2024 Outreach
Strategy &
Submission Schedule

Background: National Pollutant Discharge Elimination Systems (NPDES) Electronic Reporting (eReporting) Rule

- Published October 22, 2015
- Requires CAFOs to report information electronically, instead of filing written, paper reports
- Two-phased approach to implementation
 - CAFO Annual Report is included in the data elements captured in Phase 2.
- Original Phase 2 deadline for implementation: December 21, 2020.
 - Extended on November 2, 2020
- Current Phase 2 deadline for implementation: December 21, 2025.
 - Final rule provides states with flexibility to request additional time if needed.

Goals: eReporting System for the Submission of the CAFO Annual Reporting

01

Comply with EPA's eReporting Rule

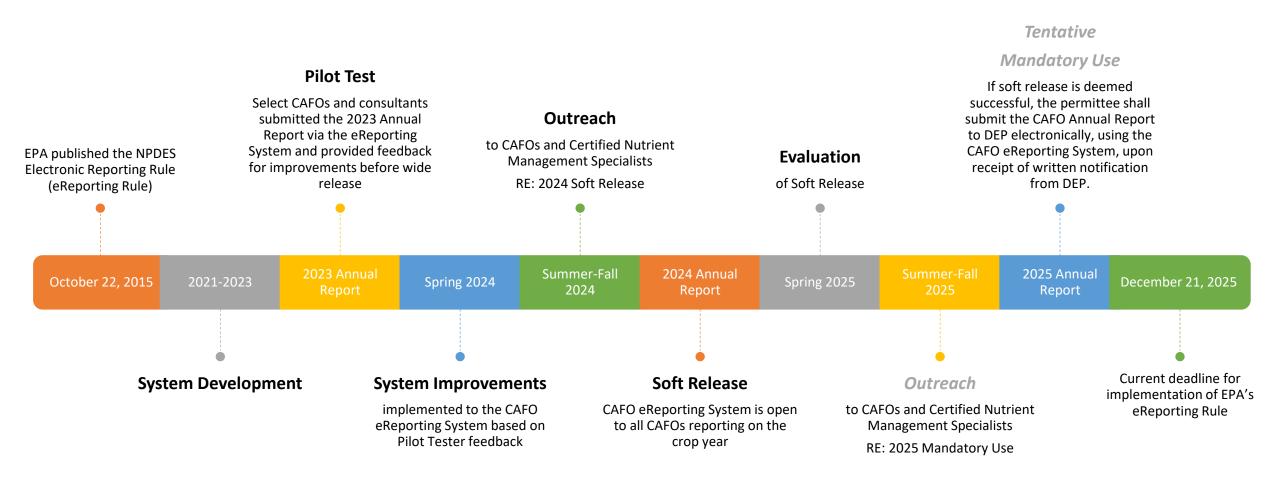

02

Increase submission workflow efficiencies

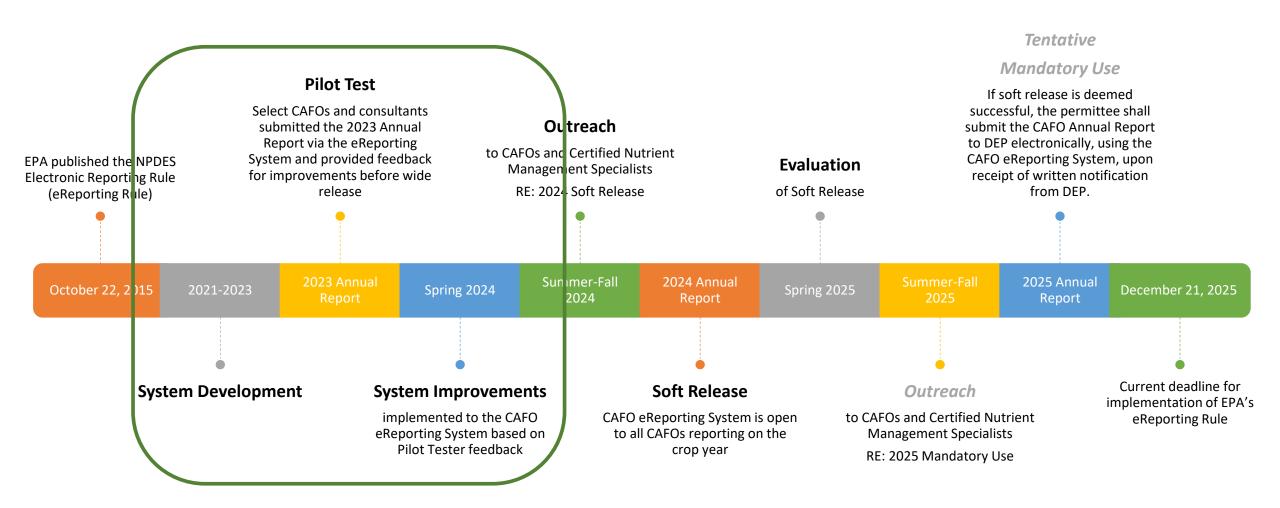

03

Increase review and acknowledgment workflow efficiencies

Timeline

Timeline

eReporting Basics: Development

System Development

Requirements Gathering

CAFO Users

Consultant Users

DEP Reviewer Users

DEP Administrator Users

System Improvement

Auto-populate functionality (from previous year's submission)

