Subject: Bruner Joint Permit Revisions

Toby,

The following have been revised:

1. Aquatic Resource Impact Table (ARIT) and Impact Plan (**pages 85 and 86** of the permit application)
 1. Stream impacts have been included on the ARIT.
 2. Impact table coloration was revised for floodway impacts on the Plan sheet.
2. Environmental Assessment (EA) Narrative text in section S3.F – Alternatives Analysis (**page 103** of the permit application)
 1. Text has been revised to say “three” instead of “four.”

To answer DEP’s question:

3. S8 is assumed jurisdictional. This is an intermittent (relatively permanent) waterway that has a direct connection to a WOTUS.

Please ask DEP if they would just like the single pages to replace in their package or if they would like the updated Joint Permit Application.

Single pages are attached. An Adobe Cloud link is available for the entire .pdf. It can be downloaded here: [2025-09-18 Bruner Field Joint Permit Application.pdf](#)
