

November 2022 e-permitting Release Notes

All Program areas

| ID | Title | Description |
|---|---|--|
| 80571 | Link A Draft to another Access ID (Client) | Today when a consultant is tied to an Access ID by the EFA; or when an EFA is tied to an Access ID by DEP staff; any drafts they have created are automatically tied to the correct client and then the client information within the application is updated. We are going to add a feature that will allow draft applications of type NEW to be moved to another client. |
|  <p>The screenshot shows the E-permit Dashboard interface. At the top, there are navigation links: Home, Create Authorization, and Admin, along with a user profile icon labeled 'UserName'. Below this is the 'E-permit Dashboard' section. It includes an 'Access ID' dropdown menu with the text 'Company Name/First-Last Name - Client ID', a 'Submission Type' dropdown menu set to 'NPDES General (PAG-02)', and a row of status buttons: Draft (1), Submitted (1), Correction Required (1), Approved (3), and Withdrawn/Denied (1). Below the buttons is a table with columns: Created Date, Project Name, Submission Type, Request Type, Last Modified By, Last Modified Date, Grant Access, Change Client, Edit, and Delete. A row of data is visible with values: 2/12/2016, Sample Project Name, NPDES General (PAG-02), New, John Doe, 2/12/2016, a lock icon, and the 'Change Client' button, which is circled in green.</p> | | |
| 85804 | Update Client info in any application until Final Determination | Currently, CLIENT INFO data was only updating in applications that were in DRAFT status; however, this should also occur if the application is SUBMITTED or CORRECTION RETURNED status. When a new EFA is linked to an EFACTS client; any application they started, regardless of status, should update the client information in the client info module. Additionally, if an existing EFACTS client information is updated in EFACTS; that Client Info should update until Issuance |

Bureau of Waterways Engineering and Wetlands

| ID | Title | Description |
|--------|---|--|
| 105946 | BWEW-update link on enrollment selection screen | BWEW program updated webpage links so the highlighted link needs to be updated to go here: www.dep.pa.gov/chapter105epermitting |

Clean Water

| ID | Title | Description |
|-------|--|---|
| 77971 | BCW- PA Bulletin Tasks- generate all Counties and Municipalities | The PA Bulletin Tasks needs to generate all of the counties and municipalities on the template. Currently it only displays the Primary County and Primary municipality, even when there are multiple. This will apply to the following administrative tasks: 'Receipt of Application and Draft Permit Notice', 'PA Bulletin Final Action Notice', and 'Receipt of Application' |

| | | |
|---------------|---|--|
| 101142 | CW Completeness Determination Task Updates | <p>For the NPDES General, all appl types;</p> <ol style="list-style-type: none"> 1. valid decisions should not have deny as a choice, currently they have complete, deny, Withdrawn, Return due to ineligibility. Please remove deny. 2. For NPDES Individual and E&S, all appl types; valid decisions are Complete, Withdrawn, Deny 3. For ESCGP-3, all appl types; valid decisions are Complete, Deny, Withdrawn, Return due to ineligibility <p>For the NPDES General; NPDES Individual; E&S; and ESCGP-3; for all appl types</p> <ol style="list-style-type: none"> 1. Once the task is closed it should be read only. When the task has a decision and a closed date - that is when it is considered closed. 2. The completeness review must be closed before you can close completeness determination 3. The Extension request review must be closed before you can close completeness determination 4. Completeness determination cannot be closed if there is an open completeness correction notice 5. This task cannot be deleted. |
| 101132 | CW - NPDES General - Eligibility Determination Task Updates | <p>Eligibility Determination task should not be editable after closure. Closure is that the task has a task completed date and a decision.</p> <p>This task can be deleted until it has a completed date and a decision.</p> |
| 101149 | CW - Completeness Applicant Communication Task Updates | <p>Completeness Applicant Communication task is editable until Management Final Sign-off.</p> <p>Even if the Applicant communication task is closed, it can still be edited until management final sign-off is completed. *updated wording 09/27*</p> <p>This is for all CW AUTH/APPL types. General, Individual, E&S, ESCGP3</p> <p>This task can be deleted until it is closed (has a decision/task status and task completed date)</p> |
| 106207 | CW-Completeness Extension Request Task updates | <p>Completeness Extension Request task is editable until the task is closed (decision/task status and task closed date).</p> <p>This task cannot be deleted. This task integrates to the SREL task. a second task may be created but information should not be overwritten in eFACTS.</p> <p>the Start date of the task in eFACTS is when the extension request was received by internal review, the end date is when the decision is made on the task.</p> <p>This is for all CW AUTH/APPL types. General, Individual, E&S, ESCGP3</p> |

