Dear Mr. Piepoli:

The Department of Environmental Protection (DEP) has reviewed the above referenced permit renewal application. The following deficiencies have been identified.

Deficiencies

PPC Plan

1. The Pollution Incident History section should be revised to reflect the abatement work that is ongoing. Please revise the PPC plan and resubmit for review.
-

You must submit a response fully addressing each of the significant technical deficiencies set forth above within 60 calendar days or the DEP may deny the application.

If you believe that any of the stated deficiencies is not significant, instead of submitting a response to the deficiency, you have the option of asking the DEP to decide based on the information regarding the subject matter of that deficiency that you have already made available. If you choose this option regarding any deficiency, you should explain and justify how your current submission satisfies that deficiency.

Should you have any questions regarding the identified deficiencies, please contact Bradley Lester, E.I.T. at (570) 820-4841 or bralester@pa.gov.

Sincerely,

David F. Matcho
