

COMMONWEALTH OF PENNSYLVANIA  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
AIR QUALITY PROGRAM

STATE ONLY OPERATING PERMIT

Issue Date: April 18, 2016

Effective Date: April 18, 2016

Expiration Date: April 18, 2021

In accordance with the provisions of the Air Pollution Control Act, the Act of January 8, 1960, P.L. 2119, as amended, and 25 Pa. Code Chapter 127, the Owner, [and Operator if noted] (hereinafter referred to as permittee) identified below is authorized by the Department of Environmental Protection (Department) to operate the air emission source(s) more fully described in this permit. This Facility is subject to all terms and conditions specified in this permit. Nothing in this permit relieves the permittee from its obligations to comply with all applicable Federal, State and Local laws and regulations.

The regulatory or statutory authority for each permit condition is set forth in brackets. All terms and conditions in this permit are federally enforceable unless otherwise designated.

State Only Permit No: 23-00026

Synthetic Minor

Federal Tax Id - Plant Code: 23-1386976-11

Owner Information

Name: GLASGOW INC  
Mailing Address: PO BOX 1089  
FREEBORN ASPHALT PLANT  
GLENSIDE, PA 19038-1089

Plant Information

Plant: GLASGOW INC/FREEBORN ASPHALT PLT  
Location: 23 Delaware County 23005 Springfield Township  
SIC Code: 2951 Manufacturing - Asphalt Paving Mixtures And Blocks

Responsible Official

Name: JEFFREY FRANTZ  
Title: VP  
Phone: (215) 884 - 8800

Permit Contact Person

Name: BRIAN CHABAK  
Title: ENV MGR  
Phone: (215) 884 - 8800

**PERMIT MAPS**

## SECTION B. General State Only Requirements

### #001 [25 Pa. Code § 121.1]

#### Definitions.

Words and terms that are not otherwise defined in this permit shall have the meanings set forth in Section 3 of the Air Pollution Control Act (35 P.S. § 4003) and in 25 Pa. Code § 121.1.

### #002 [25 Pa. Code § 127.446]

#### Operating Permit Duration.

- (a) This operating permit is issued for a fixed term of five (5) years and shall expire on the date specified on Page 1 of this permit.
- (b) The terms and conditions of the expired permit shall automatically continue pending issuance of a new operating permit, provided the permittee has submitted a timely and complete application and paid applicable fees required under 25 Pa. Code Chapter 127, Subchapter I and the Department is unable, through no fault of the permittee, to issue or deny a new permit before the expiration of the previous permit.

### #003 [25 Pa. Code §§ 127.412, 127.413, 127.414, 127.446 & 127.703(b)&(c)]

#### Permit Renewal.

- (a) The permittee shall submit a timely and complete application for renewal of the operating permit to the appropriate Regional Air Program Manager. The application for renewal of the operating permit shall be submitted at least six (6) months and not more than 18 months before the expiration date of this permit.
- (b) The application for permit renewal shall include the current permit number, a description of any permit revisions that occurred during the permit term, and any applicable requirements that were promulgated and not incorporated into the permit during the permit term. An application is complete if it contains sufficient information to begin processing the application, has the applicable sections completed and has been signed by a responsible official.
- (c) The permittee shall submit with the renewal application a fee for the processing of the application and an additional annual administrative fee as specified in 25 Pa. Code § 127.703(b) and (c). The fees shall be made payable to "The Commonwealth of Pennsylvania - Clean Air Fund" and shall be for the amount specified in the following schedule specified in 25 Pa. Code § 127.703(b) and (c).
  - (1) Three hundred dollars for applications filed during the 2000-2004 calendar years.
  - (2) Three hundred seventy-five dollars for applications filed for the calendar years beginning in 2005.
- (d) The renewal application shall also include submission of proof that the local municipality and county, in which the facility is located, have been notified in accordance with 25 Pa. Code § 127.413.
- (e) The application for renewal of the operating permit shall also include submission of supplemental compliance review forms in accordance with the requirements of 25 Pa. Code § 127.412(b) and § 127.412(j).
- (f) The permittee, upon becoming aware that any relevant facts were omitted or incorrect information was submitted in the permit application, shall promptly submit such supplementary facts or corrected information as necessary to address any requirements that become applicable to the source after the permittee submits a complete application, but prior to the date the Department takes action on the permit application.

### #004 [25 Pa. Code § 127.703]

#### Operating Permit Fees under Subchapter I.

- (a) The permittee shall pay fees according to the following schedule specified in 25 Pa. Code § 127.703(b):
  - (1) Three hundred dollars for applications filed during the 2000-2004 calendar years.
  - (2) Three hundred seventy-five dollars for applications filed for the calendar years beginning in 2005.

This fee schedule shall apply to the processing of an application for an operating permit as well as the extension,

## SECTION B. General State Only Requirements

modification, revision, renewal, and re-issuance of each operating permit or part thereof.

(b) The permittee shall pay an annual operating permit administrative fee according to the fee schedule established in 25 Pa. Code § 127.703(c).

(1) Two hundred fifty dollars for applications filed during the 1995-1999 calendar years.

(2) Three hundred dollars for applications filed during the 2000-2004 calendar years.

(3) Three hundred seventy-five dollars for applications filed during the years beginning in 2005.

(c) The applicable fees shall be made payable to "The Commonwealth of Pennsylvania - Clean Air Fund".

### #005 [25 Pa. Code §§ 127.450 (a)(4) and 127.464]

#### Transfer of Operating Permits.

(a) This operating permit may not be transferred to another person, except in cases of transfer-of-ownership that are documented and approved by the Department.

(b) In accordance with 25 Pa. Code § 127.450(a)(4), a change in ownership of the source shall be treated as an administrative amendment if the Department determines that no other change in the permit is required and a written agreement has been submitted to the Department identifying the specific date of the transfer of permit responsibility, coverage and liability between the current and the new permittee and a compliance review form has been submitted to, and the permit transfer has been approved by, the Department.

(c) This operating permit is valid only for those specific sources and the specific source locations described in this permit.

### #006 [25 Pa. Code § 127.441 and 35 P.S. § 4008]

#### Inspection and Entry.

(a) Upon presentation of credentials and other documents as may be required by law, the permittee shall allow the Department or authorized representatives of the Department to perform the following:

(1) Enter at reasonable times upon the permittee's premises where a source is located or emissions related activity is conducted, or where records are kept under the conditions of this permit;

(2) Have access to and copy, at reasonable times, any records that are kept under the conditions of this permit;

(3) Inspect at reasonable times, any facilities, equipment including monitoring and air pollution control equipment, practices, or operations regulated or required under this permit;

(4) Sample or monitor, at reasonable times, any substances or parameters, for the purpose of assuring compliance with the permit or applicable requirements as authorized by the Clean Air Act, the Air Pollution Control Act, or the regulations promulgated under the Acts.

