Re: Homer City VOC ERC Buyers Letter

Dear Mr. Levesque,

This letter is in reference to your letter received on June 25, 2025, requesting the Pennsylvania Department of Environmental Protection (DEP) to transfer a total of 6.4 tons per year (tpy) of VOC ERCs from Cambria Cogeneration Company (Cambria) to Homer City Generation, LP (HCG). These VOC ERCs are created from the shutdown of sources at Cambria Cogeneration Company Power Facility located in Cambria County.

Facility	Sources	Pollutant	Tons Per Year	Expiration Date
Cambria Cogeneration	031, 032	VOC	6.4	6/19/2029

The DEP is approving your request to transfer a total of 6.4 tpy of VOC ERCs from Cambria on September 17, 2025, and the ERC Registry system revised accordingly. The VOC ERCs are now available for use at HCG in accordance with the requirements of 25 Pa. Code Chapter 127 (relating to construction, modification, reactivation and operation of sources).

Under 25 Pa. Code § 127.206(f), 6.4 tpy of VOC ERCs generated from the shutdown of source 031 at Cambria Cogeneration Company Power Facility located in Cambria County will expire on June 19, 2029 if the credits are not used in a plan approval or operating permit prior to the expiration date.

If you have any questions or require additional information, please contact me at sewenrich@pa.gov or telephone 717-772-3979.

Sincerely,

Sean Wenrich
