Re: Request for Determination
Homer City Generation LP
Center Township, Indiana County
Auth: 1512985

Dear Mr. Cline,

Thank you for your Request for Determination (RFD) received January 21, 2025, concerning the Homer City Generation LP Facility located in Center Township, Indiana County. The following sources were proposed in the RFD:

- Three (3) Cummins C200N6 natural gas fired emergency generator engines rated 302 bhp
 - Each equipped with a catalyst and turbocharger
 - EPA certified, Subject to 40 CFR 60 Subpart JJJJ

The Department has determined that this project meets the Commonwealth's requirements of:

- 25 PA Code Section 127.14(a)(8) [*#44 - Any source granted an exemption by the Department through the execution of an RFD form.*]

and is **exempt from the requirement to obtain a plan approval.**

This exemption from plan approval does not affect your obligation to meet all applicable Federal and Pennsylvania Air Quality Regulations for this source. All air contamination sources and air pollution control devices must be operated in a manner consistent with the manufacturer's specifications and good engineering practice. Please be advised that this exemption is only valid for the equipment, throughput, and emission levels proposed in this RFD. A revised RFD or plan approval application will be required prior to any future expansions or changes which increase atmospheric emissions of sources which are not listed as a published exemption.

If you have any questions, please feel free to contact Jacob Chemsak at (814) 332-6638 or jachemsak@pa.gov or myself at (814)-332-6328 or dbalog@pa.gov.

Sincerely,

David G. Balog
