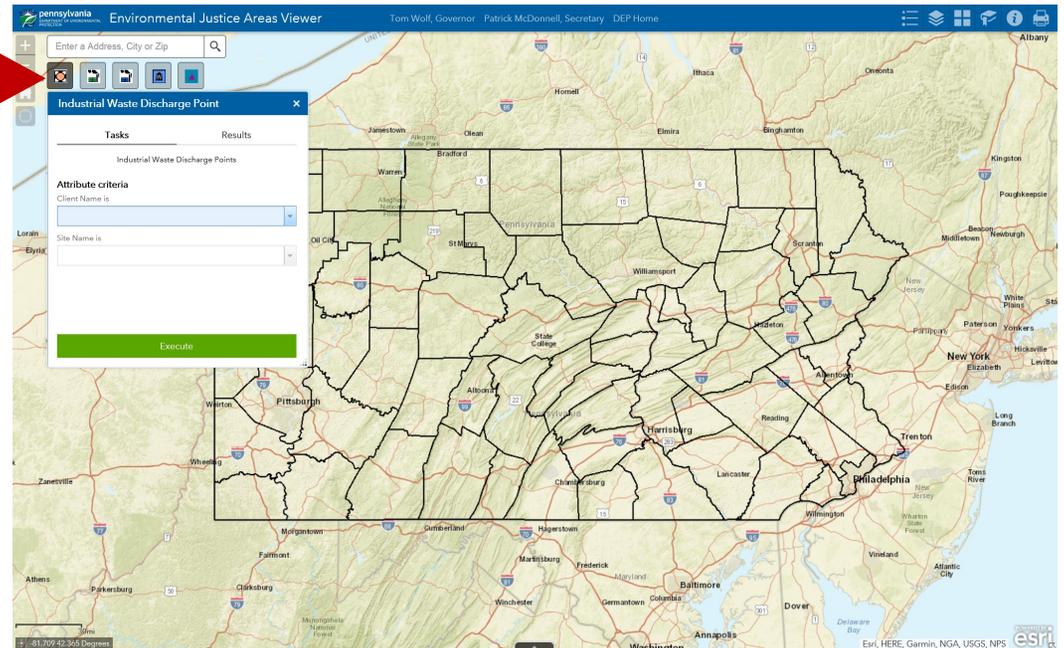

## Facility Search

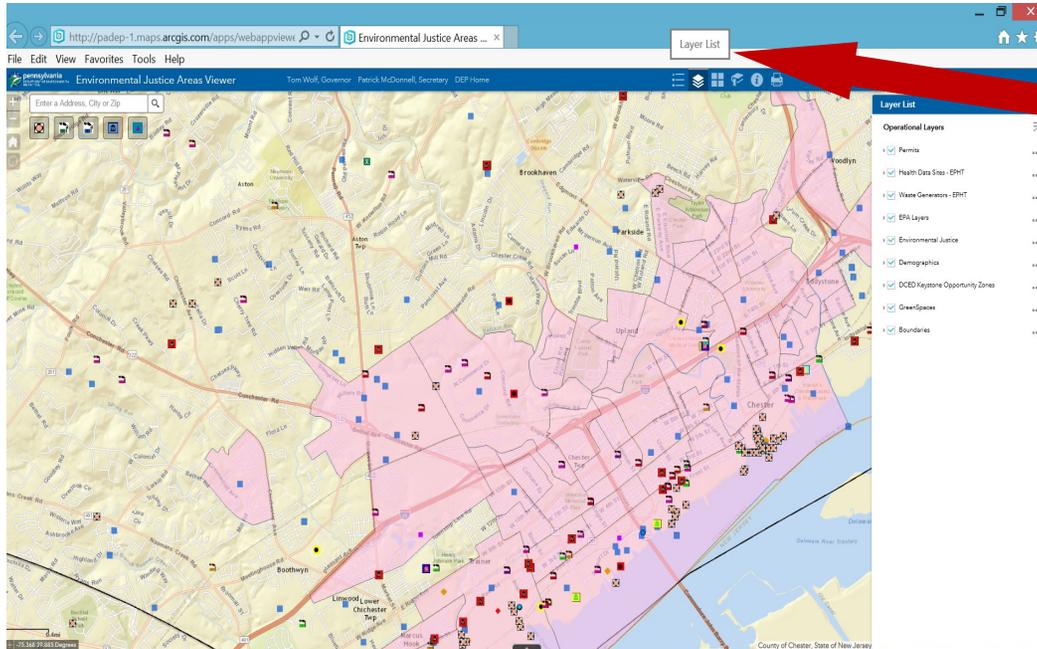

There are 5 icons below the search bar that can be used to search for specific Permitted Facilities. A drop-down list can be used to search by Client or Site for:

- Industrial Waste Discharge Points
- Air Emissions Plants
- Plant Emissions Operations
- Municipal Waste Operations
- Commercial Hazardous Waste Operations

