

September 13, 2023 e-permitting Release Notes

System Wide

ID	Title	Description
140445	Correction Notice Grid updates	Request to add a column in the correction notice titled, "Created/Sent by." The column will display the reviewer name of the person that sent (or recalled) the correction notice. This will be the second column to the right, move the 'correction type' column to be to the left of the view/edit button. In the Correction Notice details, in the bottom grid add a column "Action Taken By". This will display the reviewer/user's name who conducted the said action in that row.
136538	Remove first date from Notification history display	In the Notifications tab, the notifications only displays the first day the notice was sent. Users have to expand the list to view any additional notices sent. The date has been removed from the parent level.

Clean Water/OG Surface

ID	Title	Description
142661	UPDATED Special Permit Template for E&S Permit w. Earth Disturbance for an OG Activity	Additional edits and update identified for the Permit Template for E&S Permit w Earth Disturbance for an OG Activity.

OG Subsurface

ID	Title	Description
140846	Create an Alternate ID type 'WLPAD' in eFACTs for Oil and Gas ESCGP3 sites	When an OG ESCGP3 is creating a new site, an Alt ID type of 'WLPAD' should be created in eFACTS. If an existing site is missing the ID, the ID will be added. This happens only for ESCGP3 authorizations that are integrated as OG authorizations, not Clean Water.
