DRIVE ELECTRIC PA WHY DRIVE ELECTRIC? | EV 101 | FLEETS | DEALERSHIPS | GOVERNMENT | EVENTS

PLUG-IN...

TO A REVOLUTION IN MOTION...

WE WANT TO DOUBLE THE AMOUNT OF ELECTRIC CARS IN PENNSYLVANIA!

The transportation sector produces the largest share of greenhouse gas emissions in the US. Considering the majority of these emissions are sourced from passenger-duty vehicles, driving electric is one of the best ways to combat this issue. EVs produce less harmful pollution than gasoline and diesel vehicles and will continue to grow cleaner as our power generation become cleaner. Additionally, EVs are affordable and convenient, not to mention fun! Take a look around this site and learn how EVs can help your budget, the community and the planet, now and in the future.

- Priority Areas:
- Statewide Branded
 - Consumer Education
 - Utility & Regulatory Engagement
 - EV Charging Infrastructure Planning
 - State & Local Government Education
 - Dealer Engagement
 - Fleet Engagement