| | | |
|---------------|--|---|
| 106225 | CW-Completeness Extension Request Review-lead reviewer notifications | <p>New Notification as part of the Completeness Extension Request, ensure an email is sent to the Lead Reviewer when a Completeness extension request review task is created.</p> <p>Update as part of Completeness Extension Request-send a second email notification to the Lead reviewer if the task is not closed after 5 business days of creation.</p> |
| 106517 | CW-Technical Applicant Communication task updates | <p>Technical Applicant Communication task is editable until Management final sign off. Even if the applicant communication task is closed, it can still be edited until management final sign off is completed.</p> <p>This is for all CW Auth/Appl types. General, Individual, E&S and ESCGP3 this task can be deleted until it is closed (has a decision/task status and task completed date).</p> |
| 106928 | CW-Technical Other DEP Review | <p>This task may be created more than once, if two of these tasks are opened simultaneously they are independent of each other.</p> <p>The task may be deleted until it has a Closed status. The task may be edited until the Management Final Signoff</p> <p>This is for all CW auths - only New and Major Amendment Appl types-General, Individual, E&S, ESCGP3 (not Minor Amendments for any)</p> |
| 106938 | CW-Technical-PWD PCSM Plan Review task | <p>This task is only an available option when the site includes Philadelphia county.</p> <p>There is no eFACTS integration with this task. More than one task may be created and they are independent of each other.</p> <p>The task may be deleted until it has been closed with a decision. The task may be edited until the Management Final Sign off task is closed</p> <p>This is for all auth types (Gen, Individual, E&S, ESCGP3), and the New and Major Amend (not Minor Amends).</p> |
| 65641 | Individual & General & E&S - Task Detail Process | <p>Please update the task details logic for the Individual & Generals for new applications and major amendments to reflect the attached. In addition to the attached spread sheet, for the E&S Individual application- need to include a 'PA Bulletin' task to auto-generate upon it being deemed complete</p> <p>Task Detail Process- Update task logic for applications to match the requirements attached excel list. Ensure all required tasks are completed and required tasks autogenerate correctly. This includes</p> |

| | | |
|---------------|----------------------------------|---|
| | | <p>(1) Task Detail for PAG-02- 'PA Bulletin Final Action Notice' needs to be a required task and should autogenerate after 'Management Final Sign-Off' task detail is completed. This is need for 'major' amendments as well (not minor amendments);</p> <p>(2) Update E&S application process to include 'PA Bulletin Notice' after the completeness determination is complete;</p> <p>(3) For all applications ensure eFACTS logic is followed (e.g. completeness task is closed out before technical).</p> |
| 101141 | Completeness Review Task Updates | <p>This is for all AUTH/APPL types in CW - General, individual, E&S, ESCGP3</p> <p>completeness review editable until completeness determination task is closed.</p> <p>completeness review task cannot be deleted.</p> |

Oil and Gas

| ID | Title | Description |
|--------|--|---|
| 101188 | OG - views based on Master Auths to support EFACTS transfers | Old client will now see transferred auths on a Transferred Tab. New Client will now have ability to create Alterations, Renewals, Redrills based on the transferred auth. |
| 98893 | Surface - ESCGP3-user changes to expedited review module during correction notice - warning notice | statement requested to be added to module where application type is set: "WARNING: Please confirm you are applying for the correct permit type. Once the application is submitted, changing from |

| | | |
|--------------|--|--|
| | | expedited review to standard review, and from standard review to expedite review will cause errors that cannot be corrected at the present time. Submitting for an expedited application when not applicable may result in the application being denied. If you have any questions, please contact the section chief in the Oil and Gas District where the project is located within.” |
| 73940 | Move 15-day objection date for permit issuance from Geo task to APP INFO BLOCK | The 15-day objection period date is currently displayed in the geo task where we build the permit. However, other staff (supervisors, managers) need to see this date to ensure the permit is not issued prior to this date. At this time they have to enter the geo task in order to see the date. It would be more efficient to have it in the overview area or in the permit build area we are creating outside of the tasks. |

Storage Tanks

| ID | Title | Description |
|---------------|--|--|
| 105057 | Disable create option for Installer until DEP approves enrollment for installers with mismatched names | When the user enrolls as an Installer, and their Greenport name does not match the installer name; their enrollment goes to DEP for review. For that special case only, we should disable the Create menu on their dashboard until the enrollment is approved. In the majority of cases the greenport name should match the installer name in greenport and then the person is auto enrolled and there is no approval process through DEP. |
| 105058 | Business rules to prevent ST EFA/Installer crossover | Business rules to prevent ST EFA/Installer crossover; An EFA should not be able to be an Installer and vice versa |
| 85704 | ST: Payment notifications only to individual who paid | limit the emails to only the EFA who submitted the payment |

Waste Management

| ID | Title | Description |
|---------------|---|---|
| 103139 | WM-field limitations for comments section | the limitations need to be placed on the comments section in 10A-2 and 'additional comments' in 18 so when concatenated they meet the eFACTS requirements for the overall comment field. program wants to limit the Comments in 10A to be 200 Character limit. Comments in 18 should be limited to 799 |
| | | |