Electronic storage in DEP's OnBase (for program staff access)

eReporting Basics: User Roles

CAFO Users

Viewer

- Can view reports but cannot enter data or submit reports.
- CAFO Account Manager can designate an employee

Preparer

- Can view and enter data into reports but cannot submit reports.
- CAFO Account Manager can designate employee

Certifier

- Can view, enter data, and submit reports.
- Should be a DEP point of contact for the CAFO
- Requires Trading Partner Agreement (TPA) Form

Account Manager

- Can view, enter data, submit reports, and add or remove other users
- Should be a DEP point of contact for the CAFO
- Requires Trading Partner Agreement (TPA) Form

Consultant Users

Viewer

- Can view reports but cannot enter data or submit reports.
- CAFO Account Manager can designate a consultant

Preparer

- Can view and enter data into reports but cannot submit reports.
- CAFO Account Manager can designate a consultant

Consultant Account Manager

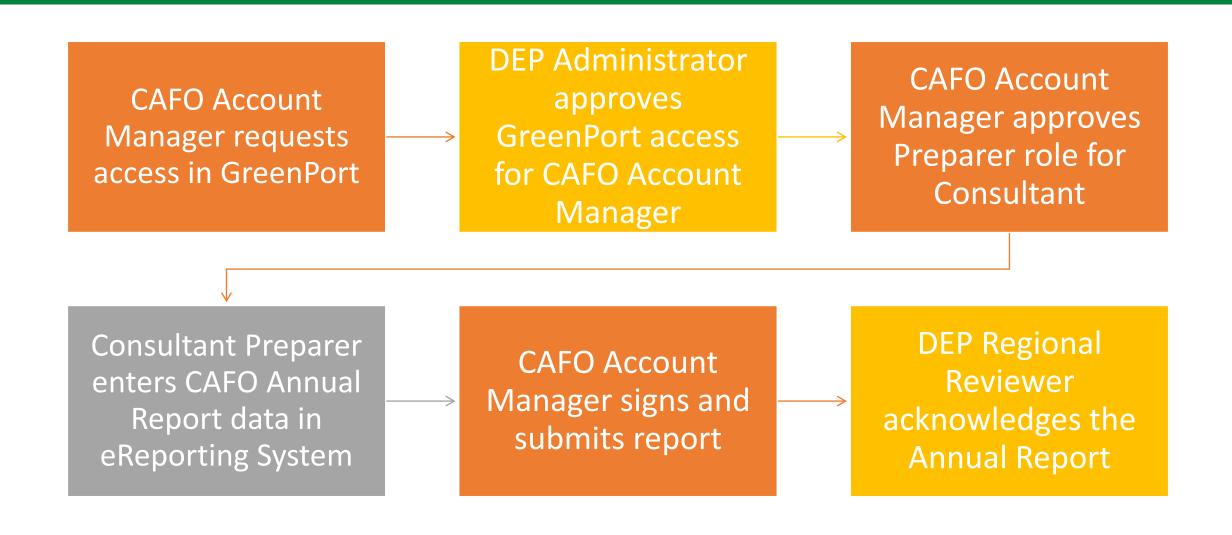

- Only to be used when the CAFO does not have access to a computer and internet
- Can view, enter data, submit reports, and add or remove other users
- Requires signed Permittee Certification Form

