

COMMENT / RESPONSE DOCUMENT

On April 9, 2021, Transcontinental Gas Pipe Line Company, LLC (Transco) submitted a 25 Pa. Code Chapter 102 (“Chapter 102”) Erosion and Sediment Control Permit Application, ESG830021002-00 and two 25 Pa. Code Chapter 105 (“Chapter 105”) Water Obstruction and Encroachment Permit Applications, E4083221-006 and E4583221-002, for the Regional Energy Access Expansion Project (“REAE Project”). The Pennsylvania Department of Environmental Protection (“DEP” or “Department”) reviewed these submissions and determined that the applications contained all necessary information and met the requirements of DEP’s regulations. As part of the review of the REAE Project, DEP’s review is coordinated internally and with various local, state and federal entities where necessary. Other state and/or federal agency concurrence may also be necessary prior to commencement of the expansion project.

On September 18, 2021, DEP published notice in the Pennsylvania Bulletin that it would be accepting public comments, per its regulatory requirements, from September 18, 2021 until October 18, 2021. On October 15, 2021, DEP extended the public comment period until December 6, 2021. The public comment period was reopened on August 27, 2022 when DEP published a Notice of Public Hearing in the Pennsylvania Bulletin, written comments were accepted through October 12, 2022. DEP held the public hearing, in virtual format, on October 5, 2022.

Numerous unique comments from a total of 881 different commentors were received by DEP during this formal comment period. In some cases, comments were received that may not necessarily be applicable to the REAE Project expansion specifically, but rather relate to health, safety and environmental concerns in a more general sense. In other cases, individual comments expressed concerns which DEP has summarized in order to provide a comprehensive response to the individually expressed concerns on related issues. Regardless, DEP has considered all comments received during review of the submitted applications. This comment response document reflects that consideration.

A list of the commenters, including names and affiliations (if any) is provided below. Each individual who submitted a comment is assigned a Commenter ID number, which is then listed at the end of the corresponding comment in the [comment response document](#), provided under separate cover. This comment response document is broken down into two parts. The first part contains a table of the commenters that commented during the comment periods and contains links to any attachments that the commentator submitted with the public comment. Part two of the document contains that comment submitted and the department’s response to the comment received. Each public comment is listed with the identifying Commenter ID number at the end of

the comment. Please note, for ease of use, the comment document has been divided into sections based on subject matter. Comments that covered multiple topics were separated and placed in the appropriate sections, to be discussed along with other comments on the same topic.

More information pertaining the REAE Project is available at:

<https://www.dep.pa.gov/Business/ProgramIntegration/Pennsylvania-Pipeline-Portal/Pages/Regional-Energy-Access-Expansion-Project.aspx>
