Detailed Reclamation Project: New Hope Crushed Stone

Maurer & Scott has the personnel and the technology to assist you in developing a detailed reclamation plan for your New Hope Crushed Stone (NHCS) site.

Unfortunately, October is our busiest month of the year for blasting and your project will require several meetings with NHCS personnel, our Mining Engineer Phil Hendrickson, and blaster Jon Esch. Once the meetings are completed, still more time will be needed to compile the data and submit a plan to you.

We respectfully request an extension of 3 or more week to collect and put all this information together.

Thanks for your consideration in this matter.

Jerome Kostantewicz
