Re: Erosion and Sediment Control (E&S) Permit
Atlantic Sunrise Pipeline
E&S Permit No. ECG03000150001
Susquehanna, Wyoming, Luzerne,
Northumberland, Columbia, Schuylkill, Lebanon,
and Lancaster Counties

Dear Mr. Dean:

In compliance with the provisions of the Pennsylvania Clean Streams Law, 35 P.S. §§ 691.1 et seq., the Department of Environmental Protection (DEP) hereby approves your application for an Erosion and Sediment Control Permit (E&S Permit) for the Atlantic Sunrise Pipeline project. Your permit is enclosed. DEP has made a determination that the earth disturbances proposed in your Notice of Intent (NOI) for coverage under the ESCGP-2 general permit are most appropriately addressed through an individual permit and has therefore treated your NOI submission as an application for an individual permit.

The permit is effective on August 30, 2017 and will expire on August 29, 2022. You must comply with all conditions of the permit in accordance with Sections 402 and 611 of The Clean Streams Law (35 P.S. §§ 691.402 and 691.611).

Please be advised that you are not authorized to commence construction that will result in earth disturbances until a pre-construction meeting is held in accordance with Part C VI of the permit and 25 Pa. Code § 102.5(e). The purpose of this meeting is to review all aspects of the E&S Permit with the permittee, co-permittees, operators, consultants, the DEP inspectors and licensed professionals or their designees who will be responsible for the implementation of the critical stages of the approved post-construction stormwater management (PCSM)/restoration plan.

In addition to the E&S permit authorization, the permittee and any subsequent co-permittees have additional responsibilities related to this authorization. E&S Permit requirements and state regulations require that operators who are not the permittee shall be a co-permittee. Please be advised that once an operator/contractor has been selected for the project, the E&S Permit must either be transferred to the operator/contractor or the operator/contractor must be made a co-permittee and enter into an agreement with the permittee. Please use the enclosed

Transferee/Co-Permittee Application form to transfer the permit or to add a co-permittee. This form must be received by DEP prior to the co-permittee/transferee action taking place.

As part of the operation and maintenance of best management practices (BMPs), the permittee or co-permittee(s) must conduct inspections of the BMPs on a weekly basis, at a minimum, and after each measurable storm event to include the repair or replacement of BMPs to ensure effective and efficient operation (see Part A III.C of the permit). The Visual Site Inspection Report Form is enclosed and must be used to document these required site inspections.

For any property containing a PCSM BMP, the permittee or co-permittee shall record an instrument with the recorder of deeds which will assure disclosure of the PCSM BMP and the related obligations in the ordinary course of a title search of the subject property. The recorded instrument must identify the PCSM BMP, provide for necessary access related to long-term operation and maintenance for PCSM BMPs and provide notice that the responsibility for long term operations and maintenance of the PCSM BMP is a covenant that runs with the land that is binding upon and enforceable by subsequent grantees. Unless a later date is approved by DEP in writing, the permittee shall record an instrument as required under 25 Pa. Code § 102.8(m)(2) and Part C XII of the permit within 45 days from the date of issuance of this permit. The permittee shall provide DEP and the conservation district with the date and place of recording along with a reference to the docket, deed book or other record, within 90 days from the date of issuance of this permit or authorization.

The Notice of Termination (NOT) form is also enclosed and must be completed and filed when construction activities have ceased and final stabilization has been achieved as a condition of this E&S Permit as specified in Part B I.B of the permit. The NOT is an E&S Permit requirement, as well as a regulatory requirement under 25 Pa. Code § 102.7. The NOT must identify the responsible person(s) for the long term operation and maintenance of the PCSM BMPs. Please be advised that the permittee and any co-permittees remain responsible for all operational maintenance for this project site until the NOT has been filed and acknowledged by DEP or the conservation district.

Any person aggrieved by this action may file a petition for review pursuant to Section 19(d) of the Federal Natural Gas Act, 15 U.S.C.A. § 717r(d), with the Office of the Clerk, United States Court of Appeals for the Third Circuit, 21400 U.S. Courthouse, 601 Market Street, Philadelphia, PA 19106-1790 within 30 days of publication of this notice, or within 30 days of receipt of written notice of this action, whichever occurs first. Important legal rights are at stake, so you should show this document to a lawyer at once.

If you have any questions, please contact Michael Luciani at 570-830-3089.

Sincerely,

Joseph J. Buczynski, P.E.
