Attachment F – Bog Turtle Statement*

Bog turtle habitat is known within fifteen (15) Pennsylvania counties including: Adams, Berks, Bucks, Carbon (Aquashicola Creek Watershed only), Chester, Cumberland, Delaware, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, Schuylkill (Swatara Creek Watershed only), and York.

Within Schuylkill County, the Swatara Creek Watershed is the only watershed which is known to contain bog turtle habitat and populations. Correspondence with the U.S. Fish and Wildlife Service on April 28, 2014 indicated that no further coordination for bog turtle habitat within Schuylkill County is needed; correspondence documentation is included as Attachment G-5.
