RE: Public Comment re: PFAS Investigation
CO&A with Penn State University re: State College Airport

Consistent with a discussion and motion at the regularly scheduled meeting of the College Township Council on January 16 2025, Council hereby provides four (4) comments for consideration relative to the Consent Order & Agreement noted above:

College Township acknowledges the historic use of PFAS in our area and its presence in biosolids, wastewater discharges, and aqueous fire-fighting films as used at the State College airport, among other points of environmental introduction. The Council of College Township has the following requests of PA DEP and Penn State University for inclusion in the Consent Order and Agreement:

1. As part of the Remedial Investigation Work Plan to be undertaken by Penn State under the direction and supervision of PA DEP, College Township requests that the plan include provisions to identify the extents of the airport plume's impact, notably whether additional properties or wells beyond those already identified have been directly impacted by the airport plume.
2. Should the Remedial Investigation Report identify additional impacted properties from the airport plume at levels exceeding the state drinking water standard for PFOA, PFOS, PFBS, PFNA, or PFHxS, such properties should be afforded the same opportunities and procedures in obtaining a POET system as those properties currently receiving a POET system.
3. College Township Council requests an opportunity to provide comments on draft documents developed during the remediation effort, including, but not limited to:
 - a. Remedial Investigation Work Plan
 - b. Remedial Investigation Report
 - c. Cleanup Plan and Risk Assessment and/or Final Report
4. PA DEP and Penn State University notify College Township of any additional qualifying private drinking water supplies impacted by the airport plume pursuant to 4.i of the Consent Order.

For any questions relative to the above, please feel free to contact me via email at abrumbaugh@collegetownship.org or College Township Assistant Engineer Jere Northridge at jnorthridge@collegetownship.org.

Sincerely,

A handwritten signature in black ink, appearing to read "Adam T. Brumbaugh". The signature is fluid and cursive, with a long, sweeping tail that extends to the right.

Adam T. Brumbaugh
Township Manager
