SUBJECT: Perma-Fix Cost Proposal for:
REQN PIT4775113
RADCON and Analysis at the Mahoning Street Site, Milton, PA

Dear Mr. Stokes,

Perma-Fix Environmental Services, Inc. (Perma-Fix) is pleased to provide the attached cost proposal to Amentum Holdings, Inc. in support of REQN PIT4775113, RADCON and Analysis at the Mahoning Street Site, Milton, PA.

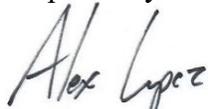

We appreciate the opportunity to provide this proposal and we are confident that our highly qualified health physics personnel and wealth of corporate experience in characterizing radiological contaminants for federal, state, and commercial stakeholders will provide value to Amentum's objectives at this site. Our personnel for this task will be sourced from and overseen by senior management at Perma-Fix's New Brighton, PA office, leveraging our local knowledge and familiarity with PADEP requirements to Amentum's benefit.

Unless otherwise specified, this proposal is valid for 60 days.

We look forward to hearing from you. If you have any questions or require additional information, please contact me via the information provided below.

Executive Summary

Perma-Fix is pleased to submit this cost proposal to provide RADCON and analysis at the Mahoning Street site in Milton, PA (Site).

Perma-Fix is one of the nation’s premier providers of radiological support services and specializes in projects at state-licensed/regulated and/or U.S. Environmental Protection Agency (EPA) regulated radiological sites throughout the country. Perma-Fix employs the required health physicists and health physics technicians in our New Brighton, Pennsylvania Office, allowing for timely deployment of additional on-site support as needed. The depth and breadth of Perma-Fix’s radiological safety experience and expertise couple with our close proximity to the site to make us the optimal choice for performing this scope of work (SOW).

Request for Taxpayer Identification Number and Certification

Go to www.irs.gov/FormW9 for instructions and the latest information.

**Give form to the
 requester. Do not
 send to the IRS.**

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See Specific Instructions on page 3.	1	Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.) Perma-Fix Environmental Services, Inc.	
	2	Business name/disregarded entity name, if different from above.	
	3a	Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only one of the following seven boxes. <input type="checkbox"/> Individual/sole proprietor <input checked="" type="checkbox"/> C corporation <input type="checkbox"/> S corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Trust/estate <input type="checkbox"/> LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner. <input type="checkbox"/> Other (see instructions) _____	4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3): Exempt payee code (if any) _____ Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) _____ <i>(Applies to accounts maintained outside the United States.)</i>
	3b	If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions _____ <input type="checkbox"/>	
	5	Address (number, street, and apt. or suite no.). See instructions. 8302 Dunwoody Place, Suite 250	Requester's name and address (optional)
	6	City, state, and ZIP code Atlanta, GA 30350	
	7	List account number(s) here (optional)	

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Social security number									
or									
Employer identification number									
5	8	-	1	9	5	4	4	9	7

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

Good afternoon, Mr. Stokes,

Perma-Fix would like to submit the below requests for information regarding the subject RFQ. Thank you in advance for your consideration.

1. Pricing sheet asks for Perimeter Monitoring w/Generator per week. Is fuel for the generator to be included in this price? If so, how many days per week and hours per day are the monitors/generator required to run?
2. Are any hazardous materials are expected to be sampled and analyzed as part of this scope?

3. How many samples should be assumed to be collected for offsite analysis?
4. Where on the pricing sheet should analysis cost be entered?
5. Is travel and per diem for the shipper to be included in Item No. 29 on the pricing sheet?
6. Please confirm transportation and disposal of waste is not included in this pricing request.
7. Can equivalent instrumentation be priced in lieu of the stated models?
8. Is PPE expected to be provided by the Subcontractor for others? If so, please specify the quantity to assume.
9. Please confirm the radionuclides of concern. What analytical methods are required for the sample analyses?
10. Where on the bid sheet should travel time for mobilization and demobilization of workers be included?
11. Please clarify how lodging and per diem need to be captured for weekend stayovers?
12. Prime Contract Flowdowns:
 - a) Page 2, contractor integrity provisions: are we required to submit our written business integrity policy, and if so, are there any requirements for acceptability of such a policy?
 - b) Page 7, do “foreign corporations” include out-of-state corporations or strictly outside of the US?

