Users (i.e. consultants) who wish to work in the Chapter 105 general permit e-permitting process on behalf of the client must first go to the website https://www.depgreenport.state.pa.us and also follow the instructions in Chapter 105 e-permitting User Guide to create a Greenport account.

The permit applicant is required to obtain a Greenport account and will be considered the Electronic Filing Administrator (EFA) for their project. Only the EFA can authorize users (i.e. consultants) the individual Greenport access to work on project specific applications through the Chapter 105 general permit e-permitting process. Each individual user working on a Chapter 105 e-permit registration must complete the User’s Application and Security Agreement Form to be granted access by the EFA for a project. Companies, such as a utility, municipality, developers, etc. who are submitting registrations for a Chapter 105 general permit should designate a responsible individual such as a project manager, as the EFA on behalf of the company.