(b) Pursuant to 35 P.S. § 4008, no person shall hinder, obstruct, prevent or interfere with the Department or its personnel in the performance of any duty authorized under the Air Pollution Control Act or regulations adopted thereunder including denying the Department access to a source at this facility. Refusal of entry or access may constitute grounds for permit revocation and assessment of criminal and/or civil penalties.

(c) Nothing in this permit condition shall limit the ability of the EPA to inspect or enter the premises of the permittee in accordance with Section 114 or other applicable provisions of the Clean Air Act.

### #007 [25 Pa. Code §§ 127.441 & 127.444]

#### Compliance Requirements.

(a) The permittee shall comply with the conditions of this operating permit. Noncompliance with this permit constitutes

## SECTION B. General State Only Requirements

a violation of the Clean Air Act and the Air Pollution Control Act and is grounds for one or more of the following:

- (1) Enforcement action
- (2) Permit termination, revocation and reissuance or modification
- (3) Denial of a permit renewal application

(b) A person may not cause or permit the operation of a source which is subject to 25 Pa. Code Article III unless the source(s) and air cleaning devices identified in the application for the plan approval and operating permit and the plan approval issued for the source is operated and maintained in accordance with specifications in the applications and the conditions in the plan approval and operating permit issued by the Department. A person may not cause or permit the operation of an air contamination source subject to 25 Pa. Code Chapter 127 in a manner inconsistent with good operating practices.

(c) For purposes of Sub-condition (b) of this permit condition, the specifications in applications for plan approvals and operating permits are the physical configurations and engineering design details which the Department determines are essential for the permittee's compliance with the applicable requirements in this State-Only permit. Nothing in this sub-condition shall be construed to create an independent affirmative duty upon the permittee to obtain a predetermination from the Department for physical configuration or engineering design detail changes made by the permittee.

### #008 [25 Pa. Code § 127.441]

#### Need to Halt or Reduce Activity Not a Defense.

It shall not be a defense for the permittee in an enforcement action that it was necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit.

### #009 [25 Pa. Code §§ 127.442(a) & 127.461]

#### Duty to Provide Information.

(a) The permittee shall submit reports to the Department containing information the Department may prescribe relative to the operation and maintenance of each source at the facility.

(b) The permittee shall furnish to the Department, in writing, information that the Department may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with the permit. Upon request, the permittee shall also furnish to the Department copies of records that the permittee is required to maintain in accordance with this permit.

### #010 [25 Pa. Code § 127.461]

#### Revising an Operating Permit for Cause.

This operating permit may be terminated, modified, suspended or revoked and reissued if one or more of the following applies:

- (1) The permittee constructs or operates the source subject to the operating permit so that it is in violation of the Air Pollution Control Act, the Clean Air Act, the regulations thereunder, a plan approval, a permit or in a manner that causes air pollution.
- (2) The permittee fails to properly or adequately maintain or repair an air pollution control device or equipment attached to or otherwise made a part of the source.
- (3) The permittee has failed to submit a report required by the operating permit or an applicable regulation.
- (4) The EPA determines that the permit is not in compliance with the Clean Air Act or the regulations thereunder.

### #011 [25 Pa. Code §§ 127.450 & 127.462]

#### Operating Permit Modifications

- (a) The permittee is authorized to make administrative amendments, minor operating permit modifications and

## SECTION B. General State Only Requirements

significant operating permit modifications, under this permit, as outlined below:

(b) Administrative Amendments. The permittee shall make administrative operating permit amendments (as defined in 25 Pa. Code § 127.450(a)), according to procedures specified in § 127.450 unless precluded by the Clean Air Act or its regulations.

(c) Minor Operating Permit Modifications. The permittee shall make minor operating permit modifications (as defined 25 Pa. Code § 121.1) in accordance with 25 Pa. Code § 127.462.

(d) Permit modifications which do not qualify as minor permit modifications under 25 Pa. Code § 127.541 will be treated as a significant operating permit revision subject to the public notification procedures in §§ 127.424 and 127.425.

### #012 [25 Pa. Code § 127.441]

#### Severability Clause.

The provisions of this permit are severable, and if any provision of this permit is determined by a court of competent jurisdiction to be invalid or unenforceable, such a determination will not affect the remaining provisions of this permit.

### #013 [25 Pa. Code § 127.449]

#### De Minimis Emission Increases.

(a) This permit authorizes de minimis emission increases in accordance with 25 Pa. Code § 127.449 so long as the permittee provides the Department with seven (7) days prior written notice before commencing any de minimis emissions increase. The written notice shall:

(1) Identify and describe the pollutants that will be emitted as a result of the de minimis emissions increase.

(2) Provide emission rates expressed in tons per year and in terms necessary to establish compliance consistent with any applicable requirement.

(b) The Department may disapprove or condition de minimis emission increases at any time.

(c) Except as provided below in (d), the permittee is authorized to make de minimis emission increases (expressed in tons per year) up to the following amounts without the need for a plan approval or prior issuance of a permit modification:

(1) Four tons of carbon monoxide from a single source during the term of the permit and 20 tons of carbon monoxide at the facility during the term of the permit.

(2) One ton of NO<sub>x</sub> from a single source during the term of the permit and 5 tons of NO<sub>x</sub> at the facility during the term of the permit.

(3) One and six-tenths tons of the oxides of sulfur from a single source during the term of the permit and 8.0 tons of oxides of sulfur at the facility during the term of the permit.

(4) Six-tenths of a ton of PM<sub>10</sub> from a single source during the term of the permit and 3.0 tons of PM<sub>10</sub> at the facility during the term of the permit. This shall include emissions of a pollutant regulated under Section 112 of the Clean Air Act unless precluded by the Clean Air Act, the regulations thereunder or 25 Pa. Code Article III.

(5) One ton of VOCs from a single source during the term of the permit and 5.0 tons of VOCs at the facility during the term of the permit. This shall include emissions of a pollutant regulated under Section 112 of the Clean Air Act unless precluded by the Clean Air Act, the regulations thereunder or 25 Pa. Code Article III.

(6) Other sources and classes of sources determined to be of minor significance by the Department.

