

## INSTRUCTIONS FOR OIL AND GAS OPERATIONS BORROW PIT REGISTRATION

The following instructions are designed to assist the applicant in properly completing the *Oil and Gas Operations Borrow Pit Registration*, form 8000-FM-OOGM0141. Please type or print clearly when completing the form. If the information requested involves more than the space allows, copy the form and complete as required. Pursuant to 25 Pa. Code Sections 78.67(b) and 78a.67(b), operators must register the location of their existing borrow pits. Use this form to register existing or new underground or partially buried tanks.

### A. Operator Identification

Enter the information as required: name, address, telephone number, and DEP ID No. The DEP ID No. is the applicant's unique eFACTS identification number provided by the Department of Environmental Protection (DEP).

### B. Borrow Pit Information

Check only one box to indicate if the borrow pit being registered is new or existing.

Indicate the county and township where the existing or new borrow pit is located as well as latitude and longitude in degrees, minutes, and seconds, in the appropriate boxes. This should be North American Datum of 1983 (NAD83) and must meet the current DEP policy regarding locational accuracy.

Include API numbers for all wells currently serviced by the borrow pit. Do not include wells that are not yet drilled or permitted (do not yet have API numbers). If the borrow pit services additional wells in the future, the information required in this section will need to be updated and submitted to the DEP. Borrow pits that are in place prior to Chapter 78 only need to include the API number of the most recently active well.

### C. Applicant Certification and Signature

Provide well operator signature and date.

Submit the *Oil and Gas Operations Borrow Pit Registration* form to the appropriate district oil and gas office.
