Re: Permit Modification Request
Permit No. E23-524
Horizontal Directional Drill (HDD) Location S3-0620
Middletown Township
Delaware County

Dear Mr. Gordon:

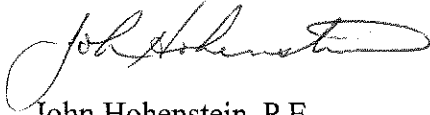

The Department of Environmental Protection (DEP) has reviewed the above-referenced permit modification request for completeness. The completeness review is the first step in a series of reviews conducted by DEP.

DEP has determined that the application contains sufficient detail to enable DEP to conduct the technical review and has been accepted for that purpose.

This is not a final action by DEP on this application. The completeness review is the first in a series of reviews conducted by DEP. The application will now move to the technical review stage of the permit review process. During the technical review, the adequacy of the application and its components will be evaluated to determine if sufficient information exists to render a decision on the technical merits of your application.

I hope you find this information helpful in understanding the permit review process. If you have additional questions about your application, please contact me at the telephone number located in the first page footer.

Sincerely,

John Hohenstein, P.E.
Regional Manager
Waterways and Wetlands
