To: Charles Bennett, Chairman
Regional Water Planning Commission

From: *John Lerew*^{PHS}
John Lerew, Chairman
Adams County Planning Commission

Subject: Critical Water Planning Area
Marsh Creek – Adams County

The Adams County Planning Commission voted unanimously during their February 18, 2004 meeting to request that Marsh Creek be designated as a "Critical Water Planning Area". There are numerous preservation and conservation initiatives underway in this "development prone" watershed, which is an important drinking water source for Gettysburg Borough and surrounding municipalities.
