#### Education

B.S., Shippensburg University

For over 20 years, Duane has been involved with the Act 537 program in PA and has been providing alternative solutions for wastewater treatment and dispersal, primarily for onlot sewage treatment.

Following completion of his degree in chemistry, Duane worked for Philadelphia Electric Company at the Peach Bottom Atomic Power Station and Limerick Generating Station and was involved in all aspects of nuclear chemistry at those facilities.

Duane is a licensed Class A wastewater treatment plant operator, a Class B water treatment plant operator and a Sewage Enforcement Officer. He has served on the PA Sewage Advisory Committee, including several terms as chairman. Duane is a member of the Pennsylvania Water Environment Association, the Pennsylvania Association of Sewage Enforcement Officers and the Pennsylvania Septage Management Association.

Duane resides in the Shippensburg area with his wife – they are blessed with three wonderful children.
