Subject: RE: [External] TDL Extensions - E4129225-017 & ESG294125011-00

Good morning Kendra,

The Department should not be granting extensions at this stage of the review. Let's talk about specifics at the meeting on the 9th.

Dan

Good Afternoon Dan & Chris:

In light of our March 9th meeting with the ACOE, PGE would like to request an extension for the reply to the pre-denial technical deficiency letters. I can also send a formal letter of request, if needed.

I also have one additional question; and I apologize if we have already discussed this. Should PGE pursue the option of utilizing additional pre-fabricated bridge structures, would these crossings be subject to the compensatory stream mitigation requirements? Thank you again for your feedback.