DEP Users

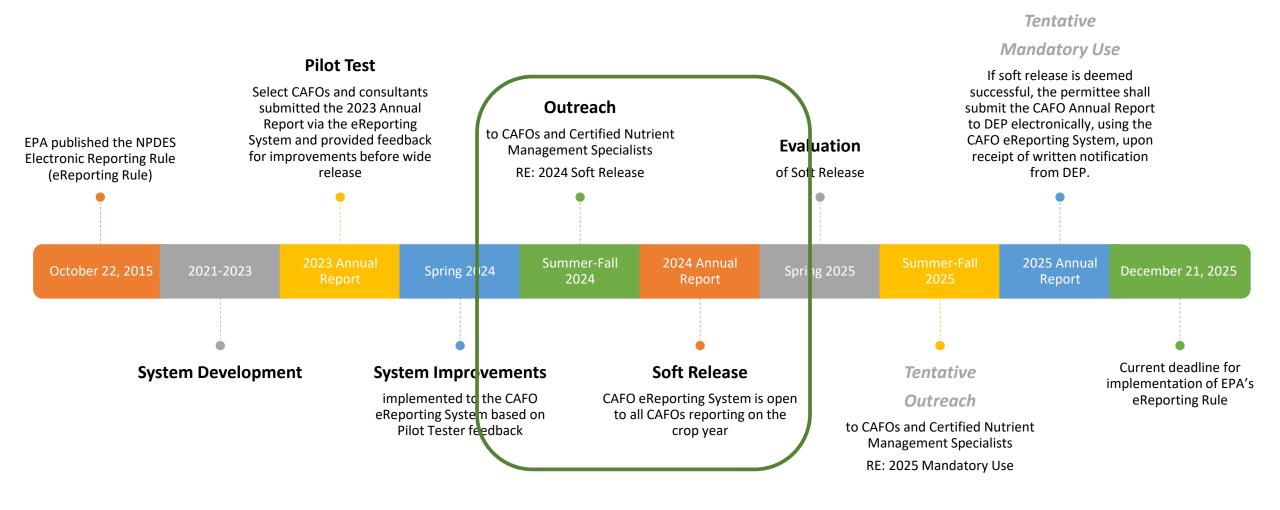

• DEP Regional Reviewer

- Can review and acknowledge reports
- DEP Administrator
- Can approve DEP Regional Reviewer access requests
- Can approve Account Manager, Certifier and Consultant Account Manager access requests

2024 Soft Release Outreach Strategy & Submission Schedule

Ongoing

Coordination with industry representatives on the AAB

August 21, 2024

Advisory Board notification and discussion

Mid-Late September

As part of DEP's annual winter letter, to all CAFOs, DEP notifies all CAFOs of the voluntary use of the eReporting System for submission of the 2024 Annual Report

October 1, 2024

eReporting System will begin accepting data for the 2024 Annual Report

December 31, 2024

Deadline for submission of the 2024 Annual Report for all CAFOs covered by the PAG-12

Notify Certified NM Specialists of the September 4, 2024, webinar and voluntary use of the eReporting System for submission of the 2024 Annual Report

Early July

Introductory live webinar open to all CAFOs and consultants on September 4 at 9am.

September 4, 2024

On-demand step-by-step instruction on the use of the eReporting System on DEP's Clean Water Academy and open to the public.

Currently available – Updates complete by Mid-September

Mid-September

CAFOs with liquid or semi-solid manure may begin submission of the 2024 Annual Report

December 15, 2024

Summary

- eReporting System for the submission of the CAFO Annual Report will be open for voluntary use by all CAFOs reporting on the crop year on October 1, 2024.
- Plan for additional time the first year to:
 - Establish roles and access
 - Enter foundational CAFO information
- Significant time savings are anticipated for the CAFO or consultant in the 2^{nd} year submission.
- DEP is moving toward mandatory use of the eReporting System in compliance with EPA's eReporting rule as soon as 2025.
