

Instructions for Using DEP's Permitted Facilities Report

DEP has prepared this reporting tool – *Permitted Facilities Report* – for the public's use to search for and to retrieve information recorded in the [eFACTS¹](#) data system, and to generate a report that lists water pollution control facilities with individual or general National Pollutant Discharge Elimination System (NPDES) permits that have been issued by DEP's Clean Water Program.

These facilities include municipal and non-municipal sewage, industrial waste, municipal and industrial stormwater dischargers, concentrated animal feeding operations (CAFOs), groundwater cleanup discharges and pesticide applicators.

DEP recommends that you review these instructions before using the report.

All data presented on this report are updated at the close of business daily. As a disclaimer, DEP does not guarantee that all NPDES permitted facilities will be represented in the report.

For a report listing individual NPDES permits with links to an electronic PDF file of the permit documents, use DEP's [Final Issued Individual NPDES Permit Documents](#) report.

Instructions:

1. Access the report at the following link:

www.depreportingservices.state.pa.us/ReportServer/Pages/ReportViewer.aspx?%2fWMS%2fWMS_Permitted_Facilities

The link opens to the report webpage containing the search selection parameters, as shown here:

REGION	<Select a Value>	COUNTY	All
MUNICIPALITY	All	FACILITY KIND	NO PF KIND, AO - Agricultural Op
FACILITY STATUS	ACTIV - Active	MAJOR/MINOR	Major, Minor, Non-NPDES
FEE CATEGORY	NO FEE CATEGORY, 1 - SRSTP I	PERMIT NO.	<input type="text"/> <input checked="" type="checkbox"/> NULL
CLIENT	All	SHOW ADDRESS	No
SIC CODE	NO SIC CODE, 0100 - Agric Prod		

2. To prepare a report, the user must select a value for the **Region** from the dropdown menu; either "All" or one of the six Regional Offices that issues permits and regulates facilities in the region. See [page 6](#) for the counties in each of the regions.

The other parameters are set by default. Viewing a report after selecting "All" regions without changing any of the default settings will generate a list of more than 10,500 active facilities.

3. To focus or narrow a search for facilities, the other search selection parameters can be modified as described below. In general, only change one or two parameters at a time for the best results.

Hint: In general, if a search for facilities is focused on any of the other parameters, select "All" under Region.

- **County** and **Municipality** – to find permitted wastewater facilities located in a specific area, select the municipality from the dropdown list. When more than one municipality with the same name is listed, narrow the search by selecting the county.

Hint: Selecting a county first narrows the list of municipalities to just those in that county.

¹ Environment Facility Application Compliance Tracking System

Instructions – NPDES Permitted Facilities Report

- **Facility Kind** – to find facilities as categorized by DEP, select one or more of the kinds listed. See [page 5](#) for a list and description of each facility kind.

For example, to find industrial wastewater facilities, click the (Select All) checkbox to uncheck all, then click on the “IW – Industrial Waste” checkbox.

Note: NPDES permits are issued for the following facility kinds only:

FACILITY KIND	NO PF KIND, AO - Agricultural O
MAJOR/MINOR	<input type="checkbox"/> (Select All)
PERMIT NO.	<input type="checkbox"/> NO PF KIND
SHOW ADDRESS	<input type="checkbox"/> AO - Agricultural Operation
	<input checked="" type="checkbox"/> CAFO - Concentrated Animal Feed Operation
	<input type="checkbox"/> CS - Collection System
	<input checked="" type="checkbox"/> GWCU - Groundwater Cleanup
	<input checked="" type="checkbox"/> IW - Industrial Waste
	<input type="checkbox"/> OSBP - Out-of-State Biosolids Processing
	<input type="checkbox"/> PC - Private Composter
	<input checked="" type="checkbox"/> PEST - Pesticides
	<input type="checkbox"/> SH - Septage Hauler
	<input checked="" type="checkbox"/> SN - Sewage Non-Publicly Owned (Non-Muni)
	<input checked="" type="checkbox"/> SP - Sewage Publicly Owned (Muni)
	<input checked="" type="checkbox"/> SWI - Stormwater-Industrial
	<input checked="" type="checkbox"/> SWM - Stormwater-Municipal

- **Facility Status** – the default selection is set at “Active”. For facilities no longer active or recorded as any other status, check the status (Select All) box and uncheck the “active” box. Generally, this parameter will not need to be changed from this default setting.
- **Major/Minor** – this refers to the discharge indicator for the facility, as designated by DEP and EPA based on flow, population and other criteria. All NPDES facilities should be designated as follows:

Major: IW and sewage facilities ≥1 million gallons per day (MGD)

Minor: IW and sewage facilities >2,000 gallons per day (gpd) and <1 MGD,

all other individual permits, and all general permits (“PAG” for Pennsylvania General).

