Response to Technical Deficiency Letter  
Atlantic Sunrise Project  
Dallas, Fairmont, Ross, Lake, Lehman, & Jenkins Townships and Harvey's Lake Borough,  
Luzerne County**

Dear Mr. White:

Transcontinental Gas Pipe Line Company, LLC (Transco) is submitting the following revised Application in response to the Technical Deficiency letter issued by the Pennsylvania Department of Environmental Protection (PADEP) Northeast Regional Office on February 24, 2017 for the Chapter 105 Water Obstruction and Encroachment Joint Permit Application (Application). The original Application for the portion of the Atlantic Sunrise Project (Project) located within Luzerne County was submitted to the PADEP on August 28, 2015, with a revised version of the Application submitted on November 22, 2016 as response to technical deficiency comments. Transco requested an extension to respond to the technical deficiencies issued on February 24, 2017, which was granted by the PADEP on April 26, 2017.

Per the PADEP's request, with this transmittal we are providing all portions of the original Application with the Project revisions due to new survey data and response to technical deficiencies. With this submission, we are providing two (2) electronic copies (one copy of Public Information and one copy of Privileged and Confidential) of the revised Application for your review and information; however, two (2) hard copies of the revised application will follow on or before Monday, May 8, 2017. Within the attached DVD is a revised complete permit application with new or added information marked in ***bold, italicized text*** and removed features marked in ~~**bold, strikethrough text**~~. To aid in your review, yellow highlighted sections indicate content which is county specific. Also enclosed to facilitate the PADEP's review of Transco's response to technical deficiencies is an updated response to technical deficiency table, and their location within the revised Application package.

*Atlantic Sunrise Project – Luzerne County  
Response to Technical Deficiency Letter  
May 3, 2017*

We believe that, with this submittal, the referenced permit application is now complete and request concurrence as such from the PADEP.

If you have any questions regarding the Project, please contact me at (713) 215-3427 or [joseph.dean@williams.com](mailto:joseph.dean@williams.com). Thank you for your continued consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Joseph Dean". The signature is written in a cursive style with a long horizontal stroke extending to the right.

Joseph Dean, Manager, Permitting  
Transcontinental Gas Pipe Line Company, LLC
