Dear Sir:

Enclosed are three petitions for stream quality upgrades, for action by the Environmental Quality Board. The watersheds are in northern Cambria County, for streams that flow into Glendale Lake. This lake is the centerpiece of Prince Gallitzin State Park. The streams are currently very high quality, they are in mostly forested areas, and considerable of the watersheds are owned by the Commonwealth.

The Clearfield Creek Watershed Association has discussed these upgrades and is very desirous of maintaining the high quality of these watersheds. If you have questions, please contact me at 814-238-2838, or [awr1@psu.edu](mailto:awr1@psu.edu).

Sincerely yours,

Arthur W. Rose  
Technical Chair