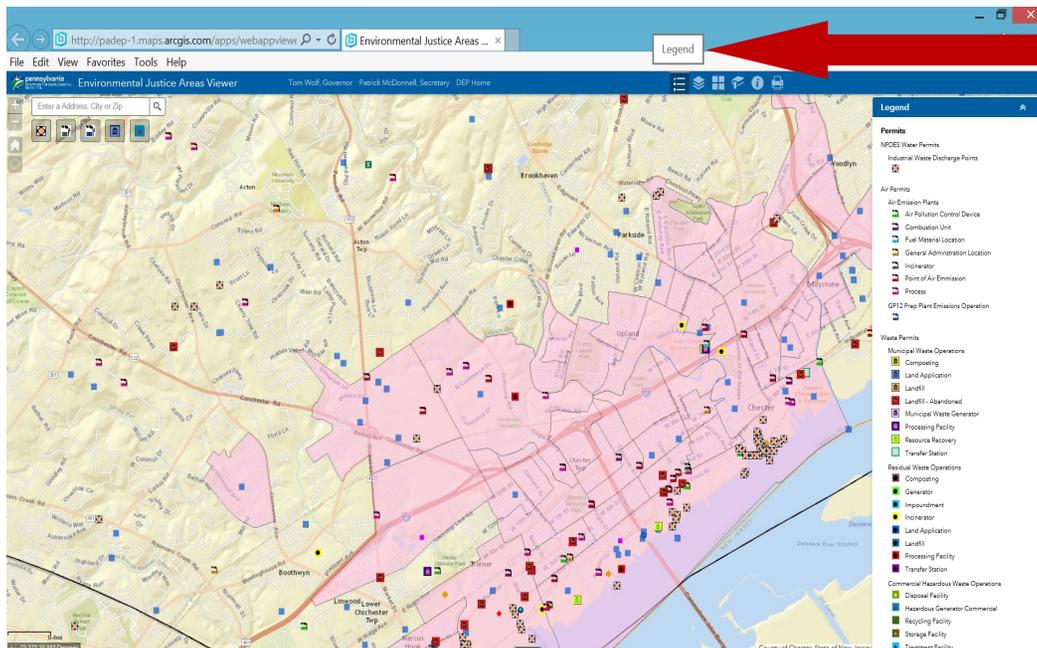

# Environmental Justice Areas Viewer

## Layers List

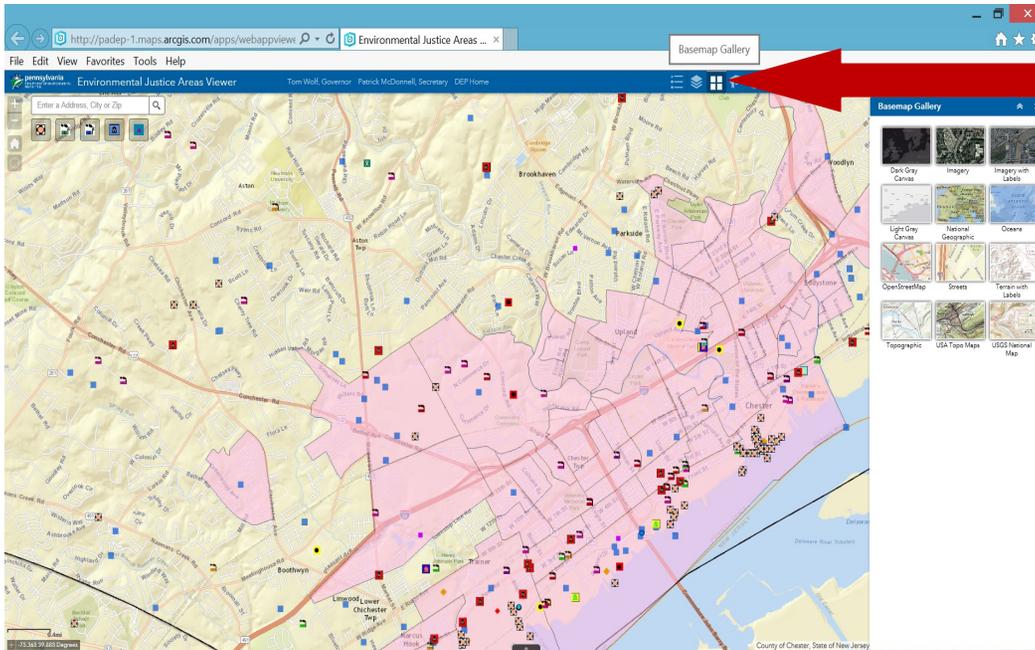

The Layers List  will provide a menu of all the 'layers' or datasets. Click the layer to see a drop-down of all the 'feature classes' within each layer. By clicking the box next to each layer, you