(d) In accordance with § 127.14, the permittee is authorized to install the following minor sources without the need for a plan approval or permit modification:

## SECTION B. General State Only Requirements

- (1) Air conditioning or ventilation systems not designed to remove pollutants generated or released from other sources.
  - (2) Combustion units rated at 2,500,000 or less Btu per hour of heat input.
  - (3) Combustion units with a rated capacity of less than 10,000,000 Btu per hour heat input fueled by natural gas supplied by a public utility or by commercial fuel oils which are No. 2 or lighter, viscosity less than or equal to 5.82 c St, and which meet the sulfur content requirements of 25 Pa. Code §123.22 (relating to combustion units). For purposes of this permit, commercial fuel oil shall be virgin oil which has no reprocessed, recycled or waste material added.
  - (4) Space heaters which heat by direct heat transfer.
  - (5) Laboratory equipment used exclusively for chemical or physical analysis.
  - (6) Other sources and classes of sources determined to be of minor significance by the Department.
- (e) This permit does not authorize de minimis emission increases if the emissions increase would cause one or more of the following:
- (1) Increase the emissions of a pollutant regulated under Section 112 of the Clean Air Act except as authorized in Subparagraphs (c)(4) and (5) of this permit condition.
  - (2) Subject the facility to the prevention of significant deterioration requirements in 25 Pa. Code Chapter 127, Subchapter D and/or the new source review requirements in Subchapter E.
  - (3) Violate any applicable requirement of this permit, the Air Pollution Control Act, the Clean Air Act, or the regulations promulgated under either of the acts.
- (f) Emissions authorized under this permit condition shall be included in the monitoring, recordkeeping and reporting requirements of this permit.
- (g) Except for de minimis emission increases, installation of minor sources made pursuant to this permit condition and Plan Approval Exemptions under 25 Pa. Code § 127.14 (relating to exemptions), the permittee is prohibited from making changes or engaging in activities that are not specifically authorized under this permit without first applying for a plan approval. In accordance with § 127.14(b), a plan approval is not required for the construction, modification, reactivation, or installation of the sources creating the de minimis emissions increase.
- (h) The permittee may not meet de minimis emission threshold levels by offsetting emission increases or decreases at the same source.

### #014 [25 Pa. Code § 127.3]

#### Operational Flexibility.

The permittee is authorized to make changes within the facility in accordance with the regulatory provisions outlined in 25 Pa. Code § 127.3 (relating to operational flexibility) to implement the operational flexibility requirements provisions authorized under Section 6.1(i) of the Air Pollution Control Act and the operational flexibility terms and conditions of this permit. The provisions in 25 Pa. Code Chapter 127 which implement the operational flexibility requirements include the following:

- (1) Section 127.14 (relating to exemptions)
- (2) Section 127.447 (relating to alternative operating scenarios)
- (3) Section 127.448 (relating to emissions trading at facilities with Federally enforceable emissions caps)
- (4) Section 127.449 (relating to de minimis emission increases)
- (5) Section 127.450 (relating to administrative operating permit amendments)

## SECTION B. General State Only Requirements

(6) Section 127.462 (relating to minor operating permit modifications)

(7) Subchapter H (relating to general plan approvals and general operating permits)

### #015 [25 Pa. Code § 127.11]

#### Reactivation

(a) The permittee may not reactivate a source that has been out of operation or production for at least one year unless the reactivation is conducted in accordance with a plan approval granted by the Department or in accordance with reactivation and maintenance plans developed and approved by the Department in accordance with 25 Pa. Code § 127.11a(a).

(b) A source which has been out of operation or production for more than five (5) years but less than 10 years may be reactivated and will not be considered a new source if the permittee satisfies the conditions specified in 25 Pa. Code § 127.11a(b).

### #016 [25 Pa. Code § 127.36]

#### Health Risk-based Emission Standards and Operating Practice Requirements.

(a) When needed to protect public health, welfare and the environment from emissions of hazardous air pollutants from new and existing sources, the permittee shall comply with the health risk-based emission standards or operating practice requirements imposed by the Department, except as precluded by §§ 6.6(d)(2) and (3) of the Air Pollution Control Act [35 P.S. § 4006.6(d)(2) and (3)].

(b) A person challenging a performance or emission standard established by the Department has the burden to demonstrate that performance or emission standard does not meet the requirements of Section 112 of the Clean Air Act.

### #017 [25 Pa. Code § 121.9]

#### Circumvention.

No person may permit the use of a device, stack height which exceeds good engineering practice stack height, dispersion technique or other technique which, without resulting in reduction of the total amount of air contaminants emitted, conceals or dilutes an emission of air contaminants which would otherwise be in violation of 25 Pa. Code Article III, except that with prior approval of the Department, the device or technique may be used for control of malodors.

### #018 [25 Pa. Code §§ 127.402(d) & 127.442]

#### Reporting Requirements.

(a) The permittee shall comply with the applicable reporting requirements of the Clean Air Act, the regulations thereunder, the Air Pollution Control Act and 25 Pa. Code Article III including Chapters 127, 135 and 139.

(b) The permittee shall submit reports to the Department containing information the Department may prescribe relative to the operation and maintenance of any air contamination source.

(c) Reports, test data, monitoring data, notifications and requests for renewal of the permit shall be submitted to the:

Regional Air Program Manager  
PA Department of Environmental Protection  
(At the address given in the permit transmittal letter, or otherwise notified)

(d) Any records or information including applications, forms, or reports submitted pursuant to this permit condition shall contain a certification by a responsible official as to truth, accuracy and completeness. The certifications submitted under this permit shall require a responsible official of the facility to certify that based on information and belief formed after reasonable inquiry, the statements and information in the documents are true, accurate and complete.

(e) Any records, reports or information submitted to the Department shall be available to the public except for such

## SECTION B. General State Only Requirements

records, reports or information which meet the confidentiality requirements of § 4013.2 of the Air Pollution Control Act and §§ 112(d) and 114(c) of the Clean Air Act. The permittee may not request a claim of confidentiality for any emissions data generated for the facility.

### #019 [25 Pa. Code §§ 127.441(c) & 135.5]

#### Sampling, Testing and Monitoring Procedures.

(a) The permittee shall comply with the monitoring, recordkeeping or reporting requirements of 25 Pa. Code Chapter 139 and the other applicable requirements of 25 Pa. Code Article III and additional requirements related to monitoring, reporting and recordkeeping required by the Clean Air Act and the regulations thereunder including the Compliance Assurance Monitoring requirements of 40 CFR Part 64, where applicable.

(b) Unless alternative methodology is required by the Clean Air Act and regulations adopted thereunder, sampling, testing and monitoring required by or used by the permittee to demonstrate compliance with any applicable regulation or permit condition shall be conducted in accordance with the requirements of 25 Pa. Code Chapter 139.

### #020 [25 Pa. Code §§ 127.441(c) and 135.5]

#### Recordkeeping.

(a) The permittee shall maintain and make available, upon request by the Department, the following records of monitored information:

- (1) The date, place (as defined in the permit) and time of sampling or measurements.
- (2) The dates the analyses were performed.
- (3) The company or entity that performed the analyses.
- (4) The analytical techniques or methods used.
- (5) The results of the analyses.
- (6) The operating conditions as existing at the time of sampling or measurement.

(b) The permittee shall retain records of any required monitoring data and supporting information for at least five (5) years from the date of the monitoring, sample, measurement, report or application. Supporting information includes the calibration data and maintenance records and original strip-chart recordings for continuous monitoring instrumentation, and copies of reports required by the permit.

(c) The permittee shall maintain and make available to the Department upon request, records including computerized records that may be necessary to comply with the reporting, recordkeeping and emission statement requirements in 25 Pa. Code Chapter 135 (relating to reporting of sources). In accordance with 25 Pa. Code Chapter 135, § 135.5, such records may include records of production, fuel usage, maintenance of production or pollution control equipment or other information determined by the Department to be necessary for identification and quantification of potential and actual air contaminant emissions.

