Dear Mr. Brett:

The Department of Environmental Protection (DEP) has reviewed the above referenced application for completeness. The completeness review is the first step in a series of reviews conducted by DEP.

DEP has determined that the application package contains sufficient detail to enable DEP to conduct the technical review and has been accepted for that purpose.

This is not a final action by DEP on this application. The completeness review is the first in a series of reviews conducted by DEP. The application will now move to the technical review stage of the permit review process. During the technical review, the adequacy of the application and its components will be evaluated to determine if sufficient information exists to render a decision on the technical merits of the application.

I hope you find this information helpful in understanding the permit review process. If you have additional questions about your application, please contact Nick Rossi at 717-772-5667 or nicrossi@pa.gov and refer to Application No. ESG836520001-00.

Sincerely,
