Facing Challenges and Addressing Local Issues Virtual Educator Workshop Series

Join NOAA for facilitated conversations around each of the NAAEE Community Engagement Fridays, 1:00 - 2:00 pm EST

This three-session series will model how teachers can work with their learners to identify local issues, implore inquiry learning principles, and activate learner voice in real land use and development. This series will pair NAAEE Community Engagement Fridays with Florida Beach Erosion and Development activity.

Workshop 1: January 27, 6:00 pm - 8:00 pm
Topic: The MWEE, Student Voice: Creating meaningful Student-Centered Learning

Workshop 2: February 3, 6:00 pm - 8:00 pm
Topic: The MWEE, Student Voice: Creating Student-Centered Learning in your Community

Workshop 3: March 31, 6:00 pm - 8:00 pm
Topic: Outdoor Investigations and Virtual Field Trips: Making the Learning Real and Relevant

It is estimated that 20% of the world’s population lives within 100 km of a coast, and 50% of all land is within 100 km of a coastal area. The challenges of beach erosion and development are severe, and yet there are many lessons to be learned from the beach. In January 1990, the President signed the Gulf of Mexico Energy Security Act (GOMESA), which allowed for the first time for a coastal erosion program to be implemented. Today, the program provides the opportunity for a multi-agency approach to address the problem of coastal erosion and development.

Another activity that will occur in February is the renewal of the Izaak Walton League Winter Salt Watch

DEP is also seeking public comment on the report until March 1. For more information, contact Stephanie Larson: elise.trelegan@noaa.gov

DEP’s new Recycling offers a great opportunity for teachers to use the Chesapeake Bay Program’s Meaningful Recycling Program.

Three students win DEP 2021 Radon Student Poster Contest

The DEP Radon Program will use their posters in public education outreach.

The DEP Radon Program is partnering with the Allegheny College Creek Connections Program to create “Creek Kits,” grab-and-go kits for teachers with all the materials and instructions needed to turn the lab into a hands-on learning experience. It is the prelude to mid-March when 3 to 5 eggs should arrive. During the incubation period, both parents take turns tending the eggs. Will 2022 play out as anticipated?

The Izaak Walton League will even send you the materials for free. This makes an ideal recycling program.

The DEP’s new Recycling booklet is now available. The booklet provides information to residents, and businesses understand how to recycle correctly. The booklet provides information to residents, and businesses understand how to recycle correctly. This booklet is available online at: DEP Recycling Booklet
