Re: Completeness Notification Letter – Erosion and Sedimentation Control Permit  
PennEast Pipeline Project, ESG02000160001  
Luzerne County, Carbon County, Monroe County,  
Northampton County & Bucks County

Dear Ms. Holly

The DEPARTMENT OF ENVIRONMENTAL PROTECTION (DEP) has reviewed the above referenced application for completeness. The completeness review is the first step in a series of reviews conducted by DEP and/or the District.

DEP has determined that the application package contains sufficient detail to enable DEP and the District to conduct the technical review and has been accepted for that purpose. A notification of the draft permit will be published in the Pennsylvania Bulletin for this application.

This is not a final action by the DEP and/or the District on this application. The completeness review is the first in a series of reviews conducted by DEP and the District. The application will now move to the technical review stage of the permit review process. During the technical review, the adequacy of the application and its components will be evaluated to determine if sufficient information exists to render a decision on the technical merits of your application.

I hope you find this information helpful in understanding the permit review process. If you have additional questions about your application, please contact Michael Luciani, at 570-826-2597 and refer to ESG02000160001.

Sincerely,

A handwritten signature in blue ink that reads "Robert J. Jevin III". The signature is written in a cursive, flowing style.

Robert J. Jevin III, P.E.  
Environmental Group Manager