### #021 [25 Pa. Code § 127.441(a)]

#### Property Rights.

This permit does not convey any property rights of any sort, or any exclusive privileges.

### #022 [25 Pa. Code § 127.447]

#### Alternative Operating Scenarios.

The permittee is authorized to make changes at the facility to implement alternative operating scenarios identified in this permit in accordance with 25 Pa. Code § 127.447.

## SECTION C. Site Level Requirements

### I. RESTRICTIONS.

#### Emission Restriction(s).

##### # 001 [25 Pa. Code §121.7]

##### **Prohibition of air pollution.**

No person may permit air pollution as that term is defined in the Air Pollution Control Act 35 (P.S. Section 4003).

##### # 002 [25 Pa. Code §123.1]

##### **Prohibition of certain fugitive emissions**

No person may permit the emission into the outdoor atmosphere of fugitive air contaminant from a source other than the following:

- (a) construction or demolition of buildings or structures;
- (b) grading, paving and maintenance of roads and streets;
- (c) use of roads and streets. Emissions from material in or on trucks, railroad cars and other vehicular equipment are not considered as emissions from use of roads and streets;
- (d) clearing of land;
- (e) stockpiling of materials;
- (f) open burning operations, as specified in 25 Pa. Code § 129.14;
- (g) blasting in open pit mines. Emissions from drilling are not considered as emissions from blasting;
- (h) coke oven batteries, provided the fugitive air contaminants emitted from any coke oven battery comply with the standards for visible fugitive emissions in 25 Pa. Code §§ 123.44 and 129.15 (relating to limitations of visible fugitive air contaminants from operation of any coke oven battery; and coke pushing operations); and
- (i) sources and classes of sources other than those identified in (a)-(h), above, for which the permittee has obtained a determination from the Department that fugitive emissions from the source, after appropriate control, meet the following requirements:
  - (1) the emissions are of minor significance with respect to causing air pollution; and
  - (2) the emissions are not preventing or interfering with the attainment or maintenance of any ambient air quality standard.

##### # 003 [25 Pa. Code §123.2]

##### **Fugitive particulate matter**

No person may permit fugitive particulate matter to be emitted into the outdoor atmosphere from a source specified in Section C, Condition #002(a)--(i), if such emissions are visible at the point the emissions pass outside the person's property.

##### # 004 [25 Pa. Code §123.31]

##### **Limitations**

A person may not permit the emission into the outdoor atmosphere of any malodorous air contaminants from any source in such a manner that the malodors are detectable outside the property of the person on whose land the source is being operated.

##### # 005 [25 Pa. Code §123.41]

##### **Limitations**

A person may not permit the emission into the outdoor atmosphere of visible air contaminants in such a manner that the opacity of the emission is either of the following:

## SECTION C. Site Level Requirements

(a) Equal to or greater than 20% for a period or periods aggregating more than three minutes in any one (1) hour.

(b) Equal to or greater than 60% at any time.

### # 006 [25 Pa. Code §123.42]

#### Exceptions

The limitations of Condition #005, of this Section, shall not apply to a visible emission in either of the following instances:

(a) when the presence of uncombined water is the only reason for failure to meet the limitations; or

(b) when the emission results from the sources specified in Condition #002, of this Section.

### # 007 [25 Pa. Code §127.441]

#### Operating permit terms and conditions.

The permittee shall ensure that the emissions of volatile organic compounds (VOCs) from all sources at the facility, shall not exceed 24.9 tons per year, as a 12-month rolling sum.

### # 008 [25 Pa. Code §127.441]

#### Operating permit terms and conditions.

The permittee shall ensure that the emissions of particulate matter (PM) from all sources at the facility, shall not exceed 99.9 tons per year, as a 12-month rolling sum.

### # 009 [25 Pa. Code §127.441]

#### Operating permit terms and conditions.

The permittee shall ensure that the emissions of nitrogen oxides (NOx) from all sources at the facility, shall not exceed 24.9 tons per year, as a 12-month rolling sum.

### # 010 [25 Pa. Code §129.14]

#### Open burning operations

No person may permit the open burning of material in the Southeast Air Basin except where the open burning operations result from:

(a) a fire set to prevent or abate a fire hazard, when approved by the Department and set by or under the supervision of a public officer;

(b) any fire set for the purpose of instructing personnel in fire fighting, when approved by the Department;

(c) a fire set for the prevention and control of disease or pests, when approved by the Department;

(d) a fire set in conjunction with the production of agricultural commodities in their unmanufactured state on the premises of the farm operation;

(e) a fire set for the purpose of burning domestic refuse, when the fire is on the premises of a structure occupied solely as a dwelling by two families or less and when the refuse results from the normal occupancy of the structure;

(f) a fire set solely for recreational or ceremonial purposes; or

(g) a fire set solely for cooking food.

## II. TESTING REQUIREMENTS.

### # 011 [25 Pa. Code §127.441]

#### Operating permit terms and conditions.

(a) If, at any time, the Department has cause to believe that air contaminant emissions from any source(s) listed in this Permit, may be in excess of the limitations specified in this Permit, or established pursuant to, any applicable rule or

## SECTION C. Site Level Requirements

regulation contained in 25 Pa. Code Article III, the permittee shall conduct any tests deemed necessary by the Department to determine the actual emission rate(s).

(b) Such testing shall be conducted in accordance with the provisions of 25 Pa. Code Chapter 139 and the Department's Source Testing Manual (274-0300-002), when applicable, and in accordance with any restrictions or limitations established by the Department at such time as it notifies the permittee that testing is required.

### # 012 [25 Pa. Code §139.16]

#### Sulfur in fuel oil.

(a) The following are applicable to tests for the analysis of commercial fuel oil:

(1) The fuel oil sample for chemical analysis shall be collected in a manner that provides a representative sample. Upon the request of a Department official, the person responsible for the operation of the source shall collect the sample employing the procedures and equipment specified in 25 Pa. Code § 139.4(10) or (21)(relating to references);

(2) Test methods and procedures for the determination of sulfur shall be those specified in 25 Pa. Code § 139.4(12)--(15); and (20).

(3) Results shall be reported in accordance with the units specified in 25 Pa. Code § 123.22 (relating to combustion units).

(b) The testing requirements in paragraph (a), above, shall be waived in the event that a delivery receipt from the supplier, showing the maximum percent sulfur in the fuel, is obtained each time a fuel oil delivery is made.

## III. MONITORING REQUIREMENTS.

### # 013 [25 Pa. Code §123.43]

#### Measuring techniques

Visible emissions may be measured using either of the following:

(1) A device approved by the Department and maintained to provide accurate opacity measurements.

(2) Observers, trained and qualified to measure plume opacity with the naked eye or with the aid of any devices approved by the Department.

### # 014 [25 Pa. Code §127.441]

#### Operating permit terms and conditions.

[Additional authority for this permit condition is also derived from 25 Pa. Code § 127.511.]