Good afternoon, Mr. Stokes,

Perma-Fix would like to submit the below requests for information regarding the subject RFQ. Thank you in advance for your consideration.

1. Pricing sheet asks for Perimeter Monitoring w/Generator per week. Is fuel for the generator to be included in this price? If so, how many days per week and hours per day are the monitors/generator required to run?
2. Are any hazardous materials are expected to be sampled and analyzed as part of this scope?
3. How many samples should be assumed to be collected for offsite analysis?
4. Where on the pricing sheet should analysis cost be entered?
5. Is travel and per diem for the shipper to be included in Item No. 29 on the pricing sheet?
6. Please confirm transportation and disposal of waste is not included in this pricing request.
7. Can equivalent instrumentation be priced in lieu of the stated models?
8. Is PPE expected to be provided by the Subcontractor for others? If so, please specify the quantity to assume.
9. Please confirm the radionuclides of concern. What analytical methods are required for the sample analyses?
10. Where on the bid sheet should travel time for mobilization and demobilization of workers be included?
11. Please clarify how lodging and per diem need to be captured for weekend stayovers?
12. Prime Contract Flowdowns:
 - a) Page 2, contractor integrity provisions: are we required to submit our written business integrity policy, and if so, are there any requirements for acceptability of such a policy?
 - b) Page 7, do “foreign corporations” include out-of-state corporations or strictly outside of the US?

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.

Apologies Doug that I missed this as I was out this week. Are you looking for me to just fill out and return the Attachment A Bid form with rates and prices for us to complete the scope defined by each line? It looks substantially different than what you were looking for earlier. I can provide this back to you next week – is that ok?

Prepared by: Brian Radus

1.0 INTRODUCTION

Amentum Environment & Energy, Inc., (Contractor), under our IRRSC8 Contract with the Pennsylvania Department of Environmental Protection (PADEP), has been assigned to abate potential hazards at the Mahoning Street Milton Site. The Site is located at 1010 Mahoning Street, Milton, PA. Amentum's primary tasks for the PADEP Mahoning Street Milton Site assignment includes radiological surveying, sample collection and analysis to characterize the Site and waste, obtain disposal approval, surgical demolition of structure to remove identified impacted material, confirmation that all impacted material has been removed to release criteria, restoration of structure, perform a Final Status Survey to record as left condition, and complete off-site disposal of materials to an appropriate waste disposal facility.

You are invited to submit a cost proposal for radiological protection, sample collection and analysis services associated with this Site. Amentum's current work schedule has on-site characterization and sampling activities starting in November 2025 assuming a two-week duration. And the selective demolition, restoration and transportation and disposal tasks starting February 2026 with a four-week duration. Amentum is requesting that your pricing be held firm through June 2026 for all requested services required at this Site. The Bidder's pricing and additional information shall be presented on the Bid Form included in **Attachment A**. In order for your proposal to be evaluated you shall include **bidders' terms and conditions, W-9 form with your federal identification number listed and a current certificate of insurance**. Each of the listed items is required by PADEP.

1.1 DEFINITIONS

Not used.

2.0 SITE BACKGROUND

The site of concern is a wood-frame residential home with a basement located on an approximately 0.25-acre lot.

On October 20, 2006 the Department responded to the site when the owner's son claimed that he had radioactive material. DEP's NCRO Emergency Response Team and Bureau of Radiation Protection staff conducted a site inspection. The inspection revealed both chemicals and radiation sources at the residence. The property owner was given instructions that the material must be disposed of properly and a hazardous material contractor was retained.

On April 30, 2025 DEP Waste Management and Radiation Protection responded to the Lycoming County Landfill after the third load in the last six weeks from the same trash pickup route set off radiation detectors. Investigation of the load identified the material in question as coming from the 1010 Mahoning Street Milton address that DEP responded to in 2006.