can turn on or off the layer to isolate layers or see layers combined.

## Legend

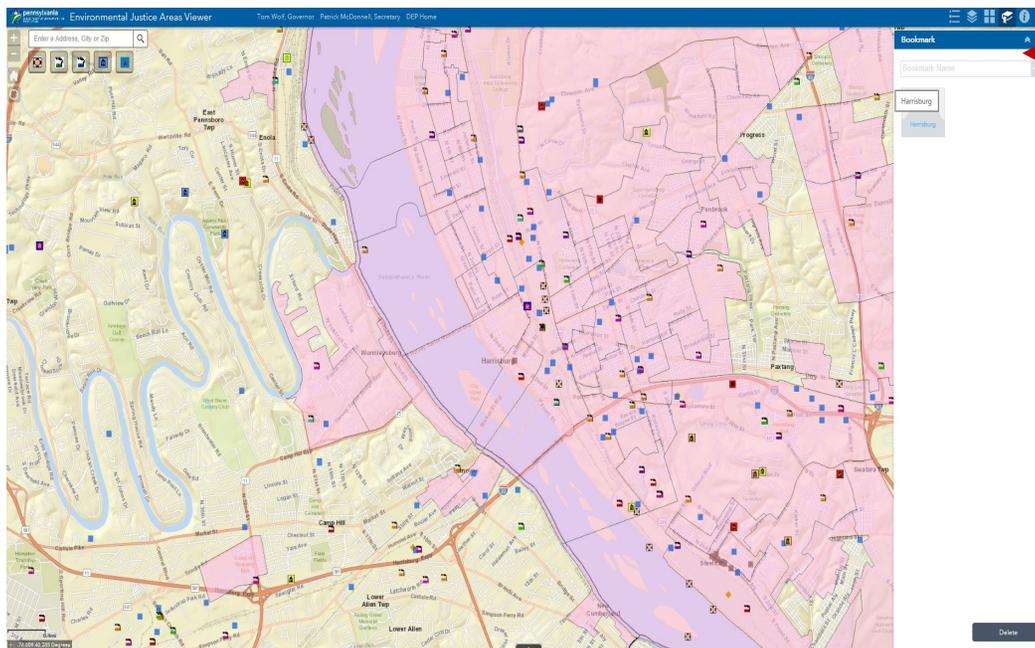

The Legend  will show a drop-down menu of icons that represent each feature class (e.g. Permitted Incinerator) under each (e.g. Permits). The Legend will only show layers that are turned on  in the Layers List.