(a) The permittee shall monitor the facility, once per operating day, for the following:

- (1) odors which may be objectionable (as per 25 Pa. Code §123.31);
- (2) visible emissions (as per 25 Pa. Code §§123.41 and 123.42).; and
- (3) fugitive particulate matter (as per 25 Pa. Code §§ 123.1 and 123.2).

(b) Objectionable odors, which may cause annoyance or discomfort to the public noticed at the site property boundaries that are caused or may be caused by operations at the site, as well as fugitive particulate emissions that originated on-site and cross the property line, and visible emissions that originated on site shall:

- (1) be investigated;
- (2) be reported to the facility management, or individual(s) designated by the permittee;
- (3) have appropriate corrective action taken (for emissions that originate on-site); and
- (4) be recorded in a permanent written log.

## SECTION C. Site Level Requirements

### IV. RECORDKEEPING REQUIREMENTS.

#### # 015 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall maintain a log of the dates of road sweeping or cleaning. This log shall be in a format approved by the Department and shall be maintained on site for a period of five (5) years and shall be made available upon request.

#### # 016 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall maintain records of the monthly and annual production on a monthly rolling basis to demonstrate compliance with the established production limit of 286,000 tons of asphalt per year.

#### # 017 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall maintain all records necessary to verify compliance with the pollutant emission limits established in this permit.

#### # 018 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall maintain records of all the facility's increases of emissions from the following categories:

- (a) de minimus increases without notification to the Department.
- (b) de minimus increases with notification to the Department, via letter.
- (c) Increases resulting from a Request for Determination (RFD) to the Department.
- (d) Increases resulting from the issuance of a plan approval and subsequent operating permit.

#### # 019 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall maintain a record of all monitoring of fugitive emissions, visible emissions and odors, including those that deviate from the conditions found in this permit. The record of deviations shall contain, at a minimum, the following items:

- (a) Date, time, and location of the incident(s).
- (b) The cause of the event.
- (c) The corrective action taken, if necessary, to abate the situation and prevent future occurrences.

#### # 020 [25 Pa. Code §135.5]

##### Recordkeeping

Source owners or operators shall maintain and make available upon request by the Department records including computerized records that may be necessary to comply with 25 Pa. Code §§ 135.3 and 135.21 (relating to reporting; and emission statements). These may include records of production, fuel usage, maintenance of production or pollution control equipment or other information determined by the Department to be necessary for identification and quantification of potential and actual air contaminant emissions. If direct recordkeeping is not possible or practical, sufficient records shall be kept to provide the needed information by indirect means.

### V. REPORTING REQUIREMENTS.

#### # 021 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

(a) The permittee shall, within two (2) hours of discovery of any occurrence, notify the Department, at (484) 250-5920, of any malfunction of the source(s) or associated air pollution control devices listed in Section A, of this permit, which results in, or may possibly result in, the emission of air contaminants in excess of the limitations specified in this permit, or of a regulation contained in 25 Pa. Code Article III.

(b) Malfunction(s) which occur at this facility, and pose(s) an imminent danger to public health, safety, welfare and the environment, and would violate permit conditions if the source were to continue to operate after the malfunction, shall immediately be reported to the Department by telephone at the above number.

**SECTION C. Site Level Requirements**

(c) A written report shall be submitted to the Department within two (2) working days following the notification of the incident, and shall describe, at a minimum, the following:

- (1) The malfunction(s).
- (2) The emission(s).
- (3) The duration.
- (4) Any corrective action taken.

**# 022 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

[Additional authority for this permit condition is also derived from 40 CFR Part 68.]

(a) If required by Section 112(r) of the Clean Air Act, the permittee shall develop and implement an accidental release program consistent with requirements of the Clean Air Act, 40 CFR Part 68 (relating to chemical accident prevention provisions) and the Federal Chemical Safety Information, Site Security and Fuels Regulatory Relief Act (P.L. 106-40).

(b) The permittee shall prepare and implement a Risk Management Plan (RMP) which meets the requirements of Section 112(r) of the Clean Air Act, 40 CFR Part 68 and the Federal Chemical Safety Information, Site Security and Fuels Regulatory Relief Act when a regulated substance listed in 40 CFR § 68.130 is present in a process in more than the threshold quantity at a facility. The permittee shall submit the RMP to the federal Environmental Protection Agency according to the following schedule and requirements:

(1) The permittee shall submit the first RMP to a central point specified by EPA no later than the latest of the following:

- (i) Three years after the date on which a regulated substance is first listed under § 68.130; or,
- (ii) The date on which a regulated substance is first present above a threshold quantity in a process.

(2) The permittee shall submit any additional relevant information requested by the Department or EPA concerning the RMP and shall make subsequent submissions of RMPs in accordance with 40 CFR § 68.190.

(3) The permittee shall certify that the RMP is accurate and complete in accordance with the requirements of 40 CFR Part 68, including a checklist addressing the required elements of a complete RMP.

(c) As used in this permit condition, the term "process" shall be as defined in 40 CFR § 68.3. The term "process" means any activity involving a regulated substance including any use, storage, manufacturing, handling, or on-site movement of such substances or any combination of these activities. For purposes of this definition, any group of vessels that are interconnected, or separate vessels that are located such that a regulated substance could be involved in a potential release, shall be considered a single process.

(d) If this facility is subject to 40 CFR Part 68, as part of the certification required under this permit, the permittee shall:

(1) Submit a compliance schedule for satisfying the requirements of 40 CFR Part 68 by the date specified in 40 CFR § 68.10(a); or,

(2) Certify that this facility is in compliance with all requirements of 40 CFR Part 68 including the registration and submission of the RMP.

(e) If this facility is subject to 40 CFR Part 68, the permittee shall maintain records supporting the implementation of an accidental release program for five (5) years in accordance with 40 CFR § 68.200.

(f) When this facility is subject to the accidental release program requirements of Section 112(r) of the Clean Air Act and 40 CFR Part 68, appropriate enforcement action will be taken by the Department if:

The permittee fails to register and submit the RMP or a revised plan pursuant to 40 CFR Part 68.

## SECTION C. Site Level Requirements

### # 023 [25 Pa. Code §135.3]

#### Reporting

The permittee, who has been previously advised by the Department to submit a source report, shall submit by March 1, of each year, a source report for the preceding calendar year. The report shall include information from all previously reported sources, new sources which were first operated during the preceding calendar year, and sources modified during the same period which were not previously reported, including those sources listed in the Miscellaneous Section of this permit.

The permittee may request an extension of time from the Department for the filing of a source report, and the Department may grant the extension for reasonable cause.

## VI. WORK PRACTICE REQUIREMENTS.

### # 024 [25 Pa. Code §123.1]

#### Prohibition of certain fugitive emissions

A person responsible for any source specified in Condition #002 of this section, shall take all reasonable actions to prevent particulate matter from becoming airborne. These actions shall include, but not be limited to, the following:

- (a) Use, where possible, of water or suitable chemicals, for control of dust in the demolition of buildings or structures, construction operations, the grading of roads, or the clearing of land.
- (b) Application of asphalt, water, or other suitable chemicals, on dirt roads, material stockpiles and other surfaces which may give rise to airborne dusts.
- (c) Paving and maintenance of roadways.
- (d) Prompt removal of earth or other material from paved streets onto which earth or other material has been transported by trucking or earth moving equipment, erosion by water, or by other means.