On May 5, 2025, Waste Management, Radiation Protection and Environmental Cleanup and Brownfields conducted a joint inspection of the residence. The inspection identified numerous potential radiation sources were present.

A subsequent inspection was conducted by Radiation Protection on May 7, 2025 which identified and consolidated additional radioactive material. Some of this material was taken to Lycoming County Landfill for storage in their secure area for this type of material. The inspection also identified the presence of contamination within the house.

A subsequent investigation conducted on May 12, 2025 by DEP Radiation Protection identified that a few additional radioactive sources remain and that there are multiple areas of contamination, such as flooring, furnishings and equipment. In addition, radiologically impacted trash and debris were found in various boxes and bins in various locations throughout the house.

An investigation of the exterior of the property was conducted on May 21, 2025 and did not find any additional areas of concern. Some chemicals, notably three containers labeled as hydrochloric acid, were also discovered, but not tested.

The radiation exposure levels within the residence do not pose an immediate risk to the resident under the current use of the building, however, precautions and controls must be maintained in order for protection of human health to be maintained.

The results of these inspections can be found in **Attachment C**.

2.1 PROJECT OBJECTIVES

The goals of the work to be performed under this contractual assignment are to dispose of the previously collected radioactive material, identify and collect any additional radioactive material at the residence, remediate the contamination of the residential structure, furnishings and equipment and dispose of any non-radioactive hazardous materials.

Specific field tasks:

- Locate all radiological impacted non-structural items that will need characterized and packaged for proper disposal.
 - Characterize these removable items sufficiently to determine acceptable disposal options.
 - Evaluate if large furniture items would be cost effective to try to decontaminate vs removal of the entire item for disposal.
- Survey the entire house to document any areas of radiological impacts that will need to be remediated.
- Evaluate known contaminated areas within the home to determine if locations can be effectively decontaminated in place or if they need removed completely.
- Decontaminate and/or remediate the home to radiological levels suitable for unrestricted use.
- Perform appropriate radiological surveys of the entire home and prepare a report documenting the final radiological conditions of the property.
- Restore any areas of the home that required extensive remediation that would be a safety hazard.
- Characterize and package all waste materials generated.
- Characterize, if needed, and package all waste previously removed from the home by PADEP that is stored at the local landfill.

- Ship all materials for disposal and provide final documentation to the Department.

Deliverables:

- Site Characterization Summary following the survey and evaluation including a work plan for remedial actions and anticipated project schedule.
- Subcontractor approval paperwork for the decontamination and disposal of the radioactive material.
- End of Project Report summarizing all activities that occurred at the residence, including all data collected and calculations used to conclude that the home is suitable for unrestricted use.

3.0 SCOPE

The purpose of this subcontract is to provide radiological protection, sample collection and analysis services and acquire transportation and disposal services for the anticipated waste streams.

3.1 PERIOD OF PERFORMANCE/SCHEDULE

Subcontractor agrees to be available to provide services to the Contractor beginning on or about November 7, 2025, until its completion. Authorization shall be obtained from Project Manager (Brian Radus) prior to any on-site mobilization.

5.0 WORK REQUIREMENTS

5.1 TECHNICAL REQUIREMENTS: The Subcontractor shall provide the technical effort in the tasks listed below in accordance with the approved work schedule.

5.1.1 Project Management: Task 1000

The Subcontractor shall provide the office management necessary to oversee and direct Subcontractor field operations to assure that the scope of work is achieved in a safe, efficient, and cost-effective manner.

5.1.2 Project Planning: Task 1010

Subcontractor shall provide the expertise necessary to finalize the draft work plan and obtain Client approval as it pertains to general radiation protection, sample collection and analysis, free release of the site and monitoring containers used for transport of waste material.

5.1.3 End of Project Report Preparation: Task 2070

The Subcontractor shall provide the expertise necessary to complete the End of Project Report and obtain approval from the Client as it pertains to general radiation protection, free release of the site and monitoring containers used for transport of waste material.

