Meaningful Watershed Educational Experience Virtual Learning Workshop Series for Students and Classroom Teachers

Thursday, January 28, 2021, 5:30 - 7:30 pm
Thursday, March 11, 2021, 5:30 - 7:30 pm

Stewardship and Civic Action: Student Action to Make Change

The first 20 registrants will be provided with free, ready-to-use kits for student investigations involving the framework to create meaningful local outdoor learning experiences (virtual and in-person) for their students and facilitate student action projects in this webinar series from the Chesapeake Bay Foundation.

Act 48 credit available for those who will train educators on MWEE tools and resources. Visit professional development. In addition, a Pennsylvania Facilitator’s MWEE Guide is being developed exclusively for Pennsylvania certified teachers who are invited to learn how to use the MWEE framework into their classrooms. With funding through a NOAA B-WET grant that concludes in 2021, project partners are developing hands-on student investigations and trainings to support educators.

Workshops will be held via Zoom, and course materials will be housed in Google Sites. For more information, please visit www.pde.state.pa.us.
