RE: Hydrogeological Reevaluation Report  
HDD S2-0016, E65-973  
Livermore Road Crossing  
Derry Township, Westmoreland County

Dear Mr. Gremminger:

The Department of Environmental Protection (DEP) reviewed Sunoco Logistics L.P.'s (SPLP) Horizontal Directional Drill (HDD) Reevaluation Report submitted on February 1, 2019. The HDD Reevaluation Report was posted on the DEP Mariner East II pipeline portal webpage on February 1, 2019.

DEP received and reviewed public comments on the HDD Reevaluation Report submitted jointly by Clean Air Council, Mountain Watershed Association, and Delaware Riverkeeper Network. In response to those comments, DEP undertook further evaluation and concluded that the concerns raised were adequately addressed.

The DEP's review of the geologic aspects of this HDD re-evaluation were completed by a Licensed Professional Geologist.

As part of the HDD Reevaluation Report, SPLP has proposed a redesign of the profile to go deeper into competent bedrock. The deepening of the profile does not result in a lengthening of the HDD outside of the limit of disturbance or relocation of the entry/exit pits, therefore no permit amendment is necessary. SPLP may proceed with the permitted activity in the manner proposed in SPLP's HDD Reevaluation Report submitted February 1, 2019, and in accordance with all applicable permit terms and conditions.

If you have any questions regarding this matter, please contact me at 412.442.4149, or by email at [dadrake@pa.gov](mailto:dadrake@pa.gov).

Sincerely,

Dana Drake, P.E.  
Environmental Program Manager  
Waterways & Wetlands Program

Mr. Gremminger
