RE: Sunoco Pipeline L.P., Pennsylvania Pipeline Project
Stormwater/ Floodplain Management Program Consistency Request

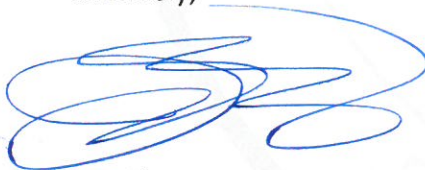

Ms. Silva:

Please be advised that on March 16, 2011, the Township of Upper Allen adopted its current Stormwater Management Ordinance under Chapter 214 of the Township Code, and it is effective in the project area. After studying the proposed activity, it appears that the Pennsylvania Pipeline Project is consistent with the local Stormwater Management Plan.

Upper Allen Township also adopted Floodplain Regulations on June 17, 2009, which can be found in Chapter 245, Article XVII of the Township Zoning Ordinance. The proposed activity for the Pennsylvania Pipeline Project has been studied, and appears to be consistent with the FEMA Floodplain Management Program effective in the Township.

If any questions/comments/concerns arise, please contact me at 717-766-0756 or at jboyer@uatwp.org.

Sincerely,

Jennifer M. Boyer, AICP
Community Development Director/
Zoning Officer
