

May 15, 2024 e-permitting Release Notes

e-permitting Proper

System Wide Updates

ID	Title	Description
161749	Internal Payment Verification Module Field Limits- card holder name	Updated the Card Holder name field to allow up to 50 characters. This should prevent issues with approving and denying payments.
152665	Internal Dashboard Headers	Added headers to the Internal Review dashboard to divide out grids associated to e-permitting Proper and Public Upload.
161060	New Labels for Payment Verification review task per CLX changes	Due to the Payeezy Transition, program users now use Client Line (CLX) to review payment information. Export Report fields have changed and e-permitting payment verification review task needs to be updated. Need to update three field labels: Reference Num to Merchant Invoice Number Authorization Num to Auth Code Transaction Tag to Merchant Tran ID
161404	Greenport call to e-permitting web service	Upon further research other scenarios identified between Greenport and e-permitting web service to update CCD users: <ol style="list-style-type: none"> When adding the same access right for two separate PA county codes within one transaction. When removing the last access ID PA county code in Greenport, the e-permitting webservice is called, however because the profile is now empty the service was throwing an error.
162951	Closing SDN Subtask in eFACTS	If the reviewer has completed completeness review, moves into the technical review and opens a correction notice with SDN, but they return to the completeness review and update a completeness review task, the SDN subtask in eFACTS should not be closed and will remain open.

Mining

ID	Title	Description
161128	Add CICE permit as PF Type for Annual Reports	PF kind CICE or Coal Incidental extraction is requested as a type to show on the 'Select the permit/GFCC for this report' dropdown list in the Annual Reports.