### # 025 [25 Pa. Code §127.441]

#### Operating permit terms and conditions.

- (a) The permittee may not modify any air contaminant system identified in Sections A or G, of this permit, prior to obtaining Department approval, except those modifications authorized by Condition #013(g), of Section B, of this permit.
- (b) The permittee shall immediately, upon discovery, implement measures, which may include the application for the installation of an air cleaning device(s), if necessary, to reduce the air contaminant emissions to within applicable limitations, if at any time the operation of the source(s) identified in Section A of this permit, is causing the emission of air contaminants in excess of the limitations specified in, or established pursuant to, 25 Pa. Code Article III, or any other applicable rule promulgated under the Clean Air Act.

### # 026 [25 Pa. Code §127.441]

#### Operating permit terms and conditions.

The permittee shall ensure that the source(s) and air pollution control device(s), listed in Section A and Section G, where applicable, of this permit, are operated and maintained in a manner consistent with good operating and maintenance practices, and in accordance with manufacturer's specifications.

### # 027 [25 Pa. Code §127.441]

#### Operating permit terms and conditions.

To prevent fugitive emissions from the use of the in-plant roads from becoming airborne, the permittee shall ensure that all paved in-plant roads shall be swept a minimum two (2) times per week, weather permitting.

## VII. ADDITIONAL REQUIREMENTS.

No additional requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

## VIII. COMPLIANCE CERTIFICATION.

No additional compliance certifications exist except as provided in other sections of this permit including Section B (relating

## SECTION C. Site Level Requirements

to State Only General Requirements).

### IX. COMPLIANCE SCHEDULE.

No compliance milestones exist.

## SECTION D. Source Level Requirements

Source ID: 101

Source Name: BATCH ASPHALT PLANT

|                             |                 |                  |
|-----------------------------|-----------------|------------------|
| Source Capacity/Throughput: | 150.000 Tons/HR | ASPHALT CONCRETE |
|                             | 45.000 MCF/HR   | Natural Gas      |
|                             | 320.000 Gal/HR  | NO. 2 FUEL OIL   |

### I. RESTRICTIONS.

#### Emission Restriction(s).

**# 001 [25 Pa. Code §127.441]**

##### Operating permit terms and conditions.

The permittee shall ensure that the emissions from the asphalt plant and the associated baghouse, shall be limited to the following:

| Pollutant                        | Emission Rate       | Emission Rate<br>(tons/year)* |
|----------------------------------|---------------------|-------------------------------|
| Nitrogen Oxides (NOx)            | 43 ppm              | 4.86                          |
| Volatile Organic Compounds (VOC) | 95 ppm (as methane) | 4.96                          |
| Particulate Matter (PM)          | 13.95 lbs/hr        | 13.30                         |
| Sulfur Dioxide (SO2)             | 30 ppm              | 5.99                          |
| Carbon Monoxide (CO)             | 80 ppm              | 7.87                          |

\* 12-month rolling sum basis

**# 002 [25 Pa. Code §127.441]**

##### Operating permit terms and conditions.

No person may permit the emission into the outdoor atmosphere of particulate matter from this source at any time in such a manner that the concentration of particulate matter in the effluent gas exceeds 0.02 grains per dry standard cubic foot.

[Compliance with this condition will assure compliance with 25 Pa. Code Section 123.13.]

#### Throughput Restriction(s).

**# 003 [25 Pa. Code §127.441]**

##### Operating permit terms and conditions.

The permittee shall ensure that the production of asphalt from this facility shall not exceed 286,000 tons per year, as a 12-month rolling sum.

### II. TESTING REQUIREMENTS.

**# 004 [25 Pa. Code §127.441]**

##### Operating permit terms and conditions.

**SECTION D. Source Level Requirements**

[Additional authority for this permit condition is from 25 Pa. Code Section 127.11a(a).]

(a) Upon reactivation of the facility, the permittee shall perform a source test in accordance with 25 Pa. Code Chapter 139 and the Department's Source Testing Manual (274-0300-002) to demonstrate compliance with limitations in this permit for NO<sub>x</sub>, VOC, PM and CO. The source test shall be performed while the aforementioned source(s) is operating at maximum routine operating conditions or under other such conditions within the capacity of the equipment, as may be requested by the Department.

(b) At least sixty (60) calendar days prior to reactivation of the facility, the permittee shall submit to the Department, for written approval, the procedures for the test and a sketch with dimensions indicating the location of sampling ports and other data to ensure the collection of representative samples.

The notice of reactivation pursuant to 25 Pa. Code Section 127.11a(a)(5) shall be combined with the protocol submission.

(c) At least thirty (30) calendar days prior to the test(s), the Department shall be informed of the expected date and time of the test. Final acceptance of the test date is contingent on approval of the test protocol.

(d) Within forty-five (45) calendar days after the source test(s), two copies of the complete test report, including all operating conditions shall be submitted to the Department for approval.

(f) In the event that any of the above deadlines cannot be met, the permittee may request an extension for the due date(s) in writing and include a justification for the extension. The Department may grant an extension for a reasonable cause.

(g) The Department reserves the right to establish and impose more stringent limits than those stated in the conditions above, based on the test results from each source test performed as specified.

**# 005 [25 Pa. Code §139.53]**

**Filing monitoring reports.**

Pursuant to 25 Pa. Code § 139.53(b), a complete test report shall include a summary of the emission results on the first page of the report indicating if each pollutant measured is within permitted limits and a statement of compliance or non-compliance with all the applicable permit conditions. The summary results will include, at a minimum, the following information:

(a) a statement that the owner or operator has reviewed the report from the emissions testing body and agrees with the findings;

(b) permit number(s) and condition(s) which are the basis for the evaluation;

(c) summary of results with respect to each applicable permit condition;

(d) statement of compliance or non-compliance with each applicable permit condition.

**# 006 [25 Pa. Code §139.53]**

**Filing monitoring reports.**

Pursuant to 25 Pa. Code §§ 139.53(a)(1) and 139.53(a)(3) all testing submittals, besides notifications, shall be accomplished through PSIMS\* Online available through

<http://www.depgreenport.state.pa.us/ecommm/Login.jsp>

when it becomes available. If internet submittal cannot be accomplished or is not available, two copies of the submittal shall be mailed to the Department.

## SECTION D. Source Level Requirements

### III. MONITORING REQUIREMENTS.

#### # 007 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall monitor the following information for the Freeborn Batch Asphalt Plant:

- (i) The amount of hot mix asphalt produced on a daily basis;
- (ii) The type and amount of fuel used by the Asphalt Plant Dryer (part of Source ID: 101) on a monthly basis;
- (iii) The hours of operation on a daily basis.