# Environmental Justice Areas Viewer

## Basemap Gallery

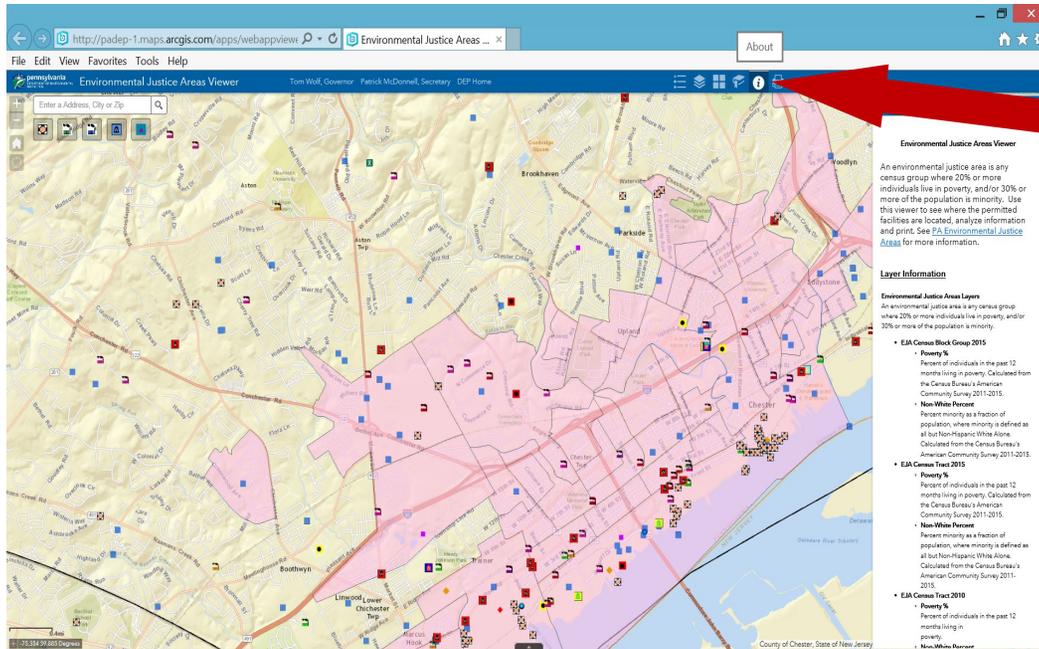

The basemap gallery  allows the user to pick which map to use as the base before adding additional layers.

## Bookmark

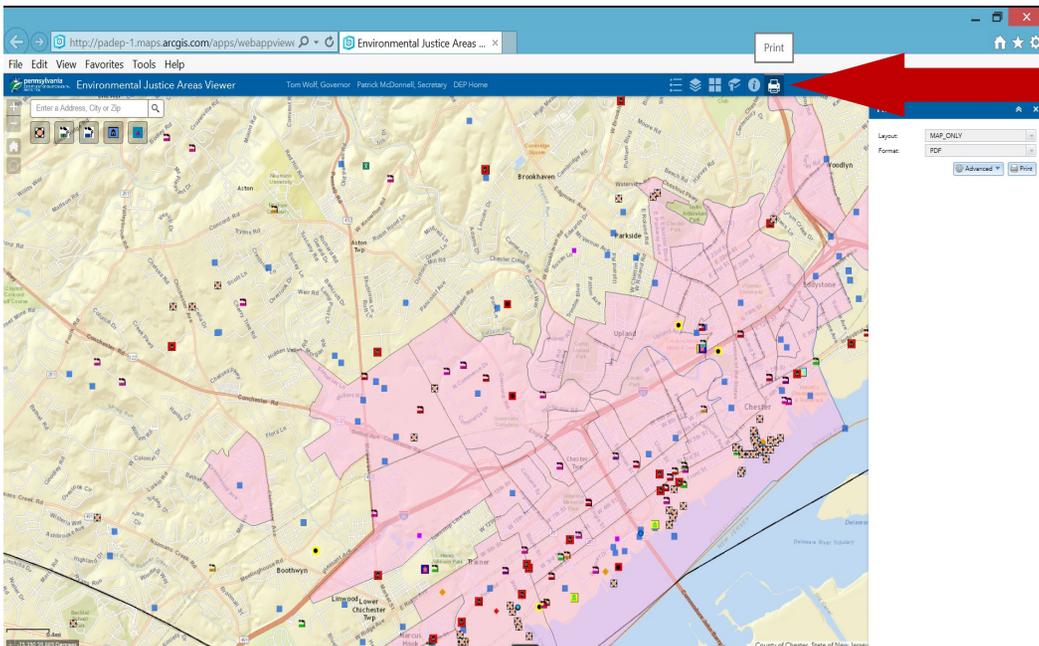

The bookmark feature  allows the user to add a location to a list in your EJ Areas Viewer for quick access.

