DO I NEED A WATER QUALITY MANAGEMENT PERMIT FOR A NEW OR EXPANDED LIQUID OR SEMI-SOLID MANURE STORAGE FACILITY (CONSTRUCTED AFTER OCTOBER 22, 2005)?

Does the operation have 1,000 or more AEU's, or is the design capacity of the storage facility 2.5 million gallons or more? [YES | NO]

Is the facility a storage pond? [YES | NO]

Does the storage capacity exceed 1 million gallons? [YES | NO]

WATER QUALITY MANAGEMENT PERMIT

Is the facility located in a “High Quality”, “Exceptional Value”, or “Nutrient-impaired by Agriculture” watershed? [YES | NO]

No permit is required, provided that the design and construction are certified by a registered professional engineer as meeting the Manure Management Manual and the Pennsylvania Technical Guide.