Facilities that do not discharge to a stream may be listed as “Non-NPDES”, “Minor” or left blank.

- **Fee Category** – refers to a facility’s annual permit fees for individual NPDES permits required by [Chapter 92a.62](#), and for General Permit NOI (notice of intent) fees required by [Chapter 92a.26 \(g\)](#). The Chapter 92a fee schedules categorize facilities by size (flow) and type for individual permits and by type for general permits. See [page 5](#) for a description of each fee category.
- **Permit No.** – to find a specific facility by its permit number, uncheck the “NULL” box and enter the permit number in the search field, for example:

PERMIT	<input type="text" value="pa8675309"/>	<input type="checkbox"/> NULL
--------	--	-------------------------------

Hint: If a known permitted facility is not found, set the Facility Status to “All”.

This parameter can also be used to narrow a search to different types of permits. For example, to find all facilities regulated under a specific general permit, enter the permit number prefix with wildcards (%), as shown:

PERMIT	<input type="text" value="%PAG03%"/>	<input type="checkbox"/> NULL
--------	--------------------------------------	-------------------------------

This search returns 250 active facilities covered by the SWI general permit.

Instructions – NPDES Permitted Facilities Report

- **Client** – the client is the name of the entity that was issued the permit, also referred to as the permittee. The client ID number assigned by the eFACTS system is shown with the client name. This dropdown menu contains 1,000s of names and, unless the recorded name is known, in general this parameter will not need to be changed from the default setting of “All”.
- **SIC Code** – the SIC (Standard Industrial Classification) code are numbered groups of industrial, commercial, and nonresidential activities. An SIC code manual can be found on the US Department of Labor’s web page www.osha.gov/oshstats/.

This parameter contains more than 700 codes sorted by number. Some facilities have more than one SIC code recorded in eFACTS, listed as “primary” and “additional” in the report. To find permitted facilities within the same division, group or by a specific SIC Code, scroll through the list checking or unchecking code boxes as needed. Generally, finding facilities by SIC Code is easier once the report is exported.

Note: SIC codes may not be recorded in eFACTS for all facilities.

- **Show Addresses** – this parameter is set by default to “No” where the facilities’ contact information will not show on the webpage. Regardless of the selection made, a contact name, mailing address, phone and email, if recorded in eFACTS, will be included on the exported report document.
4. To generate a report that returns facility data meeting the default or selected settings of the search parameters, click the “View Report” button or hit Enter.

Upon loading, the report will be displayed with columns of information sorted by Facility Name. The data can be sorted as needed using the arrows next to any of the column headers.

Note: eFACTS data entry became more standardized beginning in 2013. Information from prior years may not have been categorized, recorded, or updated in a similar way.

In addition, the parameter selections are listed with a count of the number of permitted facilities found. For example:

Region: SCRO; County: All; Municipality: All
PF Kind: All
PF Status: ACTIV - Active
Major/Minor: Major, Minor, Non-NPDES
Fee Category: All
Client: All
Show Address: No
SIC Code: All

of Facilities: 2505

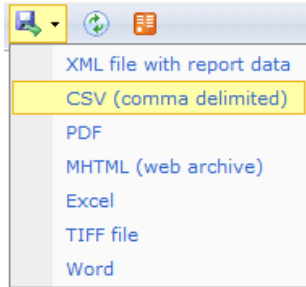

The following describes column headings and data that are not self-explanatory and not already described.

- **Facility ID** – The number assigned to the facility by the eFACTS system.
- **Facility Name** – The name of the facility where the permitted activity occurs.
- **Joint Permittee** – “Yes” indicates that a joint DEP/PFBC (PA Fish & Boat Commission) pesticide permit has been issued
- **Permit Effective Date** – The date the permit became effective as stated on the permit, typically the first day of the next month after the issuance date.

Instructions – NPDES Permitted Facilities Report

Report Controls: The following controls are available in the browser that allow you to manage the report:

- **Page Bar:**  to navigate through the pages of a report, to a specific page number, to the last page or to the first page.
- **Zoom:**  to change the display size of the report within the browser.
- **Find | Next:**  to search for specific terms within the report data.
- **Export:**  to export (open and save) the report as a file document to the location of choice. Click on the Export button for a list of file formats:

If you intend to sort or filter the data, DEP recommends exporting as a CSV document.

