

Report Instructions for the *Oil and Gas Well Formations Report*

1. Overview of Reports

The Oil and Gas Well Formation Report is designed to show the target, oldest and producing formations for all Oil & Gas wells in the State of Pennsylvania. The purpose of this report is to display geological formation information of the well where it was recorded.

2. Search Function

REGION

Used for selecting a particular DEP Region in which the facility being permitted is located.

COUNTY

Used for selecting All Counties or one (1) County to be included on the report. When selecting one (1) County, the program will load only those municipalities that are within that county in the Municipality selection dropdown list. (Please wait as this may take a few minutes).

MUNICIPALITY

Used for selecting All Municipalities or one (1) Municipality to be included on the report. Selecting one (1) Municipality without selecting one (1) County, will show all permits issued in that particular municipality for all counties where that municipality name exists. Municipality name may be a town/city, a township name or a borough name.

WELL STATUS

Used for selecting the current well status that is to be included on the report.

OPERATOR

Used for selecting All Operators, by name, or one (1) Operator Name for which permits have been issued.

FORMATION

The formation selected will apply to the target, oldest, and producing formations. If any wellbores meet the formation criteria, all wellbores for the well will display.

UNCONVENTIONAL ONLY

Used for selecting whether the report will include all wells (Unconventional Only = NO) or include only those wells identified as an Unconventional well (Unconventional Well Only = Yes).

Clicking this button, after making all of your selections, will load the report based on the parameters you selected

3. Report ControlsA set of standard web paging controls. From left to right: a double left arrow, a single left arrow, a text box containing the number '1', the text 'of 1', a single right arrow, and a double right arrow.

Used for paging from report page to report page.

100%

Used to set the size of the report displayed.

Find | Next

Used to search the report for specific information.

XML file with report data
CSV (comma delimited)
PDF
MHTML (web archive)
Excel
TIFF file
Word

Used to select the file type of the report download.

Used to refresh the report based on the earlier selected parameters.
