

Technical Decision Making (TDM) Guidance for On-lot Sewage System Repair Situations TGD

(362-2208-004)

Sewage Advisory Committee

18 September 2024

2022 TDM TGD Update Highlights

- Updated the TGD title.
- Added definitions.
- Added a list of acronyms and scope.
- Clarified the TDM step-by-step process for system repairs.
- Added the need to justify the decision to use BTG.

2022 TDM TGD Update Highlights

- BTG shall not be used on sites prohibited by regulations or out of a DEP permit review, if appropriate.
- Clarified water supply encroachment using BTG.
- Clarified and expanded on the use of site-specific experimental technology.

2024 – What's next for the TDM TGD?

- Present pre-draft TGD with changes to SAC today.
- Update as needed based upon SAC comments.
- Publish draft for a 30-day public comment period in the Pa. Bulletin.
- Once comments have been received, we will review and complete a C&R document.
- After updating the document based on comments, we will publish the TGD as final with the C&R document.
