- Statewide, public-private partnership co-chaired by the Governor and a PA private sector leader
- Accelerate economic growth through public-private partnership

Areas of Impact

Agriculture

Energy

Life Sciences

Manufacturing

A Cross-Sector Collaborative is...

An action-oriented public-private partnership leveraging business and government, nonprofit organizations, academic institutions, and organized labor **to realize economic opportunities through collective action.**

Pennsylvania Energy Horizons Cross-Sector Collaborative

- Statewide network of leaders from industry, government, labor, nonprofits, & academia
- Create the conditions for innovative, technological, and market-driven solutions to decarbonize PA's economy while creating jobs
- Public-private partnership
- Catalyst & enabler for investment
- Driver of sustained, long-term commitment

Where we've been...

Accomplishments:

- Published op-ed on importance of Inflation Reduction Act to PA
- Released GPI Road Map on Carbon Management & Hydrogen Deployment in PA
- Held event at Global Clean Energy Action Forum in Pittsburgh
- Launched series of Policy Deep Dive conversations

Participation:

- Collaborative participation grew from 35 to 230+ individuals across multiple sectors and diverse perspectives
- 130+ individuals participated in Policy Deep Dive conversations
- County commissioners, state legislators, state agency leadership, Governor's Office, and staff from the federal delegation actively participate in Collaborative activities

GPI Roadmap on Carbon Management & Hydrogen Deployment

8 Recommendations for PA:

Update & Revise PA's Statutory Framework	Solicit Bipartisan Infrastructure Law (BIL) Funding
Apply for UIC Class VI Primacy	Commission Future Studies
Consider Regional Approaches (intra- and inter-state opportunities)	State-wide Digitization of Geologic Data
Prepare for DOE Hydrogen Hubs	Comment and Engage Where Possible
Use/Acceptance of Standards and Best Practices