For a graphic of the data, DEP recommends exporting as a PDF.

Clicking on any file format generates a popup that asks whether the user wants to open or save the file.

Note: CSV documents open in Excel, however, to save the CSV file, the “Save as type” must be changed from the default “Unicode Text” to “Excel Workbook” so that the file will be saved as an Excel document.

Hint: If the column data were sorted in the browser, the report will export in the sort order selected.

- **Refresh:**  If the report has been sorted, refresh returns the report to the original sort order.

Instructions – NPDES Permitted Facilities Report

Facility Kind	Description
CAFO – Concentrated Animal Feed Operation	See CAFOs webpage
GWCU – Groundwater Cleanup	Facility for the treatment of petroleum contaminated groundwater
IW – Industrial Waste	Facilities that discharge wastewaters other than sewage, including water treatment plants
PEST – Pesticides	Discharges from pesticide application to or near surface waters
SN – Sewage Non-Publicly Owned (Non-Muni)	Privately owned sewage treatment facilities
SP – Sewage Publicly Owned (Muni)	Municipal or other publicly owned sewage treatment facilities
SWI – Stormwater-Industrial	Stormwater associated with industrial activities
SWM – Stormwater-Municipal	Stormwater from <u>municipal separate storm sewer systems</u> MS4s

Code	Fee Category	Description
	NO FEE CATEGORY	No category selected in eFACTS; typically for an SWI facility with no discharge
24	CAAP Individual Permit	IW – <u>C</u> oncentrated <u>A</u> quatic <u>A</u> nimal <u>P</u> roduction aka aquaculture
20	CAFO Individual Permit	IW
25	Individual Pesticides Permit	IW
13	IW Stormwater Individual Permit	SWI – Industrial activities exposed to stormwater
11	Major IW Facility <250 MGD	
12	Major IW Facility ≥250 MGD	
6	Major Sewage Facility ≥1 and <5 MGD	
7	Major Sewage Facility ≥5 MGD	
8	Major Sewage Facility with CSO	
10	Minor IW Facility with ELG*	<u>E</u> ffluent <u>L</u> imit <u>G</u> uidelines: for industrial discharges established by EPA at 40 CFR Subchapter N
9	Minor IW Facility without ELG	
3	Minor Sewage Facility <0.05 MGD	
4	Minor Sewage Facility ≥0.05 and <1 MGD	
5	Minor Sewage Facility with CSO	Sewage, <u>C</u> ombined <u>S</u> ewer <u>O</u> utfall
22	MS4 Individual Permit	SWM
28 & 29	MS4 Waiver – Individual & PAG-13	SWM
27	No Exposure Certification	SWI – Stormwater not associated with IW
OPCERT	Op Cert Only	Sewage, separate from IW facilities, under one permit
14	PAG-03 Stormwater Assoc with IW	SWI
16	PAG-04 SFTF	Sewage, <u>S</u> mall <u>F</u> low <u>T</u> reatment <u>F</u> acility <2,000 gpd
15	PAG-04 SRSTP	Sewage, <u>S</u> ingle <u>R</u> esidence <u>S</u> ewage <u>T</u> reatment <u>P</u> lant
17	PAG-05 Groundwater Remediation	IW
18	PAG-06 CSOs	Sewage, Combined Sewer Outfalls
19	PAG-10 Hydrostatic Testing	IW – discharge from tank and pipeline testing
30	PAG-11 Aquaculture Permit	IW
21	PAG-12 CAFO Permit	IW
23	PAG-13 General Permit	SWM (MS4)
26	PAG-15 Pesticides Permit	IW
2	SFTF Individual Permit	Sewage, <2,000 gpd
1	SRSTP Individual Permit	Sewage, single residence
LAND	WQM Land Application	Sewage or IW, no stream discharge

Instructions – NPDES Permitted Facilities Report

For questions about facilities listed on the *NPDES Permitted Facilities Report*, contact the Clean Water Program at the applicable regional office:

Regional Offices

Southeast Regional Office
2 East Main St.
Norristown, PA 19401-4915

Telephone: 484-250-5900
24-Hour Emergency: 484-250-5900

Counties: *Bucks, Chester, Delaware, Montgomery and Philadelphia*
