DISCUSSION/INFORMATION ITEMS

- Chair Browning stated that all of the ad hoc meetings have been completed. Comments and suggestions from the ad hoc meetings are being compiled to be sent to the full Committee for review at least one week prior to next meeting. The Committee will present and vote on said comments and suggestions at the next meeting.

PUBLIC COMMENT

- Patrick Drohan asked if it would be beneficial to the Committee for its members to pursue SEO certification. Drohan also inquired if there is a one-page document outlining the requirements to become an SEO. Drohan also proposed having an introductory sewage enforcement course for Committee members in lieu of full certification. Tomisa Kiskadden directed Drohan to a Clean Water Academy video that explains the certification process but also said that the DEP can investigate creating a one-page guidance document. Chair Browning invited Drohan to look at the PASEO website for an outline of certification requirements.

NEW BUSINESS

Chair Browning called for any new business from the Committee. The ad hoc committees are working on packaging their comments and suggestions to share with the full Committee prior to the December 18th meeting. The Committee will vote on the package in order to advance its recommendations for the regulation rewrite to the DEP.

Chair Browning and the DEP will begin planning the agendas for the 2026 meetings. The 1/29/2026 in-person meeting location will be in Boyertown, and the in-person meeting location for the 4/29/2026 and 9/30/2026 meetings will be in the Rachel Carson building.

Tomisa Kiskadden explained to the Committee that the next steps of rulemaking development require the DEP to assign costs to any applicable rewrites. The DEP may ask the Committee for professional input on cost estimates and pricing or ask for referrals to potential professional contacts.