5.1.4 Sample Collection/Waste Inventory: Task 3010

The Subcontractor will provide radiation protection support for the project during site characterization/surveying, sample collection, and waste inventory activities.

Subcontractor will assist Contractor with collecting samples. The collected samples will be analyzed by the Subcontractor. Samples will be of the structure, waste stored at the Lycoming County Landfill, and chemical waste in order to properly characterize waste material for transport and disposal. Structural samples may be collected to further characterize the structure to identify impacted areas for removal.

5.1.5 Waste Collection and Staging: Task 4000

The Subcontractor shall provide general radiation protection services during selective demolition and waste collection and packaging. This will include, but not be limited to, workforce protection both in the work zone and support areas, monitoring / scanning of the structure and associated equipment during selective demolition, oversee decontamination activities, and conduct a final status survey of the structure to confirm free release conditions. The Subcontractor shall also monitor both incoming and outgoing containers and vehicles and assist certified shipper in determining the container's radiological activity prior to shipment.

5.1.6 Waste Transport and Disposal: Task 4020

The Subcontractor shall provide a certified shipper to complete shipping documents and all ancillary activities pertaining to the shipment of radiological impacted and other waste associated with the project.

5.2 CODES/STANDARDS/ORDERS/REGULATIONS

All applicable Federal, State and Local codes, standards, orders, and regulations shall be followed by the Subcontractor during the performance of the Statement of Work. Client/Owner Flow downs will also be applicable and followed.

5.3 QUALITY REQUIREMENTS

The Subcontractor shall provide sufficient quality in the performance of their work to successfully provide radiation protection, as required, for the onsite project workforce, general public, and future occupants (via Final Status Survey) of the project site. The Subcontractor shall meet quality objectives for all samples collected and analyzed during the performance of remediation activities. All of the records generated by the Subcontractor as required by this agreement will become Quality Records to be identified and maintained in accordance with Client or Contractor project directives.

5.4 PERSONNEL QUALIFICATIONS/CERTIFICATION

The Subcontractor shall provide qualified/certified/licensed personnel as required to perform radiation protection operations and analysis quality assurance/control for the Project. The Subcontractor shall provide evidence of all qualifications/certifications/licensing following acceptance of this agreement

6.0 PROJECT SITE

The primary work location for the scope of work described herein will be at the Mahoning Street Milton Site. The site is located at 1010 Mahoning Street, Milton, PA.

Additional material collected by the Department is stored at the Lycoming County Landfill located at 447 Alexander Dr, Montgomery, PA 17752.

6.1 PROJECT FURNISHED MATERIALS, EQUIPMENT, OR SERVICES

The Subcontractor shall furnish all personnel and equipment necessary to provide radiation protection and sampling and analysis services during the performance of the project. Contractor shall aid in implementing radiation protection and sample analysis as required by the Subcontractor. Subcontractor shall specify such assistance in Subcontractor's response to Request for Proposal.

7.0 DELIVERABLES

The Subcontractor shall deliver to the Contractor all documents generated during the project to implement radiation protection and other associated activities based on the scope of work presented in Section 5.0.

7.1 INSPECTION/TESTING REQUIREMENTS

The Subcontractor shall identify any and all testing, sampling, analysis or other information required to provide radiation protection and other associated services for the scope of work presented in Section 5.0.

7.2 FINAL ACCEPTANCE METHOD

Subcontractor shall provide assistance in the preparation of the End of Project Report and provide all required support documentation for submittal and approval by the Client.

8.0 SAFETY, HEALTH AND ENVIRONMENT MANAGEMENT

Subcontractor, and Subcontractor's lower-tier subcontractors performing Work at the Site, shall comply with the requirements of Amentum's Safety, Health and Environment (SH&E) Plan. Additionally, Subcontractor shall ensure compliance by all its employees with all safety directives and/or stop work orders issued by Amentum.

Amentum has the right, without liability or cost to Amentum, to stop Subcontractor's, and any of its sub-subcontractor's work, in the event of any violations of applicable safety requirements required by any provision of this Subcontract.
