Preface

This addendum to the 2017 Class A Wild Trout Streams Report consists of stream maps for all of the streams or stream segments that are being considered for redesignation to HQ-CWF along with the Class A Stream Redesignation Rulemaking Package. All of these recommended revisions which are included in the Class A Stream Redesignation Rulemaking are the result of stream evaluations conducted by the Department in response to data submitted from the Pennsylvania Fish and Boat Commission (PFBC) under §93.4c (relating to implementation of antidegradation requirements). Section 93.4c(a)(1) pertains to the process for changing a designated use of a stream. In this rulemaking, redesignations rely on §93.4b(a)(2)(ii) (relating to qualifying as High Quality or Exceptional Value Waters) to qualify streams for High Quality (HQ) designations based upon their classifications as Class A wild trout streams. A surface water that has been classified a Class A wild trout stream by the PFBC, based on species-specific biomass standards, and following public notice and comment, and approval by the PFBC Commissioners, qualifies for HQ designation. The PFBC published notice and requested comments on the Class A designation of these streams. The Commissioners of the PFBC approved these waters after providing public notice and review of the comments received.

Proposed HQ-CWF Stream Basins

Legend

- Class A Stream Basins
- County Boundary

Beaver Run - Carbon County

Wash Creek - Schuylkill County

UNT Mahoning Creek - Schuylkill County

UNT Lehigh Canal (Weisport)- Carbon County

UNT Lehigh Canal (Weisport)- Carbon County

Fireline Creek - Carbon County

UNT Little Schuylkill River - Schuylkill County
