3800-PM-WSFR0076e Rev. 8/2008 DMR

COMMONWEALTH OF PENNSYLVANIA DEPARTMENT OF ENVIRONMENTAL PROTECTION BUREAU OF WATER STANDARDS AND FACILITY REGULATION

Discharge Monitoring Report (DMR) for Combined Sewer Overflows

Outfall No.: Overflow Location: Permittee Name:				Month: Prepared By: Signature/Date:							
						County:				Title/Position:	
						Municipality:				NPDES#:	
DATE	FLOW (mg)*	DURATION	CAUSE	COMMENTS (Rainfall, Intensity, etc.)							

Use one report form each month for each monitored overflow point; use separate sheets for additional comments or narrative explanations.

^{*}Identify the method used to determine overflow volumes, (for example, 10 MG C):

O = Observed duration and rate of flow to approximate overflow volume.

C = Calculated overflow volume utilizing a model or empirical analysis.

M = Measured overflow volume from data collected by a calibrated flow monitor.