# Environmental Justice Areas Viewer

## Information

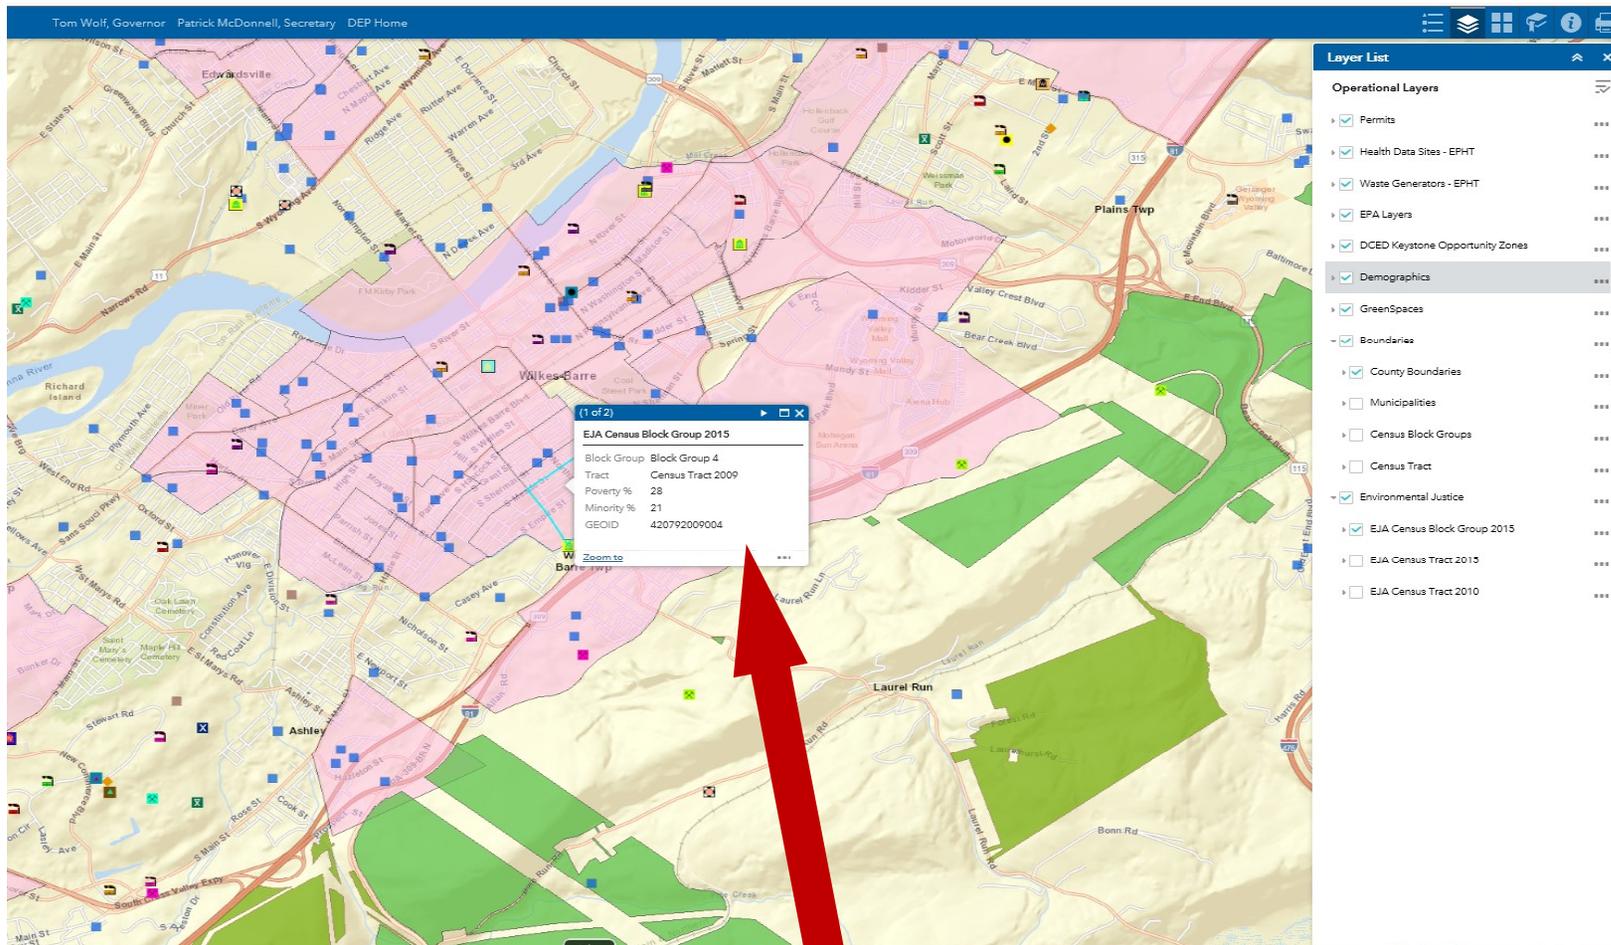

The Information button  provides an overview of how the DEP defines Environmental Justice and a brief summary of the other layers.