### IV. RECORDKEEPING REQUIREMENTS.

#### # 008 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall maintain records of the following information for the Freeborn Batch Asphalt Plant:

- (i) The amount of hot mix asphalt produced on a daily basis;
- (ii) The type and amount of fuel used by the Asphalt Plant Dryer (part of Source ID: 101) on a monthly basis;
- (iii) The hours of operation on a daily basis.

The records shall provide sufficient data and calculations to clearly demonstrate compliance with provisions in this State Only Operating permit (Synthetic Minor).

These records shall be retained for at least five (5) years and shall be made available to the Department upon request.

### V. REPORTING REQUIREMENTS.

#### # 009 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

Glasgow, Inc. / Freeborn Asphalt Plant shall submit, upon Department request, samples of the fuel oil used by this facility.

### VI. WORK PRACTICE REQUIREMENTS.

#### # 010 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall ensure that emissions from the Asphalt Plant Dryer (part of Source ID: 101) are controlled by the Baghouse with Knockout Box (Source ID: C01).

#### # 011 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

[Additional authority for this permit condition is also derived from 25 Pa. Code § 127.512(h).]

The permittee shall ensure that if fuel oil is used, only virgin fuel oil may be used to which no waste oil recycled oil or other waste materials have been added.

#### # 012 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

Upon reactivation of the facility, the permittee shall follow the provisions of its reactivation plan received in the Department October 17, 2012. In addition,

- (a) the permittee shall test for additional pollutants, as indicated in Condition #004(a)

## SECTION D. Source Level Requirements

(b) report the results of the black light testing and bag replacement of the Baghouse (Source ID C01) to the Department within 10 business days of completion.

Instead of the black light test, the permittee has the option of replacing all the bags in the Baghouse in accordance with the manufacturer's specifications. In this case, the permittee shall provide a confirmation to the Department that all the bags were replaced within 10 business days of the replacement.

(c) If all the bags in the Baghouse are not replaced, the permittee shall follow up with additional black light testing after operation of more than 4 months but less than 6 months. The company shall submit results of the black light test to the Department within 10 days of completion of the follow up black light test.

(d) The Department reserves the right to require additional testing for PM depending on the results of the follow up black light testing of the Baghouse.

## VII. ADDITIONAL REQUIREMENTS.

### # 013 [25 Pa. Code §127.11a]

#### Reactivation of sources.

[Additional authority for this Plan Approval Condition is from 25 Pa. Code Section 127.441.]

Pursuant to 25 Pa. Code Section 127.11a(b), a source which has been out of operation for more than 5 years but less than 10 years may be reactivated and will not be considered a new source if the following conditions are satisfied:

(a) The owner or operator of the source complies with the requirements of 25 Pa. Code Section 127.11a(a), pertaining to maintenance plans and reactivation plans.

(b) The owner or operator of the source obtains a plan approval and operating permit which requires that the emission of air contaminants from the source will be controlled to the maximum extent, consistent with the best available technology as determined by the Department as of the date of reactivation.

If the batch asphalt plant is expected to be reactivated after June 24, 2016 but before June 24, 2021, the permittee shall comply with Conditions #004 and #012 of this Operating Permit and in addition,

(1) The permittee shall submit a Plan Approval application prior to the planned reactivation sufficiently in advance of the reactivation to allow for Department review of the application and issuance of the Plan Approval. The permittee may not reactivate the facility prior to Department issuance of the Plan Approval. The Plan Approval application will be subject to current Department policies and timeframes for processing.

The Plan Approval application shall include the date of the planned reactivation and a best available technology analysis (BAT) which demonstrates that the equipment and emission rates currently in the Operating Permit are expected to meet BAT on the date of reactivation. The Department will re-evaluate BAT as of the date of reactivation, and identify more stringent emissions rates, if applicable, which will be a condition of the Plan Approval.

(2) After compliance with the emission rates of the pollutants stack tested in accordance with Condition #004 of this Section is demonstrated and the test report is reviewed by the Department's Source Testing Group, the plan approval will be incorporated in this Operating Permit.

### # 014 [25 Pa. Code §127.11a]

#### Reactivation of sources.

Pursuant to 25 Pa. Code Section 127.11a (c), a source which has been out of operation for 10 or more years shall meet the requirements of 25 Pa. Code Chapter 127 for a new source.

**SECTION D. Source Level Requirements****# 015 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

The maximum design capacity for asphalt production from the Batch Asphalt Plant (Source ID: 101) is 150 tons/hr.

**# 016 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

The Asphalt Plant Dryer (part of Source ID: 101), manufactured by McCarter Corp., Model No. M-150, with a rated throughput design capacity of 150 tons/hour, is equipped with a Hauck Ecostar 50 burner with automatic damper control.

**# 017 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

The following equipment is associated with the Batch Asphalt Plant (Source ID: 101):

- (i) Asphalt Plant Dryer
- (ii) Rotary Drum
- (iii) Hot Elevator
- (iv) Hot Screen
- (v) Hot Bins
- (vi) Pug Mill
- (vii) Dust Silo

## SECTION D. Source Level Requirements

Source Name: BAGHOUSE WITH KNOCKOUT BOX

Source Capacity/Throughput:

N/A

PARTICULATE MATTER

### I. RESTRICTIONS.

#### Emission Restriction(s).

# 001 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

No person may permit the emission into the outdoor atmosphere of particulate matter from this source at any time in such a manner that the concentration of particulate matter in the effluent gas exceeds 0.02 grains per dry standard cubic foot.

[Compliance with this condition will assure compliance with 25 Pa. Code Section 123.13.]

### II. TESTING REQUIREMENTS.

No additional testing requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

### III. MONITORING REQUIREMENTS.

# 002 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall monitor the pressure differential across the control device (Source ID: C01) twice-a-day, when operating.

### IV. RECORDKEEPING REQUIREMENTS.

# 003 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall maintain records of the pressure drop across the control device (Source ID: C01) twice-a-day, when operating.

### V. REPORTING REQUIREMENTS.

No additional reporting requirements exist except as provided in other sections of this permit including Section B (State Only General Requirements).

### VI. WORK PRACTICE REQUIREMENTS.

# 004 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall ensure that the knockout box shall be operated with good air pollution control practices.

# 005 [25 Pa. Code §127.441]

##### Operating permit terms and conditions.

The permittee shall ensure that the storage and handling of the dust materials captured by the control device (Source ID: C01) shall not at any time result in the emission of fugitive air contaminants in excess of the limitations specified in 25 Pa. Code § 123.1 of Chapter 123 of the Rules and Regulations of the Dept. of Environmental Protection.

**SECTION D. Source Level Requirements****# 006 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

The permittee shall ensure that this control device (Source ID: C01) will operate at a pressure range of 1.0" to 6.0" w.c. (water column).

**# 007 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

The permittee shall equip this control device (Source ID: C01) with a Department-approved device (i.e., magnehelic) for monitoring the pressure differential.