## Print

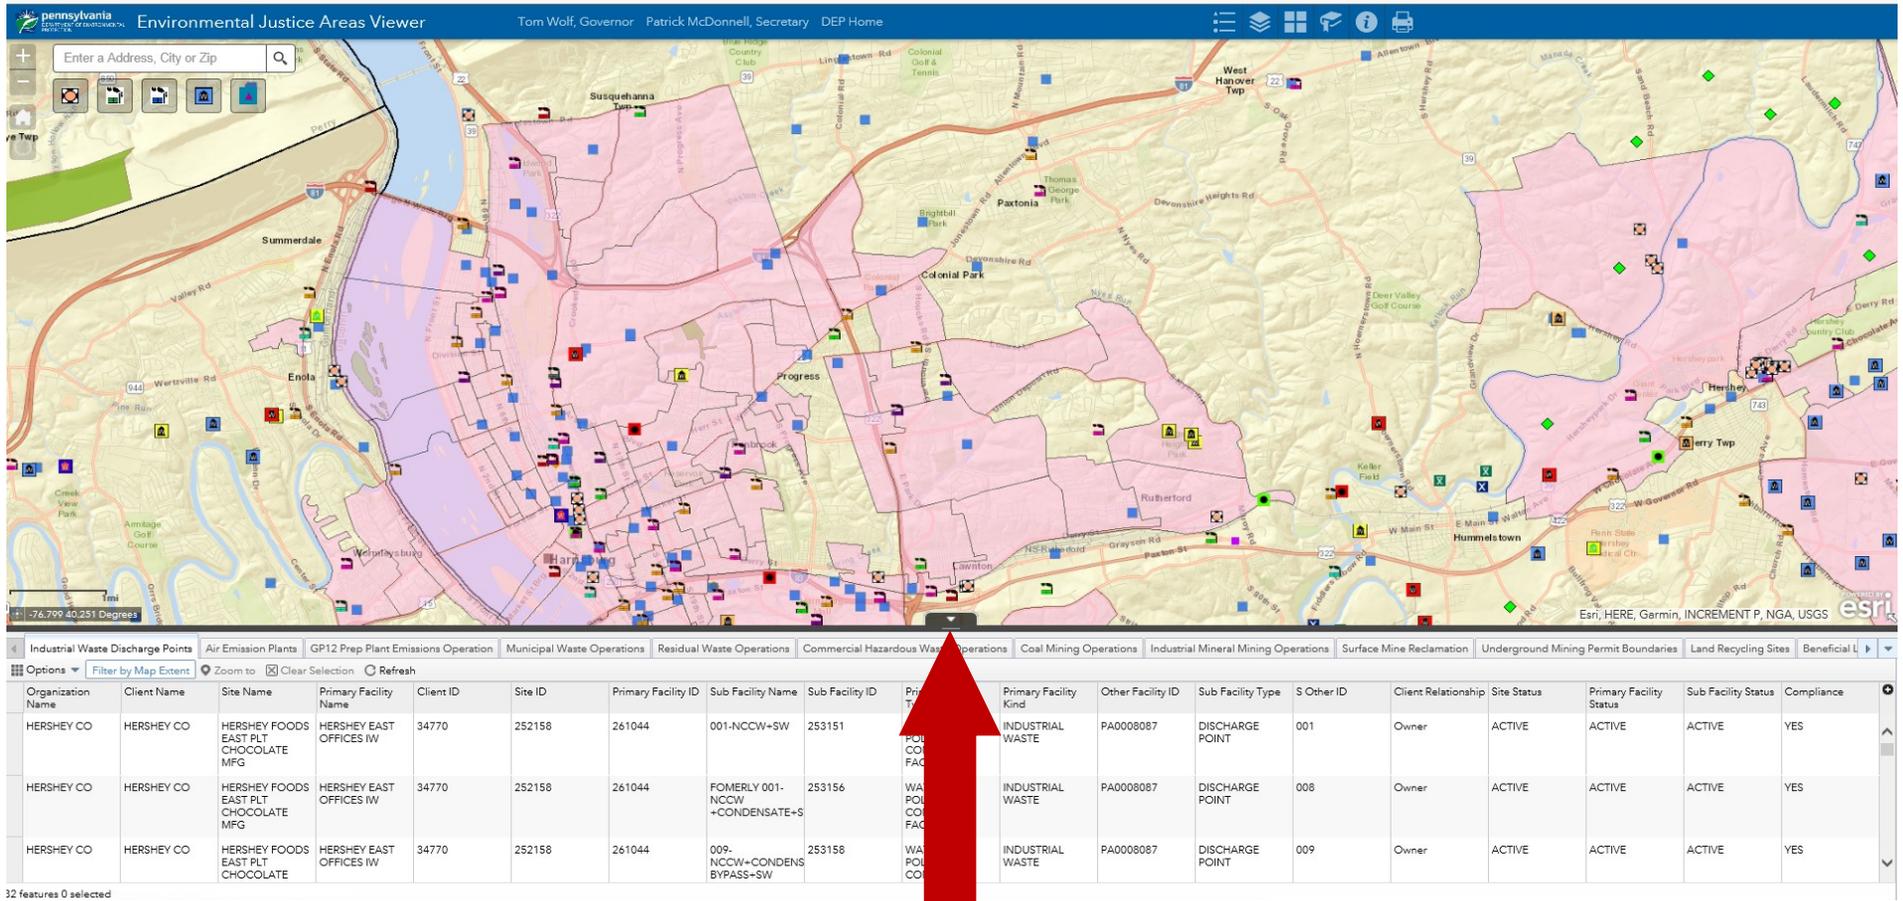

The Print button  allows the user to print a map of the current screen view. The user can print as a PDF or an image file that could be added to other documents.

# Environmental Justice Areas Viewer

When you click on a feature in the map, whether a point (e.g. facility), line or polygon (e.g. census tract), click the triangle  at the top right of the box to access data associated with the feature.

# Environmental Justice Areas Viewer

The screenshot shows the Environmental Justice Areas Viewer interface. At the top, there is a search bar with the text "Enter a Address, City or Zip". Below the search bar are several icons for map navigation. The main area is a map of Hershey, PA, with various colored overlays representing different environmental justice areas. A red arrow points to a white triangle at the bottom of the map, which is the button to open the attribute table.

Organization Name	Client Name	Site Name	Primary Facility Name	Client ID	Site ID	Primary Facility ID	Sub Facility Name	Sub Facility ID	Primary Facility Kind	Other Facility ID	Sub Facility Type	S Other ID	Client Relationship	Site Status	Primary Facility Status	Sub Facility Status	Compliance