**VII. ADDITIONAL REQUIREMENTS.****# 008 [25 Pa. Code §127.441]****Operating permit terms and conditions.**

The permittee shall keep on hand a sufficient quantity of spare fabric collector bags for the control device, in order to be able to immediately replace any bags requiring replacement due to deterioration resulting from routine operation of the sources and the control device.

## **SECTION E. Alternative Operation Requirements.**

No Alternative Operations exist for this State Only facility.

## SECTION F. Emission Restriction Summary.

| Source Id      | Source Description         |                                         |           |
|----------------|----------------------------|-----------------------------------------|-----------|
| 101            | BATCH ASPHALT PLANT        |                                         |           |
| Emission Limit |                            |                                         | Pollutant |
| 7.870          | Tons/Yr                    | 12-month rolling sum                    | CO        |
| 80.000         | PPMV                       | total asphalt plant and baghouse        | CO        |
| 4.860          | Tons/Yr                    | 12-month rolling sum                    | NOX       |
| 43.000         | PPMV                       | total asphalt plant and baghouse        | NOX       |
| 5.990          | Tons/Yr                    | 12-month rolling sum                    | SOX       |
| 30.000         | PPMV                       | total asphalt plant and baghouse        | SOX       |
| 0.020          | gr/DRY FT3                 | particulate matter                      | TSP       |
| 13.300         | Tons/Yr                    | particulate matter/12-month rolling sum | TSP       |
| 13.950         | Lbs/Hr                     | particulate matter                      | TSP       |
| 4.960          | Tons/Yr                    | 12-month rolling sum                    | VOC       |
| 95.000         | PPMV                       | total asphalt plant and baghouse        | VOC       |
| C01            | BAGHOUSE WITH KNOCKOUT BOX |                                         |           |
| Emission Limit |                            |                                         | Pollutant |
| 0.020          | gr/DRY FT3                 | particulate matter                      | TSP       |

### Site Emission Restriction Summary

| Emission Limit |         |                                         | Pollutant |
|----------------|---------|-----------------------------------------|-----------|
| 24.900         | Tons/Yr | 12-month rolling sum                    | NOX       |
| 24.900         | Tons/Yr | 12-month rolling sum                    | VOC       |
| 99.900         | Tons/Yr | particulate matter/12-month rolling sum | TSP       |

**SECTION G. Miscellaneous.**

(a) The following sources have been determined by the Department to be insignificant sources of air emissions, and therefore do not require additional limitations, monitoring, or recordkeeping. They are still subject to any applicable Federal, State and Local regulations that may apply, including the Site Level Requirements (Section C) of this permit and the emission inventory reporting requirements (25 Pa. Code Chapter 135).

- (i) Natural Gas Line (Source ID: FML01)
- (ii) 1-10,000 Gal. Fuel Tank (No. 2 Oil) (Source ID: FML02)
- (iii) Asphalt Storage Tanks (AT01)
- (iv) Transport and Handling Activities
- (v) Truck Loadout
- (vi) Aggregate Conveyors and Feed Bins
- (vii) 2-Asphalt Tank Heaters, electrically powered.

(b) The basis for this State Only Operating Permit (Synthetic Minor) (APS ID: 500942, Auth ID: 581916) is the previously issued operating permit OP-23-0026 (Batch Asphalt Plant).

(c) This State Only Operating Permit (Synthetic Minor) (APS ID: 500942, Auth ID: 620256) has been administratively amended to include the Asphalt Plant Dryer (Source ID: 032) as part of the Batch Asphalt Plant (Source ID 101).

(d) This State Only Operating Permit (Synthetic Minor) (APS ID: 500942, Auth ID: 626334) has been administratively amended to include the 2-Asphalt Tank Heaters (Source ID: 031A) in the list of activities that are exempted from emission limits, monitoring and recordkeeping requirements.

(e) The amended operating permit issued to the facility on April 19, 2006 (APS No.: 500942, Auth ID: 626334) was an incorrect permit type (Title V Operating Permit). On May 1, 2008, the Dept. processed and subsequently issued a permit (APS No.: 500942, Auth ID: 722936) of the correct type for this facility (State Only Operating Permit - Synthetic Minor).

Section B (General State Only Requirements) of this permit will contain the applicable conditions for a State Only Operating Permit.

(f) The State Only Operating Permit is renewed , AUTH # 842841.

(g) AUTH # 1080924

April 2016 - The State Only Operating Permit is renewed. The following changes were made with the renewal issuance. Condition numbers refer to the January 12, 2011 issuance.

Cover Page

The Responsible Official was updated to Jeffrey Frantz.

Section C

The following standard conditions were revised to reflect current DEP guidelines.

#002

#006

#013 tiered monitoring permission was also removed.

#023

#026 also moved to Emissions Restrictions section

Condition #011

The condition was modified per the regulatory update (February 9, 2013) of 25 Pa. Code Section 139.16.

Condition #018

The condition was clarified by adding the phrase "12-month".

Additional Work Practice Condition

The standard condition requiring operation with good operating and maintenance practices and in accordance with manufacturer's specifications was included.

#027 - #029

The Compliance Schedule was removed as the requirements have been met.

**SECTION G. Miscellaneous.**

## Section D

Source ID 101

Condition #001

The authority was corrected to 25 Pa. Code Section 127.441. A notation was made that adherence to the emission limitation will satisfy the requirements of 25 Pa. Code Section 123.13(b).

## Conditions

#002

#003

#007

#009

#011

#012

The additional authority of 25 Pa. Code Section 127.512(h) was removed from the conditions above as the citation only applies to Title V facilities.

## Condition #004

\*The condition was revised to include stack testing upon reactivation of the facility.

\* SO<sub>2</sub> was excluded from the pollutants to be tested since previous testing has shown minimal amounts.

\*The notice or reactivation was noted to be combined with the stack test protocol.

\* 45 days was allowed for report preparation in accordance with the reactivation plan for the facility.

\* A phrase was included allowing extension of the deadlines upon permittee request and DEP approval, per current DEP guidelines.

## Additional Work Practice Conditions

The requirements to follow the reactivation plan and follow up black light testing were included.

## Condition #014

Dust silo was included with the list of equipment comprising the batch asphalt plant.

## Additional Requirements

\* A condition was added indicating that a Plan Approval application, which includes an analysis demonstrating that the existing equipment meets BAT, be submitted sufficiently before the planned reactivation to allow for DEP review, if the reactivation takes place after June 24, 2016 but before June 24, 2021.

\* A condition is included indicating that a source out of operation for 10 or more years will be considered a new source.

## Source ID C01

Condition #001

The authority was corrected to 25 Pa. Code Section 127.441. A notation is made that adherence to the emission limitation will satisfy the requirements of 25 Pa. Code Section 123.13(b).

## Conditions #003, #005

The additional authority of 25 Pa. Code Section 127.512(h) was removed from the conditions above as the citation only applies to Title V facilities.

## Section G (Miscellaneous)

Changes made with this permit issuance were noted.
